STRUCTURED NOTE PROGRAMME

STRUCTURED RATES, REFERENCE ITEM AND CREDIT-LINKED NOTES BASE PROSPECTUS

*This Base Prospectus has been approved by the Central bank of Ireland (the “**Central Bank**”), as competent authority under the Prospectus Directive. The Central Bank only approves this Base Prospectus as meeting the requirements imposed under Irish and European Union (“**EU**”) law pursuant to the Prospectus Directive. Such approval relates only to the Notes (as defined below) which are to be admitted to trading on a regulated market for the purposes of Directive 2004/39/EC (the “**Markets in Financial Instruments Directive**”) and/ or which are to be offered to the public in any Member State of the European Economic Area.*

*This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of the Prospective Directive and has been prepared for the purpose of giving information with regard to the issue of notes (the “**Notes**”) under the EUR 5,000,000,000 Structured Note Programme (the “**Programme**”) during the period of twelve months from the date of its publication.*

Application has been made to the Irish Stock Exchange for Notes (other than Exempt Notes) to be admitted to the Official List and to trading on its regulated market. References in this Base Prospectus to Notes being “listed” (and all related references) on the Irish Stock Exchange shall mean that such Notes have been admitted to the Official List and to trading on its regulated market. The regulated market of the Irish Stock Exchange is a regulated market for the purposes of the Markets in Financial Instruments Directive.

*In addition, application has been made to the Irish Stock Exchange for the approval of this Base Prospectus as Listing Particulars. Application has been made to the Irish Stock Exchange for Exempt Notes issued during the 12 months from the date of the Listing Particulars to be admitted to the Official List and to trading on the global exchange market (the “**Global Exchange Market**”) which is the exchange regulated market of the Irish Stock Exchange. The Global Exchange Market is not a regulated market for the purposes of the Markets in Financial Instruments Directive. Save where expressly provided or the context otherwise requires, where Exempt Notes are to be admitted to trading on the Global Exchange Market, references herein to “Base Prospectus” shall be construed to be to “Listing Particulars”.*

The Programme also permits Notes to be issued on the basis that they will not be admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system or to be admitted to listing, trading and/or quotation by such other or further listing authorities, stock exchanges and/or quotation systems (including, without limitation, the NASDAQ OMX Copenhagen A/S, the NASDAQ OMX Stockholm AB, the NASDAQ OMX Helsinki Oy or the NGM Stock Exchange) as may be agreed with the Issuer (as defined below).

The requirement to publish a prospectus under the Prospectus Directive only applies to Notes which are to be admitted to trading on a regulated market in the European Economic Area and/or offered to the public in the European Economic Area other than in circumstances where an exemption is available under Article 3.2 of the Prospectus Directive (as implemented in the relevant Member State(s)). References in this Base Prospectus to “Exempt Notes” are to Notes for which no prospectus is required to be published under

the Prospectus Directive. The Central Bank has neither approved nor reviewed information contained in this Base Prospectus in connection with Exempt Notes.

The Notes have not been and will not be registered under the United States Securities Act of 1933 (as amended) (the “**Securities Act**”) and may include Notes in bearer form which are subject to United States tax law requirements. Subject to certain exceptions, the Notes may not be offered or sold within the United States or to, or for the account or benefit of, any U.S. person. The Notes may be offered and sold outside the United States to non-U.S. persons in reliance on Regulation S (“**Regulation S**”) under the Securities Act.

An investment in Notes involves certain risks. Prospective purchasers of Notes should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. CERTAIN ISSUES OF NOTES INVOLVE A HIGH DEGREE OF RISK AND PROSPECTIVE PURCHASERS OF NOTES SHOULD BE PREPARED TO SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT. It is the responsibility of prospective purchasers of Notes to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other business evaluation of the merits and risks of investing in the relevant Notes and are not relying on the advice of the Issuer or any Dealer in that regard. For a discussion of these risks see “Risk Factors” below.

Neither the delivery of this Base Prospectus or any Issue Terms nor the offering, sale or delivery of any Note shall, in any circumstances, create any implication that the information contained in this Base Prospectus is true subsequent to the date hereof or the date upon which this Base Prospectus has been most recently supplemented or that there has been no adverse change in the financial situation of the Issuer since the date thereof, or, as the case may be, the date upon which this Base Prospectus has been most recently supplemented or the balance sheet date of the most recent financial statements which are deemed to be incorporated into this Base Prospectus by reference or that any other information supplied in connection with the Programme is correct at any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

IMPORTANT INFORMATION RELATING TO NON-EXEMPT OFFERS OF NOTES

Restrictions on Non-exempt offers of Notes in Relevant Member States

Certain Tranches of Notes with a denomination of less than €100,000 (or its equivalent in any other currency) may be offered in circumstances where there is no exemption from the obligation under the Prospectus Directive to publish a prospectus. Any such offer is referred to as a “**Non-exempt Offer**”. This Base Prospectus has been prepared on a basis that permits Non-exempt Offers of Notes. However, any person making or intending to make a Non-exempt Offer of Notes in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”) may only do so if this Base Prospectus has been approved by the competent authority in that Relevant Member State (or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State) and published in accordance with the Prospectus Directive, provided that the Issuer has consented to the use of this Base Prospectus in connection with such offer as provided under “*Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)*” and the conditions attached to that consent are complied with by the person making the Non-exempt Offer of such Notes.

Save as provided above, neither the Issuer nor any Dealer has authorised, nor do they authorise, the making of any Non-exempt Offer of Notes in circumstances in which an obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Consent given in accordance with Article 3.2 of the Prospectus Directive (Retail Cascades)

In the context of a Non-exempt Offer of such Notes, the Issuer accepts responsibility, in the jurisdictions to which the consent to use the Base Prospectus extends, for the content of this Base Prospectus under Article 6 of the Prospectus Directive in relation to any person (an “**Investor**”) who acquires any Notes in a Non-exempt Offer made by any person to whom the Issuer has given consent to the use of this Base

Prospectus (an “**Authorised Offeror**”) in that connection, provided that the conditions attached to that consent are complied with by the Authorised Offeror. The consent and conditions attached to it are set out under “*Consent*” and “*Common conditions to consent*” below.

Neither the Issuer nor any Dealer makes any representation as to the compliance by an Authorised Offeror with any applicable conduct of business rules or other applicable regulatory or securities law requirements in relation to any Non-exempt Offer and neither the Issuer nor any Dealer has any responsibility or liability for the actions of that Authorised Offeror.

Save as provided below, neither the Issuer nor any Dealer has authorised the making of any Non-exempt Offer by any offeror and the Issuer has not consented to the use of this Base Prospectus by any other person in connection with any Non-exempt Offer of Notes. Any Non-exempt Offer made without the consent of the Issuer is unauthorised and neither the Issuer nor any Dealer accepts any responsibility or liability for the actions of the persons making any such unauthorised offer. If, in the context of a Non-exempt Offer, an Investor is offered Notes by a person who is not an Authorised Offeror, the Investor should check with that person whether anyone is responsible for this Base Prospectus for the purposes of Article 6 of the Prospectus Directive in the context of the Non-Exempt Offer and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents it should take legal advice.

Consent

In connection with each Tranche of Notes and subject to the conditions set out below under “*Common conditions to consent*”, the Issuer consents to the use of this Base Prospectus (as supplemented as at the relevant time, if applicable) in connection with a Non-exempt Offer of such Notes by the relevant Dealer and by:

- (a) any financial intermediary named as an Initial Authorised Offeror in the relevant Final Terms (as defined herein); and
- (b) any financial intermediary appointed after the date of the relevant Final Terms and whose name is published on the Issuer’s website (www.danskebank.com) and identified as an Authorised Offeror in respect of the relevant Non-exempt Offer;

Common conditions to consent

The conditions to the Issuer’s consent are that such Consent:

- (i) is only valid during the Offer Period specified in the relevant Final Terms;
- (ii) only extends to the use of this Base Prospectus to make Non-exempt Offers of the relevant Tranche of Notes in each Relevant Member State specified in the relevant Final Terms; and
- (iii) the consent is subject to any other conditions set out in Part B of the relevant Final Terms.

The only Relevant Member States which may, in respect of any Tranche of Notes, be specified in the relevant Final Terms (if any Relevant Member States are so specified) as indicated in (ii) above, will be Denmark, Finland, Ireland, Luxembourg and Sweden, and accordingly each Tranche of Notes may only be offered to Investors as part of a Non-exempt Offer in Denmark, Finland, Ireland, Luxembourg and/or Sweden, as specified in the relevant Final Terms, or otherwise in circumstances in which no obligation arises for the Issuer or any Dealer to publish or supplement a prospectus for such offer.

Arrangements between Investors and Authorised Offerors

AN INVESTOR INTENDING TO ACQUIRE OR ACQUIRING ANY NOTES IN A NON-EXEMPT OFFER FROM AN AUTHORISED OFFEROR WILL DO SO, AND OFFERS AND SALES OF SUCH NOTES TO AN INVESTOR BY SUCH AUTHORISED OFFEROR WILL BE MADE, IN ACCORDANCE WITH ANY TERMS AND OTHER ARRANGEMENTS IN PLACE BETWEEN SUCH AUTHORISED OFFEROR AND SUCH INVESTOR INCLUDING AS TO PRICE, ALLOCATIONS AND SETTLEMENT ARRANGEMENTS. THE ISSUER WILL NOT BE A PARTY TO ANY SUCH ARRANGEMENTS WITH SUCH INVESTORS IN CONNECTION WITH THE NON-EXEMPT OFFER OR SALE OF THE NOTES CONCERNED AND, ACCORDINGLY, THIS BASE PROSPECTUS AND ANY FINAL TERMS WILL NOT CONTAIN SUCH INFORMATION. THE INVESTOR MUST LOOK TO THE AUTHORISED OFFEROR AT THE TIME OF SUCH OFFER FOR THE PROVISION OF SUCH INFORMATION AND THE AUTHORISED OFFEROR WILL BE RESPONSIBLE FOR SUCH INFORMATION. NEITHER THE ISSUER NOR ANY DEALER (EXCEPT WHERE SUCH DEALER IS THE RELEVANT AUTHORISED OFFEROR) HAS ANY RESPONSIBILITY OR LIABILITY TO AN INVESTOR IN RESPECT OF SUCH INFORMATION.

IMPORTANT INFORMATION RELATING TO THE USE OF THIS BASE PROSPECTUS AND OFFERS OF NOTES GENERALLY

The distribution of this Base Prospectus and any Issue Terms and the offering, sale and delivery of the Notes in certain jurisdictions may be restricted by law. Persons into whose possession this Base Prospectus or any Issue Terms comes are required by the Issuer and any Dealer to inform themselves about and to observe any such restrictions. For a description of certain restrictions on offers, sales and deliveries of Notes and on the distribution of this Base Prospectus or any Issue Terms and other offering material relating to the Notes, see “*Subscription and Sale*” herein. In particular, Notes have not been and will not be registered under the Securities Act or any state securities law, and may not be offered or sold within the United States or to, or for the account or benefit of, any U.S. person (as defined in Regulation S under the Securities Act), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable state securities laws. Hedging transactions may not be conducted unless in compliance with the Securities Act. For a description of certain restrictions on offers and sales of Notes, see “*Subscription and Sale*” below. The Notes do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act, as amended, and trading in Notes has not been approved by the Commodities Futures Trading Commission under the Commodity Exchange Act, as amended. Notes may be in bearer form which are subject to U.S. tax law requirements. **Neither this Base Prospectus nor any Issue Terms may be used for the purpose of an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such an offer or solicitation.**

Neither this Base Prospectus nor any Issue Terms constitutes an offer or an invitation to subscribe for or purchase any Notes and should not be considered as a recommendation by the Issuer or any Dealer that any recipient of this Base Prospectus or any Issue Terms should subscribe for or purchase any Notes. Each recipient of this Base Prospectus or any Issue Terms shall be taken to have made its own investigation and appraisal of the condition (financial or otherwise) of the Issuer.

All references in this Base Prospectus to “**Danish Kroner**”, “**kroner**”, “**DKr**” or “**DKK**” are to the currency of Denmark, to “**EUR**” or “**euro**” are to the currency introduced at the third stage of European economic and monetary union pursuant to the Treaty on the functioning of the European Union, as amended, of those members of the European Union which are participating in the European economic and monetary union, to “**SEK**” are to the currency of Sweden and all references to “**U.S.\$**”, “**USD**” and “**U.S. Dollars**” are to the currency of the United States of America.

SECTION A- SUMMARY

This Summary contains all the Elements required to be included in a summary for the Notes and the Issuer. Because some Elements are not required to be addressed, there may be gaps in the numbering sequence of the Elements. Even though an Element may be required to be inserted in a summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the Element. In this case a short description of the Element should be included in the summary explaining why it is not applicable.

See “Taxation” and “Events of Default” in Element C.8 above for information on early redemption in relation to the Notes.

In addition, if the Issuer determines that performance of its obligations under the Notes or that any arrangements made to hedge its obligations under the Notes has or will become illegal in whole or in part as a result of compliance with any applicable present or future law (an “**illegality**”), the Issuer may redeem the Notes early and, if and to the extent permitted by applicable law, will pay an amount equal to the early redemption amount in respect of each calculation amount.

In the circumstances specified above, the “**early redemption amount**” payable on any such early redemption of the Notes will be [[●] per calculation amount] [an amount determined by the Calculation Agent which represents the fair market value of each calculation amount of the Notes [(which amount shall include amounts in respect of interest)] on a day selected by the Issuer (in the case of an early redemption following an illegality, ignoring the relevant illegality), but adjusted (except in the case of an early redemption following an event of default) to account for losses, expenses and costs to the Issuer and/or its affiliates of unwinding any hedging and funding arrangements in respect of the Notes, provided that, for the purposes of determining the fair market value of each calculation amount of the Notes following an event of default, no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes].

[Early Redemption following a Credit Event

If conditions to settlement are satisfied, then the Issuer will redeem the Notes early and pay in respect of each unit or principal amount of Notes equal to the Calculation Amount, the Credit-Linked Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

For the purposes thereof, the “**Credit-Linked Redemption Amount**” will be determined as follows:

“**Reference Level_{f-ω}**” means the level of the Reference Item for the month falling [●] months prior to [the month during which the Maturity Date falls].

“**Relevant Principal Amount**” (“RPA”) means the CA.

Adjustments

The terms and conditions of the Notes contain provisions, as applicable, relating to events affecting the Reference Item, modification or cessation of the Reference Item and provisions relating to subsequent corrections of the level of the Reference Item and details of the consequences of such events. Section D – Risks

Element	Title	
D.2	Key risks specific to the Issuer	<p>In purchasing Notes, investors assume the risk that the Issuer may become insolvent or otherwise be unable to make all payments due in respect of the Notes. There is a wide range of factors which individually or together could result in the Issuer becoming unable to make all payments due in respect of the Notes. It is not possible to identify all such factors or to determine which factors are most likely to occur, as the Issuer may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's control. The Issuer has identified in this Base Prospectus a number of factors which could materially adversely affect its business and ability to make payments due under the Notes. These factors include:</p> <ul style="list-style-type: none"> • the Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, insurance risk and pension risk; • regulatory changes could materially affect the Issuer's business; • the Issuer will face increased capital and liquidity requirements as a result of the new Basel III framework; • the Group may have to pay additional amounts under deposit guarantee schemes or resolution funds; • the Group may be affected by general economic and geopolitical conditions; and • the impact of European implementation of the Basel III framework.

In addition, there are certain factors which are material for the purpose of assessing the risks relating to the structure of the Notes, which include, without limitation, the following: [as the Issuer has the right to redeem the Notes at its option, this may limit the market value of the Notes and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return] [and] [if the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes] [and] [the value of Fixed Rate Notes may be affected by movements in market interest rates] [and] [investors in Floating Rate Notes which have a cap feature will not benefit from increases in reference rates which would apply to Floating Rate Notes with no cap] [and] [Floating Rate Notes may be volatile investments] [and] [where a Rate of Interest is determined in conjunction with a multiplier or other leverage factor, the effect of changes will be enhanced] [and] [Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates]

SECTION B - RISK FACTORS AND DESCRIPTIONS OF THE NOTES

SECTION B.1 - RISK FACTORS

Prospective investors should read the entire Base Prospectus and reach their own views prior to making any investment decision.

The Issuer believes that the following factors may affect its ability to fulfil its obligations under any Notes. Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes issued under the Programme are also described below. All of these factors are contingencies that may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes, but the Issuer may be unable to pay interest, principal or other amounts on or in connection with any Notes for other reasons which may not be considered significant risks by the Issuer based on information currently available to it and which it may not currently be able to anticipate.

The following is a general discussion of certain risks typically associated with the Issuer and the acquisition and ownership of Notes. In particular, it does not consider an investor's specific knowledge and/or understanding about risks typically associated with the Issuer and the acquisition and ownership of Notes, whether obtained through experience, training or otherwise, or the lack of such specific knowledge and/or understanding, or circumstances that may apply to a particular investor.

THE PURCHASE OF NOTES MAY INVOLVE SUBSTANTIAL RISKS AND MAY BE SUITABLE ONLY FOR INVESTORS WHO HAVE THE KNOWLEDGE AND EXPERIENCE IN FINANCIAL AND BUSINESS MATTERS NECESSARY TO ENABLE THEM TO EVALUATE THE RISKS AND THE MERITS OF AN INVESTMENT IN THE NOTES. PRIOR TO MAKING AN INVESTMENT DECISION, PROSPECTIVE INVESTORS SHOULD CONSIDER CAREFULLY, IN LIGHT OF THEIR OWN FINANCIAL CIRCUMSTANCES AND INVESTMENT OBJECTIVES, (I) ALL THE INFORMATION SET FORTH IN THIS BASE PROSPECTUS AND, IN PARTICULAR, THE CONSIDERATIONS SET FORTH BELOW AND (II) ALL THE INFORMATION SET FORTH IN THE RELEVANT ISSUE TERMS. PROSPECTIVE INVESTORS SHOULD MAKE SUCH ENQUIRIES AS THEY DEEM NECESSARY WITHOUT RELYING ON THE ISSUER OR ANY DEALER.

AN INVESTMENT IN NOTES MAY ENTAIL SIGNIFICANT RISKS NOT ASSOCIATED WITH INVESTMENTS IN A CONVENTIONAL DEBT SECURITY, INCLUDING BUT NOT LIMITED TO THE RISKS SET OUT BELOW. THE AMOUNT PAID ON REDEMPTION OF THE NOTES MAY BE LESS THAN THE PRINCIPAL AMOUNT OF THE NOTES, TOGETHER WITH ANY ACCRUED INTEREST, AND MAY IN CERTAIN CIRCUMSTANCES BE ZERO.

CERTAIN ISSUES OF NOTES INVOLVE A HIGH DEGREE OF RISK AND POTENTIAL INVESTORS SHOULD BE PREPARED TO SUSTAIN A LOSS OF ALL OR PART OF THEIR INVESTMENT.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section, unless otherwise stated.

Factors that may affect the Issuer's ability to fulfil its obligations under Notes issued under the Programme

The Group is exposed to a number of risks, the categories of which are credit risk, market risk, liquidity risk, operational risk, insurance risk and pension risk

The Group is exposed to a number of risks, which it manages at different organisational levels. The categories of risk are as follows:

- **Credit risk:** Credit risk is the risk of losses arising because counterparties or debtors fail to meet all or part of their payment obligations. Credit risk includes the risk of losses if a sovereign state encounter financial difficulties, or losses because of political decisions on nationalisation and expropriation, for example.
- **Market risk:** The risk of loss because the fair value of the Group's assets, liabilities and off balance sheet items varies with changes in market conditions.
- **Liquidity risk:** The risk of loss because the Group's funding costs increase disproportionately, lack of funding prevents the Group from establishing new business, or lack of funding ultimately prevents the Group from meeting its obligations.
- **Operational risk:** The risk of loss resulting from inappropriate or inadequate internal processes, human or system errors, or external events. It includes legal risk.
- **Insurance risk:** All types of risk in the Danica group (which consists of the Issuer's subsidiary, Forsikringselskabet Danica, Skadeforsikringsaktieselskab af 1999, which is the parent company of Danica Pension Livsforsikringsaktieselskab and its respective subsidiaries), including market risk, life insurance risk and operational risk.
- **Pension risk:** The risk of a pension shortfall in the Group's defined benefit plans that requires it to make additional contributions to cover pension obligations to current and former employees.

Regulatory changes could materially affect the Issuer's business

The Issuer is subject to financial services laws, regulations, administrative actions and policies in Denmark and in each other jurisdiction in which the Issuer carries on business. Changes in supervision and regulation, in particular in Denmark, could materially affect the Issuer's business, the products and services offered or the value of its assets. Although the Issuer works closely with its regulators and continually monitors the situation, future changes in regulation, fiscal or other policies can be unpredictable and are beyond the control of the Issuer.

The Issuer will face increased capital and liquidity requirements as a result of the new Basel III Framework

On 20 July 2011, the European Commission adopted its proposal for a review of the CRD ("**CRD IV**"), including implementation of the Basel Committee on Banking Supervision's proposals imposing, among other things, stricter capital and liquidity requirements upon banks ("**Basel III**") in the EU. CRD IV is not yet available in its complete form. Protracted political negotiations have led to a deviation from the original plan of implementing the rules in early 2013. After formal adoption of CRD IV, the European Banking Authority ("**EBA**") will propose detailed rules for many areas including, inter alia, liquidity requirements and certain aspects of capital requirements. The assessment of their effects is therefore a preliminary analysis based on the Issuer's interpretation of the latest drafts and political discussions on CRD IV.

Regardless of the lack of certainty of the final rules, it must be expected that the Issuer will face increased capital and liquidity requirements in the future, however the exact amounts have not yet been finally determined.

See “European implementation of the Basel III Framework” in “Description of the Group” below for a more complete description of Basel III.

The Group may have to pay additional amounts under deposit guarantee schemes or resolution funds

In Denmark and other jurisdictions, deposit guarantee schemes and similar funds (“**Deposit Guarantee Schemes**”) have been implemented from which compensation for deposits may become payable to customers of financial services firms in the event a financial services firm is unable to pay, or unlikely to pay, claims against it. In most jurisdictions in which the Group operates, these Deposit Guarantee Schemes are funded, directly or indirectly, by financial services firms which operate and/or are licensed in the relevant jurisdiction. Recently revised legislation regarding the Danish Deposit Guarantee Scheme (Bank Package IV (as defined below) and the Deposit Guarantee Scheme Directive) redefines the Danish scheme as a premium based scheme such that the participating banks’ payments to the scheme will be more constant every year in profit and loss terms. The premium payments will stop when the new target level of funds has been reached. The future target level of funds to be accumulated in Deposit Guarantee Schemes or resolution funds across different EU countries is still under consideration in the political negotiations regarding the Deposit Guarantee Scheme Directive, CMD and in discussions on a European Banking Union. The final agreement is anticipated during 2013 or 2014 to be followed by transposition into national legislation.

The Group may be affected by general economic and geopolitical conditions

The financial services industry generally prospers in conditions of economic growth, stable geopolitical conditions, capital markets that are transparent, liquid and buoyant, and positive investor sentiment. Each of the Group’s operating segments is affected by general economic and geopolitical conditions, which can cause the Group’s results of operations and financial position to fluctuate from year to year as well as on a long-term basis.

The general economic environment for the financial sector in Europe was difficult in 2012. The economic headwinds continued with increased uncertainty surrounding the euro and the ability of some European nations to repay their debts. Policy measures and intervention from the ECB and other central banks gradually eased the situation, however. Although many issues remain to be resolved, there is growing confidence that the economic situation in Europe will eventually normalise. Low growth and interest rate levels are still to be expected for some time to come, also in our home markets.

European implementation of the Basel III Framework and impact on Notes

The changes approved by the Basel Committee under Basel III may have an impact on the capital requirements in respect of the Notes and/or on incentives to hold the Notes for investors that are subject to requirements that follow the revised framework and, as a result, they may affect the liquidity and/or value of the Notes.

In general, investors should consult their own advisers as to the regulatory capital requirements in respect of the Notes and as to the consequences to and effect on them of any changes to the Basel II framework (including the Basel III changes described above) and the relevant implementing measures. No predictions can be made as to the precise effects of such matters on any investor or otherwise.

Risks related to the market generally

Set out below is a brief description of certain market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

An active secondary market in respect of the Notes may never be established or may be illiquid and this would adversely affect the value at which an investor could sell its Notes

Certain stock exchanges and quotation systems may impose market making obligations on the Issuer and/or the relevant Dealer in respect of the listing and/or admission to trading of an issue of Notes. Details of any such market making obligations will be set out in the relevant Issue Terms.

Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Notes that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Notes generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Notes. See also “The Group may be affected by general economic and geopolitical conditions” above.

If an investor holds Notes which are not denominated in the investor’s home currency, it will be exposed to movements in exchange rates adversely affecting the value of its holding. In addition, the imposition of exchange controls in relation to any Notes could result in an investor not receiving payments on those Notes

The Issuer will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor’s financial activities are denominated principally in a currency or currency unit (the “**Investor’s Currency**”) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor’s Currency) and the risk that authorities with jurisdiction over the Investor’s Currency or Specified Currency may impose or modify exchange controls. An appreciation in the value of the Investor’s Currency relative to the Specified Currency would decrease (i) the Investor’s Currency-equivalent yield on the Notes, (ii) the Investor’s Currency-equivalent value of the principal payable on the Notes and (iii) the Investor’s Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate or the ability of the Issuer to make payments in respect of the Notes. As a result, investors may receive less interest or principal than expected, or no interest or principal as measured in the Investor’s Currency.

The market value of Notes will be affected by a number of factors independent of the creditworthiness of the Issuer

The market value of an issue of Notes will be affected by a number of factors independent of the creditworthiness of the Issuer, including, but not limited to:

- (i) market interest and yield rates;
- (ii) fluctuations in exchange rates;
- (iii) liquidity of the Notes in the secondary market;
- (iv) the time remaining to any redemption date or the maturity date;
- (v) economic, financial and political events in one or more jurisdictions, including factors affecting capital markets generally.

Credit ratings assigned to the Issuer may not reflect all the risks associated with an investment in the Notes

One or more independent credit rating agencies may assign credit ratings to the Issuer. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of Notes issued by the Issuer or the standing of the Issuer. Any rating agency may lower its rating or withdraw its rating if, in the sole judgement of the rating agency, the credit quality of the Issuer has declined or is in question. If any rating assigned to the Issuer is lowered, withdrawn or not maintained, the market value of the Notes may be reduced. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspected or withdrawn by the rating agency at any time.

Risks related to Notes generally

The Notes may not be a suitable investment for all investors

Each potential investor of Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the relevant Notes, the merits and risks of investing in the relevant Notes and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement to this Base Prospectus;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the relevant Notes and the impact such investment will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including Notes where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the relevant Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Notes are complex financial instruments and such instruments may be purchased as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to the investor's overall portfolio. A potential investor should not invest in Notes which are complex financial instruments unless it has the expertise (either alone or with the assistance of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of such Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Because the Global Notes are held by or on behalf of Euroclear and Clearstream, Luxembourg, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer.

Bearer Notes may be represented by one or more Global Notes. Such Global Notes will be deposited with a common depositary or, in the case of New Global Notes, a common safe-keeper, for Euroclear and Clearstream, Luxembourg. Except in the circumstances described in the relevant Global Note, investors will not be entitled to receive Definitive Notes. Euroclear and Clearstream, Luxembourg will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes,

investors will be able to trade their beneficial interests only through Euroclear and Clearstream, Luxembourg.

While the Notes are in global form, the Issuer will discharge its payment obligations under the Notes by making payments (i) to a common depositary (for Bearer Notes which are not in New Global Note form) or (ii) to a common safe-keeper (for Bearer Notes which are in New Global Note form). A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear and/or Clearstream, Luxembourg to receive payments under the relevant Notes. The Issuer has no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in such a Global Note.

Because the VP Systems Notes are dematerialised securities, investors will have to rely on the clearing system procedures for transfer, payment and communication with the Issuer.

VP Systems Notes issued under the Programme will not be evidenced by any physical note or document of title other than statements of account made by the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be. Ownership of VP Systems Notes will be recorded and transfer effected only through the book entry system and register maintained by the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be.

Investors who purchase Notes in denominations that are not an integral multiple of the Specified Denomination may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Bearer Notes which have denominations consisting of a minimum Specified Denomination plus an integral multiple of another smaller amount in excess thereof, it is possible that such Notes may be traded in amounts that are not integral multiples of such minimum Specified Denomination. In such a case a Holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a Definitive Note in respect of such holding (should Definitive Notes be printed) and would need to purchase a principal amount of Notes such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, Holders should be aware that Definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

The recognition as eligible collateral for the Eurosystem and intra-day credit operations by the Eurosystem of New Global Notes is dependent upon satisfaction of the Eurosystem eligibility criteria at the relevant time

Although the New Global Note form has been introduced to allow for the possibility of Bearer Notes being issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the Eurosystem and intra-day credit operations by the Eurosystem either upon issue or at any or all times during their life, in any particular case such recognition will depend upon satisfaction of the Eurosystem eligibility criteria at the relevant time.

There is no taxation gross-up on certain issues of Notes

If General Condition 8.3 (*No gross-up*) is specified as applicable in the relevant Issue Terms, the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

Taxes and expenses may be payable by holders in connection with the Notes

Potential purchasers and sellers of Notes should be aware that they may be required to pay stamp taxes or other documentary charges in accordance with the laws and practices of the country where the Notes are transferred.

Potential purchasers who are in any doubt as to their tax position should consult their own independent tax advisers. In addition, potential purchasers should be aware that tax regulations and their application by the relevant taxation authorities change from time to time. Accordingly, it is not possible to predict the precise tax treatment which will apply at any given time.

There may be withholding under the EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland). In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015 in favour of information exchange under the Directive.

The European Commission has proposed certain amendments to the Directive which may, if implemented, amend or broaden the scope of the requirements described above.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent (as defined herein) nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

U.S. Foreign Account Tax Compliance Act withholding may affect payments on the Notes

The U.S. "Foreign Account Tax Compliance Act" (or "**FATCA**") imposes a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, (ii) "foreign pass thru payments" made to certain non-U.S. financial institutions that do not comply with this new reporting regime, and (iii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. Whilst the Notes are in global form and held within the clearing systems, in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the clearing systems. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Notes are discharged once it has paid the common depository or common safekeeper for the clearing systems and the

Issuer has therefore no responsibility for any amount thereafter transmitted through the clearing systems and custodians or intermediaries. Prospective investors should refer to the section “Taxation – Foreign Account Tax Compliance Act.”

The proposed financial transactions tax may apply in respect of certain dealings in Notes

On 14 February 2013, the European Commission issued proposals, including a draft Directive, for a financial transactions tax (“FTT”) to be adopted in certain participating EU member states (including Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia). If these proposals are adopted in their current form, the FTT would be a tax primarily on “financial institutions” (which would include the Issuer) in relation to “financial transactions” (which would include the conclusion or modification of derivative contracts and the purchase and sale of financial instruments).

Under the current proposals, the FTT would apply to persons both within and outside of the participating member states. Generally, it would apply where at least one party is a financial institution, and at least one party is established in a participating member state. A financial institution may be, or be deemed to be, “established” in a participating member state in a broad range of circumstances, including (a) by transacting with a person established in a participating member state or (b) where the financial instrument which is subject to the financial transaction is issued in a participating member state.

At this stage, it is too early to say whether the FTT proposals will be adopted and in what form. However, if the FTT is adopted based on the current proposals, then it may operate in a manner giving rise to tax liabilities for the Issuer with respect to certain transactions (for example, with reference to its hedging arrangements, or if physical settlement is applicable to certain types of Notes). The Issuer is, in certain circumstances, able to pass on any such liabilities to holders of the relevant Notes and therefore this may result in investors receiving less than expected in respect of such Notes. It should also be noted that the FTT could be payable in relation to relevant transactions by investors in respect of the Notes (including secondary market transactions) if conditions for a charge to arise are satisfied. Primary market transactions referred to in Article 5(c) of Regulation EC No 1287/2006 are exempt. There is however some uncertainty in relation to the intended scope of this exemption for certain money market instruments and structured issues.

The FTT proposal remains subject to negotiation between the participating member states described above and is the subject of legal challenge. It may therefore be altered prior to any implementation, the timing of which remains unclear. Additional EU member states may decide to participate. Prospective holders of the Notes are advised to seek their own professional advice in relation to the FTT.

The Terms and Conditions of the Notes contain provisions which may permit their modification without the consent of all investors

The Terms and Conditions of the Notes contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority.

The value of the Notes could be adversely affected by a change in applicable laws or administrative practice

The Terms and Conditions of the Notes are governed by the laws of England, except for certain provisions set out in General Condition 18 (*Governing Law and Jurisdiction*), which will be governed by the laws of Denmark, Norway, Finland or Sweden, as the case may be. No assurance can be given as to the impact of any possible judicial decision or change to the laws of England, Denmark, Norway or Sweden or administrative practice after the date of this Base Prospectus and any such change could materially adversely impact the value any Notes affected by it.

The Issuer has issued covered bonds. If any relevant claims in respect of these covered bonds are not met out of the pool of assets or the proceeds arising from it, any remaining claims will subsequently rank pari passu with the Issuer's obligations under the Notes

The Issuer has issued covered bonds in accordance with the Danish Financial Business Act.

In accordance with the UCITS Directive and the Capital Requirement Directive, the covered bonds have the benefit of priority over a matched pool of assets upon bankruptcy of the Issuer. To the extent that claims in relation to the covered bonds and related derivative contracts, any refinancing bonds issued by the administrator, any short-term loans taken out by the administrator and any senior debt (if any) issued with the benefit of the assets in the cover pool are not met out of the pool of assets or the proceeds arising from it, the residual claims will rank pari passu with the unsecured and unsubordinated obligations of the Issuer, including obligations in relation to Notes issued under the Programme

Risks related to the structure of a particular issue of Notes

A wide range of Notes may be issued under the Programme. A number of these Notes may have features which contain particular risks for potential investors. Set out below is a description of the most common such features. Investors should also note the descriptions of various types of Notes set out under Section B.2 (- *Description of the Notes*) below.

If the Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return

An optional redemption feature is likely to limit the market value of Notes. During any period when the Issuer may elect to redeem Notes, the market value of such Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on the Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

If the Issuer's obligations under the Notes become illegal, the Issuer may redeem the Notes early

In the event that the Calculation Agent determines in good faith that the performance of the Issuer's obligations under a Series of Notes or that any arrangements made to hedge the Issuer's obligations under such Notes has or will become unlawful, illegal or otherwise prohibited in whole or in part, the Issuer may, having given notice to the Holders, redeem all, but not some only, of the Notes of such Series and, to the extent permitted by applicable law, will pay to each Noteholder in respect of each Calculation Amount held by such holder, an amount equal to the fair market value of such Calculation Amount (which, if so specified in the relevant Issue Terms, shall include amounts in respect of interest) on a day selected by the Issuer) ignoring the relevant unlawfulness, illegality or prohibition, adjusted to account fully for any losses, expenses and costs to the Issuer (or any of its affiliates) of unwinding any underlying and/or related hedging and funding arrangements, all as determined by the Calculation Agent, or, in respect of Exempt Notes, such other amount determined as specified in the relevant Pricing Supplement. Investors should note that any such amount may be zero.

The value of Fixed Rate Notes may be affected by movements in market interest rates

Investment in Fixed Rate Notes involves the risk that if market interest rates subsequently increase above the rate paid on the Fixed Rate Notes, this will adversely affect the value of the Fixed Rate Notes.

Investors in Floating Rate Notes which have a cap feature will not benefit from increases in reference rates which would apply to Floating Rate Notes with no cap

Floating Rate Notes have an interest rate equal to the sum of a reference rate such as LIBOR and the specified margin (if any) subject to a maximum specified rate. The maximum amount of interest payable in respect of these Notes will occur when the sum of the reference rate and the specified margin (if any) equals the maximum specified rate. Investors in Capped Floating Rate Notes will therefore not benefit from any increase in the relevant reference rate which, when the specified margin is added to such reference rate, would otherwise cause such interest rate to be exceeded the maximum specified rate. The market value of these Notes would therefore typically fall the closer the sum of the relevant reference rate and the margin is to the maximum specified rate.

Floating Rate Notes may be volatile investments

The amount of interest payable in respect of Notes having a variable rate of interest will vary depending on movements in the relevant interest rates and can be volatile investments. Interest rates are influenced by macro economic, political or financial factors, speculation and central bank and government intervention in one or more jurisdictions. In recent years, interest rates have been relatively low and stable, but this may not continue and interest rates may rise and/or become volatile. Fluctuations that have occurred in any interest rate in the past are not necessarily indicative, however, of fluctuations that may occur in such interest rate during the term of any Note. Fluctuations in interest rates will affect the value of Floating Rate Notes.

Where a Rate of Interest is determined in conjunction with a multiplier or other leverage factor, the effect of changes will be enhanced

If the amount of interest payable in respect of Floating Rate Notes is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the interest rates on interest payable will be magnified. If the amount of interest payable is determined in conjunction with a multiplier less than one, the effect of changes in the interest rates on interest payable will be minimised.

Notes which are issued at a substantial discount or premium may experience price volatility in response to changes in market interest rates

The market values of securities issued at a substantial discount (such as Zero Coupon Notes) or premium to their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for more conventional interest-bearing securities. Generally, the longer the remaining term of such securities, the greater the price volatility as compared to more conventional interest-bearing securities with comparable maturities.

General risks relating to Notes linked to Reference Item(s)

The relevant Issue Terms will (if applicable) contain information relating to any reference entity (each a “**Reference Entity**”), inflation index, index, equity security, exchange rate or other item(s) (each a “**Reference Item**”) to which the relevant Notes relate and which are specified in such Issue Terms. Notes linked to the credit of one or more Reference Entities are “**Credit-Linked Notes**”, Notes linked to an inflation index are “**Inflation-Linked Notes**”, Notes linked to one or indices are “**Index-Linked Notes**”, Notes linked to one or more equity securities are “**Equity-Linked Notes**”, Notes linked to one or more exchange rates are “**Currency-Linked Notes**” and, together with Credit-linked Notes, Inflation-Linked Notes, Index-Linked Notes and Equity-Linked Notes, are “**Reference Item-Linked Notes**”.

The Notes involve a high degree of risk and may entail significant risks not associated with investments in a conventional debt security.

Prospective investors in Notes should understand the risks of transactions involving Notes and should reach an investment decision only after careful consideration, with their advisers, of the suitability of such Notes in light of their particular financial circumstances, the information set forth herein and the information regarding the relevant Notes and the particular Reference Item(s) to which the value or credit of, or payments in respect of, the relevant Notes may relate, as specified in the relevant Issue Terms.

As the amount of interest payable in respect of Credit-Linked Notes and the likelihood of Credit-Linked Notes being redeemed early may be affected by the credit of the relevant Reference Entity, investors must generally be correct about changes in the credit of the relevant Reference Entity or Reference Entities.

As the principal payable at maturity in respect of Reference Item-Linked Notes other than Credit-Linked Notes will be linked to the performance of one or more Reference Item(s), investors must generally be correct about the direction, timing and magnitude of any anticipated change in the value of the relevant Reference Item(s).

The relevant Notes will represent an investment linked to the Reference Item(s) specified in the relevant Issue Terms and prospective investors should note that the return (if any) on their investment in Notes will depend upon the performance of, or events related to, such Reference Item(s) and, in the case of Credit-Linked Notes, the value of certain obligations issued by or guaranteed by such Reference Item(s). Potential investors should also note that whilst the market value of such Notes is linked to such Reference Item(s) and will be influenced (positively or negatively) by such Reference Item(s), any change may not be comparable and may be disproportionate. It is impossible to predict how the credit or level of a Reference Item will vary over time. Notes represent the right to receive payment of the relevant cash amount on any early redemption date or the relevant Maturity Date, as well as periodic payments of interest (if specified in the relevant Issue Terms), some or all of which may be determined by reference to the performance of the relevant Reference Item(s) or, in the case of Credit-Linked Notes, the value of certain obligations issued by or guaranteed by such Reference Item(s). The relevant Issue Terms will set out certain details in relation to any cash amount payable on any early redemption date or the Maturity Date and of any periodic interest payments.

PROSPECTIVE INVESTORS MUST REVIEW THE RELEVANT ISSUE TERMS TO ASCERTAIN WHAT THE RELEVANT REFERENCE ITEM(S) ARE AND TO SEE HOW ANY CASH AMOUNTS AND ANY PERIODIC INTEREST PAYMENTS ARE DETERMINED AND WHEN ANY SUCH AMOUNTS ARE PAYABLE BEFORE MAKING ANY DECISION TO PURCHASE ANY NOTES.

Fluctuations in the value and/or volatility and/or liquidity of the relevant Reference Item(s) or, in the case of Credit-Linked Notes, the value of obligations issued by or guaranteed by such Reference Item(s) may affect the value of the relevant Notes. Investors in Notes may risk losing their entire investment

There is no return on Notes other than the potential payment of the relevant cash amount on the Maturity Date and payment of any periodic interest payments.

Other factors which may influence the market value of Notes include interest rates, potential dividend or other types of distribution payments (as applicable) in respect of the relevant Reference Item(s), changes in the method of calculating the level of the relevant Reference Item(s) from time to time and market expectations regarding the future performance of the relevant Reference Item(s) (or the issuer of such Reference Item(s)), their composition and the Notes. In addition, the market value of the Notes will be affected by economic, financial and political events in one or more jurisdictions, including factors affecting any stock exchange on which any Reference Item (or component of such Reference Item) may be traded.

The price at which a Noteholder will be able to sell any Notes prior to maturity may be at a discount, which could be substantial, to the market value of such Notes on the issue date. The market value of Inflation-Linked Notes, Index-Linked Notes, Equity-Linked Notes or Currency-Linked Notes prior to maturity will depend on whether the market price, level or value of the Reference Item(s) is below, equal to

or above the market price, level or value of the relevant Reference Item(s) on the issue date. The historical market price of any inflation index, index or equity security should not be taken as an indication of such Reference Item's future performance during the term of any Note.

The Issuer may issue several issues of Notes relating to particular Reference Item(s). However, no assurance can be given that the Issuer will issue any Notes other than the Notes to which the relevant Issue Terms relate. At any given time, the number of Notes outstanding may be substantial. Notes provide opportunities for investment and pose risks to investors as a result of fluctuations in the value of the Reference Item(s) to which such Notes relate.

Investors will have no Claim against any Reference Item

A Note will not represent a claim against any Reference Item or the issuer or sponsor of any Reference Item and, in the event that the amount paid on redemption of the Notes is less than the principal amount of the Notes, a Noteholder will not have recourse under a Note to any Reference Item the obligations of any Reference Item or such issuer or sponsor.

Hedging arrangements of the Issuer may affect the value of the Notes

In the ordinary course of its business, including without limitation in connection with its market making activities, the Issuer and/or any of its affiliates may effect transactions for its own account or for the account of its customers and hold long or short positions in the Reference Item(s), obligations issued by the Reference Item(s) or related derivatives. In addition, in connection with the offering of the Notes, the Issuer and/or any of its affiliates may enter into one or more hedging transactions with respect to the Reference Item(s), obligations issued by the Reference Item(s) or related derivatives. In connection with such hedging or market-making activities or with respect to proprietary or other trading activities by the Issuer and/or any of its affiliates, the Issuer and/or any of its affiliates may enter into transactions in the Reference Item(s), obligations issued by the Reference Item(s) or related derivatives which may affect the market price, liquidity or value of the Notes and which could be adverse to the interests of the relevant Noteholders.

There may be conflicts of interest in respect of the Notes

Where the Issuer acts as Calculation Agent or the Calculation Agent is an affiliate of the Issuer, potential conflicts of interest may exist between the Calculation Agent and Noteholders, including with respect to certain determinations and judgements that the Calculation Agent may make pursuant to the Notes that may influence the amount receivable on redemption of the Notes.

The Issuer and any Dealer may, at the date hereof or at any time hereafter, be in possession of information in relation to a Reference Item that is or may be material in the context of the Notes and may or may not be publicly available to Noteholders. There is no obligation on the Issuer or any Dealer to disclose to Noteholders any such information.

The Issuer and/or any of its affiliates may have existing or future business relationships with any Reference Item(s) (including, but not limited to, lending, depositary, risk management, advisory and banking relationships), and will pursue actions and take steps that they or it deems necessary or appropriate to protect their and/or its interests arising therefrom without regard to the consequences for a Noteholder.

An investment in Notes linked to one or more Reference Items may entail significant risks not associated with investments in conventional debt securities, including but not limited to the risks set out in this section "General risks related to Notes linked to Reference Item(s)". The amount paid by the Issuer on redemption of such Notes may be less than the principal amount of the Notes, together with any accrued interest, and may in certain circumstances be zero.

Risks relating specifically to Credit-Linked Notes

General risks relating to Credit-Linked Notes

The Issuer may issue Credit-Linked Notes where the amount payable is dependent upon whether certain events (“**Credit Events**”) have occurred in respect of one or more Reference Entity/Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities.

Prospective investors in any such Credit-Linked Notes should be aware that depending on the terms of the Credit-Linked Notes (i) they may receive no or a limited amount of interest (or other periodic payments), (ii) payments may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of Credit-Linked Notes may be volatile and will be affected by, amongst other things, the time remaining to the redemption date or settlement date, as applicable, prevailing credit spreads and the creditworthiness of the relevant Reference Entity/Entities which in turn may be affected by the economic, financial and political events in one or more jurisdictions.

Following the occurrence of a Credit Event, the Credit-Linked Notes will either (i) cease to bear interest, on all or part of the Calculation Amount, as applicable, from the Interest Payment Date immediately preceding the Credit Event Determination Date if "Accrual of Interest upon Credit Event" is specified as Not Applicable in the relevant Issue Terms, or (ii) cease to bear interest, on all or part of the Calculation Amount, as applicable, from the Credit Event Determination Date if "Accrual of Interest upon Credit Event" is specified as being Applicable in the relevant Issue Terms.

The Issuer, the Dealer(s) or any of their respective Affiliates may have acquired, or during the term of the Credit-Linked Notes may acquire, non-public information with respect to the Reference Entity/Entities that they may not disclose. Prospective investors must therefore make an investment decision based upon their own due diligence and purchase the Credit-Linked Notes in the knowledge that non-public information which the Issuer, the Dealer(s) or any of their respective Affiliates may have will not be disclosed to investors. None of the Issuer, the Dealer(s) or any of their respective Affiliates is under any obligation (i) to review on the Noteholders' behalf, the business, financial conditions, prospects, creditworthiness, status or affairs of the Reference Entity/Entities or conduct any investigation or due diligence into the Reference Entity/Entities or (ii) other than as may be required by applicable rules and regulations relating to the Securities, to make available (1) any information relating to the Notes or (2) any non-public information they may possess in respect of the Reference Entity/Entities.

Certain Credit-Linked Notes may be highly leveraged instruments, including without limitation (i) Credit-Linked Notes linked to a notional amount of Reference Entities or Obligations exceeding the Calculation Amount or Issue Price of the Credit-Linked Notes, as applicable, or (ii) Credit-Linked Notes linked to the first-to-default reference entity within a reference portfolio (or similar arrangements over a reference portfolio). The use of leverage is a speculative investment technique designed to enhance returns. However, such technique will also magnify the adverse impacts of a Credit Event.

In the event that the Calculation Agent is unable to identify a Substitute Reference Obligation prior to the Extension Date the Issuer shall have the right on or after the Extension Date to redeem or cancel the Credit-Linked Notes, as applicable, at their fair market value by notice to the Holders of the relevant Notes.

The Issuer's obligations in respect of Credit-Linked Notes are irrespective of the existence or amount of the Issuer's and/or any Affiliates' credit exposure to a Reference Entity and the Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

2003 ISDA Credit Derivatives Definitions

While there are many similarities between the terms used in this Base Prospectus (in particular, in Reference Item Schedule 1 (*Credit-Linked Notes*) and the terms used in the 2003 ISDA Credit Derivative Definitions, as supplemented from time to time (the “**Credit Derivatives Definitions**”), there are a number

of differences. In particular, the Issuer has determined the certain provisions of the Credit Derivatives Definitions, which are intended for use by market participants in "over the counter" transactions, require amendment when incorporated in the terms of an offering of securities such as the Credit-Linked Notes. Therefore, a prospective investor should understand that the complete terms and conditions of the Credit-Linked Notes are as set out in this Base Prospectus and the relevant Issue Terms and that the Credit Derivative Definitions are not incorporated by reference herein. Consequently, investing in Credit-Linked Notes is not necessarily equivalent to investing a credit default swap that incorporates the Credit Derivatives Definitions.

While ISDA has published and supplemented the Credit Derivatives Definitions in order to facilitate transactions and promote uniformity in the credit derivatives market, the credit derivatives market has evolved over time and is expected to continue to change. Consequently, the Credit Derivatives Definitions and the terms applied to credit derivatives, including Credit-Linked Notes are subject to further evolution. Past events have shown that the view of market participants may differ as to how the Credit Derivatives Definitions operate or should operate. As a result of the continued evolution of the market, the Credit-Linked Notes may not conform to future market standards. Such a result may have a negative impact on the Credit-Linked Notes.

There can be no assurances that changes to the terms applicable to credit derivatives generally will be predictable or favourable to the Issuer or the Noteholders. Future amendment or supplements to the terms applicable to credit derivatives generally will only apply to Credit-Linked Notes that have already been issued if the Issuer and the Noteholders agree to amend such Credit-Linked Notes to incorporate such amendments or supplements and other conditions to amending the Credit-Linked Notes have been met.

Amendment of Reference Item Conditions in accordance with market convention

The Calculation Agent may from time to time amend any provision of Reference Item Schedule 1 (*Credit-Linked Notes*) to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent and the Issuer determine in a commercially reasonable manner are necessary to reflect or govern market practice for credit derivative transactions.

Cheapest to deliver

Following an Event Determination Date, subject to Auction Settlement procedures, if applicable, the Issuer is entitled to select Valuation Obligation(s) for valuation which have the lowest value in the market at the relevant time, provided such obligation satisfies certain specifications and limits for qualification as a Valuation Obligation.

Increase of risk due to the replacement of a Reference Entity or succession

Reference Entities may be replaced due to events beyond the control of the Issuer, such as the merger of a corporate entity with another entity, in which case the Reference Entity may be replaced by its successor. Each such replacement may result in an increase in the risks involved for the Noteholders.

Concentration risks in case of Credit-Linked Notes referring to a portfolio of Reference Entities

The probability of the occurrence of Credit Events with respect to the Reference Entities in a portfolio may depend on the degree of diversification among the Reference Entities. The composition of the portfolio of Reference Entities may change after the Issue Date. Such change may result in an increase of concentration among the Reference Entities and therefore also in an increase in the risks associated with such concentration.

Amendment of Reference Item Conditions in accordance with the terms of the Notes

In addition to any amendments the Calculation Agent may make from time to time to the provisions of the Reference Item Schedule 1 (*Credit-Linked Notes*) in accordance with market convention (described above), the Reference Item Schedule 1 (*Credit-Linked Notes*) themselves contain certain provisions which permit the Calculation Agent in certain circumstances to make certain adjustments to such Reference Item Schedule 1 (*Credit-Linked Notes*). Such adjustments may affect both payments made to Noteholders under the Credit-Linked Notes and the timing of any such payments.

Risks relating to Auction Settlement of Credit-Linked Notes

Where an Auction Final Price Determination Date occurs, the Auction Final Price will be determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms, a form of which will be published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and may be amended from time to time. The Auction Final Price determined pursuant to an auction may be less than the market value that would otherwise have been determined in respect of any particular obligation of the Reference Entity. The Issuer and the Noteholders may have little or no influence in the outcome of any such auction.

Following the occurrence of a Credit Event, the amount payable in respect of the Notes may be determined by reference to the Auction Final Price determined according to an auction procedure set out in the applicable Transaction Auction Settlement Terms. There is a possibility that the Issuer or the Calculation Agent (or one of their Affiliates) would act as a participating bidder in any such auction. In such capacity, it may take certain actions which may influence the Auction Final Price including (without limitation): (a) providing rates of conversion to determine the applicable currency conversion rates to be used to convert any obligations which are not denominated in the auction currency into such currency for the purposes of the auction; and (b) submitting bids, offers and physical settlement requests with respect to the relevant Obligations. In deciding whether to take any such action (or whether to act as a participating bidder in any auction), the Issuer or the Calculation Agent (or any Affiliate of any of them) shall be under no obligation to consider the interests of any Noteholder.

Role of the Credit Derivatives Determinations Committee

Credit Derivative Determinations Committees were established pursuant to the 2009 ISDA Credit Derivatives Determinations Committees and Auction Settlement Supplement to the 2003 ISDA Credit Derivatives Definitions (published on 12 March 2009) to make determinations that are relevant to the majority of the credit derivatives market and to promote transparency and consistency. In respect of a Credit Event relating to Credit-Linked Notes, prospective purchasers should note that the Credit Derivatives Determinations Committee has the power to make binding decisions on critical issues such as whether a Credit Event has occurred, which obligations are to be valued and whether an auction should take place in accordance with and as more fully described in the Credit Derivatives Determinations Committees Rules, as published by ISDA on its website at www.isda.org (or any successor website thereto) from time to time and as amended from time to time in accordance with the terms thereof. Consequently, payments on the Credit-Linked Notes and the timing of any such payments may be affected by any such relevant decisions if Auction Settlement is specified as the applicable Settlement Method for a series of Credit-Linked Notes in the relevant Issue Terms.

Credit Event and Succession Event Backstop Dates

In respect of a Credit Event relating to a series of Credit-Linked Notes, a Credit Event may not be triggered unless a request is submitted to ISDA for the relevant Credit Derivatives Determinations Committee to consider whether the relevant event constitutes a Credit Event within 60 calendar days of the occurrence of such potential Credit Event unless an Event Determination Date has already occurred with respect to such event. For Succession Events the look-back period is 90 calendar days and functions similarly. These provisions mean that there is a time limit on the ability to act on a Credit Event or

Succession Event and that it is possible that the Credit-Linked Notes could be affected by a Credit Event or Succession Event that took place prior to the Trade Date.

Settlement Suspension, Adjustments and Interest Provisions

If, following the determination of a Credit Event Determination Date in accordance with subparagraph (a) of the definition of Credit Event Determination Date, but prior to an applicable Valuation Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to determine the occurrence of a Credit Event have been satisfied, the Calculation Agent may at its option determine that the applicable timing requirements of the Reference Item Conditions and the definitions of Credit Event Redemption Date, Valuation Date, and any other Reference Item Condition as determined by the Calculation Agent shall toll and be suspended and remain suspended (such period of suspension, a “**Suspension Period**”) until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has resolved (a) that a Credit Event has or has not occurred or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has made such resolution, the relevant timing requirements of the Reference Item Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.

In the case of interest bearing Credit-Linked Notes, the Issuer shall be obliged to pay interest calculated in accordance with General Condition 5 and Payout Schedule 1 provided that if an Interest Payment Date falls in a Suspension Period, such Interest Payment Date will be deferred until after the end of the Suspension Period.

In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to these Reference Item Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (ii) determine the effective date of such adjustment(s) or determination(s).

Risks relating to Inflation-Linked Notes

The Issuer may issue Notes where the amount of principal (“**Inflation-Linked Redemption Notes**”) and/or interest (“**Inflation-Linked Interest Notes**”) payable is dependent upon the level, or changes in the level, of an inflation index or a basket of inflation indices (together “**Inflation-Linked Notes**”).

Potential investors in any such Notes should be aware that, depending on the terms of the Inflation-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their principal investment. In addition, movements in the level of the inflation index or basket of inflation indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the inflation index or inflation indices may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable is determined in conjunction with a multiplier greater than one or by reference to some other leverage factor, the effect of changes in the level of the inflation index or the inflation indices on principal and/or interest payable will be magnified.

Many economic and market factors may influence the value of Inflation Linked Notes including, inter alia, general economic, financial, political or regulatory conditions, fluctuations in the prices of various consumer goods and energy resources and inflation and expectations concerning inflation. Any such factors may either offset or magnify each other.

If the Calculation Agent determines that the level of a relevant inflation index has not been published or announced by a specified Relevant Determination Date, then a Substituted Index Level for the relevant inflation index will be determined by reference either to the terms of any specified Related Bond or by

reference to a formula as set out in the Conditions or as specified in the relevant Final Terms, as the case may be.

If the Calculation Agent determines that the level of an inflation index has not been published or announced by an Index Sponsor for two consecutive months or such other period as is specified in the relevant Issue Terms and/or an Index Sponsor announces that it will no longer continue to publish or announce such inflation index, the Calculation Agent shall either (i) determine a Successor Index pursuant to the terms of any specified Related Bond or (ii) designate a “Successor Index” as the replacement inflation index specified by the relevant Index Sponsor or (iii) if no successor inflation index can be determined by reference to (i) or (ii) the Calculation Agent may determine the relevant Successor Index. In each case, the Calculation Agent may make such adjustment(s) to the terms of the Notes it deems necessary or appropriate to account for any such replacement. If the Calculation Agent determines that there is no appropriate alternative inflation index, the Issuer may redeem the Notes early at the Early Redemption Amount.

If the Calculation Agent determines that an inflation index has been or will be rebased at any time, it may make such adjustments to the levels of such inflation index (following the terms of any specified Related Bond, where there is a Related Bond) so that such levels reflect the same rate of inflation as the inflation index before it was rebased and may make such adjustments to the terms of the Notes as it deems necessary.

If on or prior to a specified Relevant Determination Date, an Index Sponsor announces that it will make a material change to an inflation index, the Calculation Agent shall make appropriate adjustments to the terms of the Notes (consistent with any adjustments made to any Related Bond, where there is a Related Bond) to account for such change.

Risk relating to Index-Linked Notes

The Issuer may issue Notes where the amount of principal or interest (“**Index-Linked Notes**”) payable is dependent upon the level, or changes in the level, of an index or a basket of indices.

Potential investors in any such Notes should be aware that, depending on the terms of the Index-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their principal investment. In addition, movements in the level of the index or basket of indices may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level of the index or indices may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable is determined in conjunction with a multiplier or participation rate greater than one or by reference to some other leverage factor, the effect of changes in the level of the index or the indices on principal payable will be magnified.

The Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in “*Terms and Conditions of the Notes*” below) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Notes and/or may delay settlement. Prospective purchasers should review the “*Terms and Conditions of the Notes*” and the relevant Issue Terms to ascertain whether and how such provisions apply to the Notes.

If an Index Adjustment Event (being, in summary, a material change in the formula for or the method of calculating a relevant index, any other material modification of the relevant index, a cancellation of the relevant index or a failure to calculate and announce a relevant index) occurs, prospective purchasers should note that, at the Issuer’s option, the Notes may be subject to adjustment, the relevant index may be substituted by a replacement index or the Issuer may redeem the Notes early at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date and the volatility of the level of the index or indices. The level of the index or indices may be affected by the economic, financial and political events in one or more jurisdictions, including the stock exchange(s) or quotation system(s) on which any securities comprising the index or indices may be traded.

The value of an index on any day will reflect the value of its constituents on such day. Changes in the composition of such index and factors (including those described above) which either affect or may affect the value of the constituents, will affect the value of such Reference Item and therefore may affect the return on an investment in the relevant Notes.

In relation to Index-Linked Notes which are linked to an Index, the constituents of which are commodities or commodity futures or options contracts (a “**Commodity Index**”), investors should also note the following:

Investors in Notes linked to one or more Commodity Indices should note that commodity futures markets are highly volatile. Commodity markets are influenced by, among other things, changing supply and demand relationships, weather, governmental, agricultural, commercial and trade programmes and policies designed to influence commodity levels or prices, world political and economic events, and changes in interest rates. Moreover, certain commodities may be priced by reference to futures and options contracts on the relevant commodity and investors should note that investments in futures and options contracts involve additional risks including, without limitation, leverage (margin is usually a percentage of the face value of the contract and exposure can be nearly unlimited). A holder of a futures position may find that such position becomes illiquid because certain commodity exchanges limit fluctuations in certain futures contract prices during a single day by regulations referred to as “daily price fluctuation limits” or “daily limits”. Under such daily limits, during a single trading day no trades may be executed at prices beyond the daily limits. Once the price of a contract for a particular future has increased or decreased by an amount equal to the daily limit, positions in the future can neither be taken nor liquidated unless traders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Similar occurrences could prevent the liquidation of unfavourable positions and subject an investor in a Note relating to commodities linked to such contract prices to substantial losses. The yield on Notes relating to Commodities Indices may not perfectly correlate to the trend in the price of the underlying commodities as the use of such future commodity contracts generally involves a rolling mechanism. This means that the commodity futures contracts which expire prior to the relevant payment date under the relevant Notes are replaced with future commodity contracts that have a later expiry date. Investors may therefore only marginally benefit from any rise/fall in prices on such commodities. Investors should also consider that the relevant commodity futures contracts could have a trend which differs significantly from that of the commodity spot markets. The trend in the price of a commodity futures contract compared to the underlying commodity is closely linked to the present and future level of the production of the underlying commodity or to the level of estimated natural reserves, particularly in the case of energy commodities. In addition, the price of the relevant commodity futures contract may not be considered an accurate prediction of a market price, since it also includes the so-called “carrying costs” (such as, for example, warehouse costs, insurance covering the goods, transportation etc.), which also contribute toward the determination of the price of the commodity futures contracts. The above factors which directly influence the commodities prices substantially explain the imperfect correlation between the commodity spot markets and the commodity futures contracts.

Risk relating to Equity-Linked Notes

The Issuer may issue Notes where the amount of principal or interest payable is dependent upon the price of or changes in the price of an equity security or a basket of equity securities (“**Equity-Linked Notes**”).

Potential investors in any such Notes should be aware that, depending on the terms of the Equity-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, movements in the price of the equity security or basket of equity securities may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or indices and the timing of changes in the relevant price of the equity security or equity securities may affect the actual yield to investors, even if the average price is consistent with their expectations.

If the amount of principal and/or interest payable is determined in conjunction with a multiplier or participation rate greater than one or by reference to some other leverage factor, the effect of changes in the price of the equity security or equity securities on principal payable will be magnified.

The Calculation Agent may determine that an event giving rise to a Disrupted Day (as defined in *“Terms and Conditions of the Notes”* below) has occurred at any relevant time. Any such determination may have an effect on the timing of valuation and consequently the value of the Notes and/or may delay settlement. Prospective purchasers should review the *“Terms and Conditions of the Notes”* and the relevant Issue Terms to ascertain whether and how such provisions apply to the Notes.

If *“Potential Adjustment Events”* (being, in summary, certain corporate events which may have a diluting, concentrative or other effect on the theoretical value of the relevant equity securities) and/or *“Extraordinary Events”* (being, in summary, a de-listing, a merger event, a tender offer, a nationalisation or an insolvency, in each case, affecting the relevant equity securities and certain additional extraordinary events relating to equity securities which are specified, in the applicable Issue Terms to be ETF shares) are specified as applicable in the relevant Issue Terms, prospective purchasers should note that the Notes may be subject to adjustment or, if *“Extraordinary Events”* are specified as applicable in the relevant Issue Terms, the Issuer may redeem the Notes early at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.

Additional extraordinary events for the purposes of the above are: the implementation of any material change to the terms and conditions of a fund, any breach of the investment objectives of a fund, the failure by a fund administrator to calculate and make available the value of the fund within eight scheduled trading days of its scheduled publication, a material limitation or restriction is imposed on dealings or subscriptions and/or redemptions in any Fund Interests or there is a material reduction in the assets under management of a Fund, the annualised volatility of a Fund exceeds the prescribed percentage during any one-month rolling time period, the compulsory redemption of fund interests, a fund is wound up or terminated, a fund is superseded by a successor fund which does not satisfy the control procedures of the Calculation Agent, the cancellation or suspension of any relevant registration, license or approval in respect of the fund or any other event which has, in the determination of the Calculation Agent, an analogous effect.

In respect of Equity-Linked Notes relating to an equity security or equity securities originally quoted, listed and/or dealt as of the Trade Date in a currency of a member state of the European Union that has not adopted the single currency in accordance with the Treaty on the functioning of the European Union, as amended, if such equity security or equity securities is/are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange, prospective purchasers should note that the Calculation Agent will adjust any of the Terms and Conditions as the Calculation Agent determines to be appropriate to preserve the economic terms of the Notes. Prospective purchasers should also note that the Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the relevant Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time.

The market price of such Notes may be volatile and may be affected by the time remaining to the redemption date, the volatility and/or liquidity of the equity security or equity securities, the dividend rate (if any) and the financial results and prospects of the issuer or issuers of the relevant equity security or equity

securities as well as economic, financial and political events in one or more jurisdictions, including factors affecting the stock exchange(s) or quotation system(s) on which any such securities may be traded.

Risks relating to Currency-Linked Notes

The Issuer may issue Notes where the amount of principal or interest payable is dependent upon movements in currency exchange rates (together “**Currency-Linked Notes**”).

Potential investors in any such Notes should be aware that, depending on the terms of the Currency-Linked Notes (i) they may receive no or a limited amount of interest, (ii) payment of principal or interest may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment. In addition, movements in currency exchange rates may be subject to significant fluctuations that may not correlate with changes in interest rates or other indices and the timing of changes in the exchange rates may affect the actual yield to investors, even if the average level is consistent with their expectations.

If the amount of principal and/or interest payable is dependent upon movements in currency exchange rates and is determined in conjunction with a multiplier or participation rate greater than one or by reference to some other leverage factor, the effect of changes in the currency exchange rates on principal or interest payable will be magnified.

The market price of such Notes may be volatile and may depend upon the time remaining to the redemption date and the volatility of currency exchange rates. Movements in currency exchange rates may be dependent upon economic, financial and political events in one or more jurisdictions.

Additional Disruption Events

If “Additional Disruption Event” (being, among other things, certain disruption events affecting the hedging activities of the Issuer and/or any of its affiliates and/or any Hedging Party) are specified as applicable in the relevant Issue Terms, the Notes will be subject to adjustment or may be redeemed upon the occurrence of any of the Additional Disruption Events specified as applicable in the relevant Issue Terms.

SECTION B.2 - DESCRIPTION OF THE NOTES

The following are descriptions of the interest and redemption payments under certain types of Notes (other than Exempt Notes) which may be issued under the Programme.

INTEREST

The Interest Amount in respect of a Calculation Amount (“CA”) for any Interest Period in respect of any issue of Notes (other than Fixed Rate Notes where the Interest Amount in respect of a Calculation Amount is specified in the relevant Final Terms) will be calculated by reference to the following formula:

$$\text{CA} \times \text{Rate of Interest} \times \text{Day Count Fraction (“DCF”)}$$

The interest basis in respect of an Interest Period may change during the term of the Notes as specified in the relevant Final Terms. For the purposes of the following descriptions, the variable “**Underlying Rate**” may be (i) a single rate determined by reference to a screen page, (ii) a single rate (an “**ISDA Rate**”) determined as though such rate were a floating rate determined under the terms of an interest rate swap transaction documented under an agreement incorporating the 2006 ISDA Definitions, as published by the International Swaps and Derivatives Association, Inc. and as amended from time to time, or (iii) a rate determined as the difference between two different ISDA Rates.

1. NON-STRUCTURED FLOATING RATE NOTES

Non-Structured Floating Rate Notes have a Rate of Interest which is an Underlying Rate multiplied by a leverage factor, plus or minus a specified percentage or “margin”. Such Rate of Interest, expressed as a formula:

$$(\text{Leverage} \times \text{Underlying Rate}) + \text{Margin}$$

Therefore, Non-Structured Floating Rate Notes are subject to (i) a variable underlying rate and (ii) a leverage factor. No cap or floor is applied to such rate.

Examples of the calculation of the Interest Amount in respect of Non-Structured Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Non-Structured Floating Rate Notes:

Calculation Amount: EUR 1,000
Underlying Rate: 3 month EURIBOR
Payment Frequency: Quarterly
Day Count Fraction: Actual/360
Number of days in Interest Period: 91
Rounding: 2 decimal places
Leverage: 100%
Margin: Zero

Underlying Rate	Rate of Interest	Interest Amount
3 month EURIBOR = 1.00%	$(100\% \times 1.00\%) + 0 = 1.00\%$	$\text{EUR } 1,000 \times 1.00\% \times [91/360] = \text{EUR } 2.53$
3 month EURIBOR = 3.00%	$(100\% \times 3.00\%) + 0 = 3.00\%$	$\text{EUR } 1,000 \times 3.00\% \times [91/360] = \text{EUR } 7.58$

2. CAPPED FLOATING RATE NOTES

Capped Floating Rate Notes have a Rate of Interest which is an Underlying Rate multiplied by a leverage factor, subject to a specified maximum rate (or cap). Such Rate of Interest, expressed as a formula:

$$\text{Min [Cap; (Leverage x Reference Rate) + Margin]}$$

Therefore, Capped Floating Rate Notes are subject to (i) a variable underlying rate, (ii) a leverage factor and (iii) a specified cap. Where the Underlying Rate is greater than the specified cap, investors will not participate in the increase in the relevant variable underlying rate above such cap. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Capped Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Capped Floating Rate Notes:

Calculation Amount: EUR 1,000
Underlying Rate: 3 month EURIBOR
Payment Frequency: Quarterly
Day Count Fraction: Actual/360
Number of days in Interest Period: 91
Rounding: 2 decimal places
Cap: 2%
Leverage: 100%
Margin: Zero

Underlying Rate	Rate of Interest	Interest Amount
3 month EURIBOR = 1.00%	Min [2.00%; (100% x 1.00%) + 0] = 1.00%	EUR 1,000 x 1.00% x [91/360] = EUR 2.53
3 month EURIBOR = 3.00%	Min [2.00%; (100% x 3.00%) + 0] = 2.00%	EUR 1,000 x 2.00% x [91/360] = EUR 5.06

The above examples show that, where the Underlying Rate is greater than the cap (disregarding the effect of the Leverage and the Margin), the Rate of Interest will not be increased above the cap and the Interest Amount will be less than it would have been had the cap not been imposed.

3. FLOORED FLOATING RATE NOTES

Floored Floating Rate Notes have a Rate of Interest which is an Underlying Rate multiplied by a leverage factor, subject to a specified minimum rate (or floor). Such Rate of Interest, expressed as a formula:

$$\text{Max [Floor; (Leverage x Reference Rate) + Margin]}$$

Therefore, Floored Floating Rate Notes are subject to (i) a variable underlying rate, (ii) a leverage factor and (iii) a specified floor. Where the Underlying Rate is less than the specified floor, investors will not participate in the decrease in the relevant variable underlying rate below such floor. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Floored Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Floored Floating Rate Notes:

Calculation Amount: EUR 1,000
Underlying Rate: 6 month EURIBOR
Payment Frequency: Semi-annually
Day Count Fraction: Actual/360
Number of days in Interest Period: 182
Rounding: 2 decimal places
Floor: 2.50%
Leverage: 100%
Margin: Zero

Underlying Rate	Rate of Interest	Interest Amount
6 month EURIBOR = 2.00%	Max [2.50%; (100% x 2.00%) + 0] = 2.50%	EUR 1,000 x 2.50% x [182/360] = EUR 12.64
6 month EURIBOR = 4.00%	Max [2.50%; (100% x 4.00%) + 0] = 4.00%	EUR 1,000 x 4.00% x [182/360] = EUR 20.22

The above examples show that, where the Underlying Rate is less than the floor, the Rate of Interest will not be decreased below the floor and the Interest Amount will be greater than it would have been had the floor not been imposed.

4. COLLARED FLOATING RATE NOTES

Collared Floating Rate Notes have a Rate of Interest which is an Underlying Rate multiplied by a leverage factor, subject to a specified maximum rate (or cap) AND a minimum rate (or floor). Such Rate of Interest, expressed as a formula:

$$\text{Min (Cap; Max [Floor; (Leverage x Reference Rate) + Margin])}$$

Therefore, Collared Floating Rate Notes are subject to (i) a variable underlying rate, (ii) a leverage factor and (iii) a specified cap and a specified floor. Where the Underlying Rate is greater than the specified cap, investors will not participate in the increase in the relevant variable underlying rate above such cap and where the Underlying Rate is less than the specified floor, investors will not participate in the decrease in the relevant variable underlying rate below such floor. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Collared Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Collared Floating Rate Notes:

Calculation Amount: EUR 1,000
Underlying Rate: 6 month EURIBOR
Payment Frequency: Semi-annually
Day Count Fraction: Actual/360
Number of days in Interest Period: 183
Rounding: 2 decimal places
Cap: 4.00%

Floor: 2.00%
 Leverage: 100%
 Margin: Zero

Underlying Rate	Rate of Interest	Interest Amount
6 month EURIBOR = 5.00%	Min (4.00%; Max [2.00%; (100% x 5.00%) + 0]) = 4.00%	EUR 1,000 x 4.00% x [183/360] = EUR 20.33
6 month EURIBOR = 3.00%	Min (4.00%; Max [2.00%; (100% x 3.00%) + 0]) = 3.00%	EUR 1,000 x 3.00% x [183/360] = EUR 15.25
6 month EURIBOR = 1.00%	Min (4.00%; Max [2.00%; (100% x 1.00%) + 0]) = 2.00%	EUR 1,000 x 2.00% x [183/360] = EUR 10.17

The above examples show that, where the Underlying Rate is less than the floor, the Rate of Interest will not be decreased below the floor and the Interest Amount will be greater than it would have been had the floor not been imposed but where the Underlying Rate is greater than the cap, the Rate of Interest will not be increased above the cap and the Interest Amount will be less than it would have been had the cap not been imposed.

5. RANGE ACCRUAL NOTES

Range Accrual Notes have a Rate of Interest determined by reference to a specified fixed rate multiplied by an accrual rate which is determined by reference to the proportion of relevant observation dates within the relevant interest period for which the relevant Underlying Rate is greater than or equal to the specified lower barrier and equal to or less than the specified upper barrier. Such Rate of Interest, expressed as a formula:

$$\left[\text{Specified Rate 1} \times \left(\frac{n}{N} \right) \right] + \left[\text{Specified Rate 2} \times \left(\frac{N-n}{N} \right) \right]$$

The relevant observation dates may be each calendar day within the relevant interest period or may only be specific days within the relevant interest period (e.g. business days or specified weekly, monthly or quarterly dates).

Therefore, Range Accrual Notes are subject to (i) a variable underlying rate and (ii) the proportion of observation dates within the relevant interest period for which such variable underlying rate falls within the specified range and thus Range Accrual Notes can be volatile instruments and may pay little or no interest in respect of an interest period. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Range Accrual Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Range Accrual Notes:

Calculation Amount: EUR 1,000
 Underlying Rate: 3 month EURIBOR
 Payment Frequency: Quarterly
 Day Count Fraction: Actual/Actual
 Number of days in Interest Period: 90
 Rounding: 2 decimal places

Specified Rate 1: 4.00%
 Specified Rate 2: 0.50%
 Observation dates: Each calendar day within the Interest Period
 Upper Barrier: 2.00%
 Lower Barrier: 0.00%

Number of observation dates where Underlying Rate falls within the parameters	Total number of observation dates in interest period	Rate of Interest	Interest Amount
45	90	$(4.00\% \times [45/90]) + (0.50\% \times [45/90]) = \mathbf{2.25\%}$	EUR 1,000 x 2.25% x [90/360] = EUR 5.63
0	90	$(4.00\% \times [0/90]) + (0.50\% \times [90/90]) = \mathbf{0.50\%}$	EUR 1,000 x 0.50% x [90/360] = EUR 1.25

The above examples show that (assuming that a higher rate of interest will accrue where the relevant Underlying Rate falls within specified range, as is the case above i.e. Specified Rate 1 is greater than Specified Rate 2), the larger the number of observation dates for which the relevant Underlying Rate falls within the specified range, the higher the Rate of Interest and consequently the larger the Interest Amount. Conversely, the smaller the number of observation dates for which the relevant Underlying Rate falls within the specified range, the lower the Rate of Interest and consequently the smaller the Interest Amount.

6. BINARY FLOATING RATE NOTES

Binary Floating Rate Notes have a Rate of Interest which will either be (i) a specified fixed rate if the Underlying Rate for an interest period is equal to or greater than the specified lower barrier or equal to or less than the specified upper barrier (“**Binary Rate 1**”) or (ii) a different specified fixed rate (which may be zero) (“**Binary Rate 2**”).

Therefore, Binary Floating Rate Notes are subject to the performance of a variable underlying rate and whether such variable underlying rate falls within the specified range on the relevant interest determination date. The various parameters may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Binary Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Binary Floating Rate Notes:

Calculation Amount: EUR 1,000
 Underlying Rate: 6 month EURIBOR
 Payment Frequency: Semi-annually
 Day Count Fraction: Actual/360
 Number of days in Interest Period: 182
 Rounding: 2 decimal places

Binary Rate 1: 5.00% (where the Underlying Rate falls within the specified range)
 Binary Rate 2: 0.00% (where the Underlying Rate does not fall within the specified range)
 Upper Barrier: 2.00%
 Lower Barrier: 0.00%

Underlying Rate	Within parameters	Rate of Interest	Interest Amount
2.25%	NO	0.00%	EUR 1,000 x 0.00% x [182/360] = EUR 0.00
1.25%	YES	5.00%	EUR 1,000 x 5.00% x [182/360] = EUR 25.78

The above examples show that, where the relevant Underlying Rate falls within the specified range, the Rate of Interest is the higher specified rate. Conversely, where the relevant Underlying Rate falls outside the specified range, the Rate of Interest is the lower specified rate (in this case, zero).

7. STEEPENER NOTES

Steepener Notes have a rate of interest which is subject to a specified minimum rate (or floor) and is otherwise the lesser of (i) a specified maximum rate (or cap) and (ii) an Underlying Rate minus a specified fixed strike rate multiplied by a leverage factor. Different strike rates may apply in respect of different interest periods. Such Rate of Interest, expressed as a formula:

$$\text{Max [Floor; Min [Cap; Leverage x (Underlying Rate – Strike Rate)]]}$$

Therefore, Steepener Notes are subject to (i) a variable underlying rate and how it compares to a specified fixed strike rate, (ii) a leverage factor and (iii) a specified floor and a cap. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Steepener Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Steepener Notes:

Calculation Amount: EUR 1,000
 Underlying Rate: 10yr EUR OMX Swap Rate – 2yr EUR OMX Swap Rate
 Payment Frequency: Annually
 Day Count Fraction: Actual/Actual
 Number of days in Interest Period: 365
 Rounding: 2 decimal places
 Cap: 7.00%
 Floor: 0.00%
 Leverage: 500%
 Strike Rate: 0.50%

10yr EUR OMX Swap Rate	2yr EUR OMX Swap Rate	Rate of Interest	Interest Amount
3.20%	0.50%	Max [0.00%; Min (7.00%; 500% x (3.20% - 0.50% - 0.50%))] = 7.00%	EUR 1,000 x 7.00% x [365/365] = EUR 70.00
2.10%	0.70%	Max [0.00%; Min (7.00%; 500% x (2.10% - 0.70% - 0.50%))] = 4.50%	EUR 1,000 x 4.50% x [365/365] = EUR 45.00
1.1%	2.20%	Max [0.00%; Min (7.00%; 500% x (1.10% - 2.20% - 0.50%))] = 0.00%	EUR 1,000 x 0.00% x [365/365] = EUR 1.00

The above examples show that, where the Underlying Rate less the Strike Rate (multiplied by the leverage factor) is less than the floor, the Rate of Interest will not be decreased below the floor and the Interest Amount will be greater than it would have been had the floor not been imposed but, where the Underlying Rate less the Strike Rate (multiplied by the leverage factor) is greater than the cap, the Rate of Interest will not be increased above the cap and the Interest Amount will be less than it would have been had the cap not been imposed.

In addition, as the leverage factor is greater than 100 per cent., the application of such leverage magnifies the effect of changes in value of the Underlying Rate compared to the Strike Rate.

8. REVERSE FLOATING RATE NOTES

Reverse Floating Rate Notes have a rate of interest rate which is subject to a specified minimum rate (or floor) and is otherwise the lesser of (i) a specified maximum rate (or cap) and (ii) a specified fixed rate minus the product of a variable reference rate and a leverage factor. Such Rate of Interest, expressed as a formula:

$$\text{Max [Floor; Min [Cap; Fixed Rate - (Leverage x Underlying Rate)]]}$$

Therefore, Reverse Floating Rate Notes are subject to (i) a specified fixed rate and how it compares to a variable reference rate (which may be subject to a leverage factor) and (ii) a specified floor and a cap. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Reverse Floating Rate Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Reverse Floating Rate Notes:

Calculation Amount: EUR 1,000
 Underlying Rate: 12 month EURIBOR
 Payment Frequency: Annually
 Day Count Fraction: Actual/360
 Number of days in Interest Period: 365
 Rounding: 2 decimal places
 Cap: 7.00%
 Floor: 2.00%
 Leverage: 200%
 Fixed Rate: 4.50%

Underlying Rate	Rate of Interest	Interest Amount
0.75%	Max [2.00%; Min (7.00%; 4.50% - [200% x 0.75%])] = 3.00%	EUR 1,000 x 3.00% x [365/360] = EUR 30.42
1.50%	Max [2.00%; Min (7.00%; 4.50% - [200% x 1.50%])] = 2.00%	EUR 1,000 x 2.00% x [365/360] = EUR 20.28

The above examples show that, where the Fixed Rate less than the Underlying Rate (multiplied by the leverage factor) is less than the floor, the Rate of Interest will not be decreased below the floor and the Interest Amount will be greater than it would have been had the floor not been imposed.

In addition, as the leverage factor is greater than 100 per cent., the application of such leverage magnifies the effect of changes in value of the Underlying Rate compared to the Fixed Rate.

9. SNOWBALL NOTES

Snowball Notes have a rate of interest which is subject to a specified minimum rate (or floor) and is otherwise the lesser of (i) a specified maximum rate (or cap) and (ii) an accreting fixed rate of interest minus the product of a variable reference rate and a leverage factor. Such Rate of Interest, expressed as a formula:

$$\text{Max [Floor; Min [Cap; (Rate of Interest}_{t-1} + \text{Snowball Amount)} - (\text{Leverage} \times \text{Underlying Rate})]]$$

Therefore, the Snowball Amount will operate to increase the fixed rate to which the Underlying Rate (multiplied by any leverage factor) is compared and Snowball Notes are subject to (i) a specified accreting fixed rate and how it compares to a variable reference rate (which may be subject to a leverage factor) and (ii) a specified floor and a cap. The various parameters in the above formula may be different for each Interest Period.

Examples of the calculation of the Interest Amount in respect of Snowball Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Snowball Notes:

Calculation Amount: EUR 1,000
 Underlying Rate: 3 month EURIBOR
 Payment Frequency: Quarterly
 Day Count Fraction: 30/360
 Number of days in Interest Period: 90
 Rounding: 2 decimal places
 Cap: 10.00%
 Floor: 1.00%
 Leverage: 200%
 Fixed Rate: 4.50%

Underlying Rate	Rate of Interest _{t-1}	Snowball Amount	Rate of Interest	Interest Amount
1.50%	1.75%	2.00%	Max [1.00%; Min (10.00%; [1.75% + 2.00%]) - [200% x 1.50%]] = 1.00%	EUR 1,000 x 1.00% x [90/360] = EUR 2.50
0.75%	3.25%	2.50%	Max [1.00%; Min (10.00%; [3.25% + 2.50%]) - [200% x 0.75%]] = 4.25%	EUR 1,000 x 4.25% x [90/360] = EUR 10.63

The above examples show that, where the accreting fixed rate less than the Underlying Rate (multiplied by the leverage factor) is less than the floor, the Rate of Interest will not be decreased below the floor and the Interest Amount will be greater than it would have been had the floor not been imposed.

In addition, as the leverage factor is greater than 100 per cent., the application of such leverage magnifies the effect of changes in value of the Underlying Rate compared to the accreting fixed rate.

10. INFLATION-LINKED INTEREST NOTES

Inflation-Linked Interest Notes have a rate of interest rate which will be calculated based on the change in value of the relevant inflation index. Such Rate of Interest, expressed as a formula:

$$\text{Specified Rate} \times \left[\frac{\text{Reference Level}_t}{\text{Reference Level}_{t-\alpha}} \right]$$

Therefore, Inflation-Linked Interest Notes are subject to (i) a specified fixed rate and (ii) the performance of the Reference Item over a certain time period, determined as the value the Reference Item in respect of a specified reference month divided by the value of the Reference Item in respect of a specified preceding reference month, expressed as a percentage. The Specified Rate may be different for each Interest Period.

Consequently, if the value of the Reference Item in respect of an Interest Period increases compared to the value of the Reference Item in respect of the specified preceding reference month for such Interest Period, the Rate of Interest will operate to increase the amount of interest for such Interest Period. Conversely, if the value of the Reference Item in respect of an Interest Period decreases compared to the value of the Reference Item in respect of the specified preceding reference month for such Interest Period, the Rate of Interest will operate to decrease the amount of interest for such Interest Period.

Examples of the calculation of the Interest Amount in respect of Inflation-Linked Interest Notes:

The following examples illustrate how the Interest Amount is calculated in respect of Inflation-Linked Interest Notes:

Reference Level for the Reference Month falling
3 months prior to the end of the relevant Interest Period: 2.00%
Calculation Amount: EUR 1,000
Specified Rate: 5.00%
Payment Frequency: Annually
Day Count Fraction: 30/360
Number of days in Interest Period: 360

Reference Level for the Reference Month falling 15 months prior to the end of the relevant Interest Period	Performance for such Interest Period	Interest Rate	Inflation-Linked Interest Amount
4.00%	4.00%/2.00% = 1.5 or 150% (expressed as a percentage)	5.00% x 150% = 7.50%	EUR 1,000 x 7.50% x [360/360] = EUR 75
1%	1.00%/2.00% = 0.5 or 50% (expressed as a percentage)	5.00% x 50% = 2.50%	EUR 1,000 x 2.50% x [360/360] = EUR 25

The above examples show that, where the level of the inflation index increases compared to the level of the inflation index for the specified preceding reference month for such Interest Period, the Rate of Interest will increase. Conversely, where the level of the inflation index decreases compared to the level of the inflation index for the specified preceding reference month for such Interest Period, the Rate of Interest will decrease.

11. INTEREST IN RESPECT OF CREDIT-LINKED NOTES

Payment of interest in respect of Credit-Linked Notes and/or the amount of interest payable in respect of Credit-Linked Notes are affected by the occurrence of relevant Credit Event(s). Notes which are not Portfolio Credit-Linked Notes will cease to bear interest on either the relevant Credit Event Determination Date or the Interest Payment Date immediately preceding the relevant Credit Event Determination Date (or, if none, the Issue Date). In the case of Portfolio Credit-Linked Notes, the occurrence of relevant Credit Events will reduce the amount of interest payable by reducing the principal amount by reference to which the relevant Interest Amount is calculated by an amount equal to the Reference Entity Notional Amount in respect of each Reference Entity the subject of a Credit Event. Such reduction may take effect either from the interest period end date immediately preceding the date on which the Conditions to Settlement have been satisfied or from the date on which the Conditions to Settlement have been satisfied.

Credit-Linked Notes may have a floating Rate of Interest, a fixed Rate of Interest or any other interest rate type or combination of interest rates specified above.

Examples of the calculation of the Interest Amount in respect of Credit-Linked Notes:

The following example illustrates how the Interest Amount may be calculated in respect of Portfolio Credit-Linked Notes:

Calculation Amount: EUR 1,000

Fixed Rate of Interest: 4%

Payment Frequency: Annually

Day Count Fraction: 30/360

Rounding: 2 decimal places

Number of Reference Entities: 10

Reference Entity Notional Amount: 100 for each Reference Entity

Number of credit events in the Portfolio	Adjusted Calculation Amount	Rate of Interest	Interest Amount	Redemption at maturity
0	EUR 1,000	4%	EUR 1,000 x 4.00% x [360/360] = EUR 4.00	EUR 1,000
1	EUR 1,000 – EUR 100 = EUR 900	4%	EUR 900 x 4.00% x [360/360] = EUR 3.60	EUR 900
3	EUR 1,000 – (3 x EUR 100) = EUR 700	4%	EUR 700 x 4.00% x [360/360] = EUR 2.89	EUR 700

The above examples show that, where the Conditions to Settlement have been satisfied in relation to one or more Reference Entities prior to an interest payment date, this will operate to reduce the principal amount by reference to which the Interest Amount is calculated and will therefore reduce the amount of interest payable from (and including) such interest payment date.

REDEMPTION

12. REDEMPTION IN RESPECT OF CREDIT-LINKED NOTES

Where the Issue Terms relating to a Tranche of Notes specifies that the Notes are Credit-Linked Notes and where the Final Redemption Amount is not specified in the relevant Issue Terms to be the

Reference Item-Linked Redemption Amount, if the Conditions to Settlement are satisfied in relation to any of the specified Reference Entities, the Notes will either be redeemed early by payment of the Credit-Linked Redemption Amount calculated as specified below or, where the Notes are Portfolio Credit-Linked Notes or where Maturity Credit Event Redemption is specified as applying in the relevant Issue Terms, the Notes will be redeemed on the Maturity Date and the Final Redemption Amount shall be the Credit-Linked Redemption Amount.

The Credit-Linked Redemption Amount shall be either a fixed amount specified in the relevant Issue Terms or an amount determined as follows:

- (i) in the case of Notes other than Portfolio Credit-Linked Notes, an amount determined as (i) the Calculation Amount (“CA”) multiplied by (ii) the final price or auction final price (determined as set out in the Conditions) in respect of the relevant Reference Entity (“FP”), less any Unwind Costs (“UC”), expressed as a formula:

$$(CA \times FP) - UC$$

- (ii) in the case of Notes which are Portfolio Credit-Linked Notes, an amount determined as (i) the Calculation Amount (“CA”) multiplied by (ii) the sum of the weighted (“W_i”) final prices or auction final prices (determined as set out in the Conditions) (“FP”) of each of the Reference Entities the subject of a Credit Event, less any Unwind Costs (“UC”), expressed as a formula:

$$\left(CA \times \left[\sum_{i=1}^b W_i \times FP_i \right] \right) - UC$$

Where the relevant final price or auction final price or the weighted sum of the final prices or auction final prices is less than 100%, investors will receive less than the Calculation Amount on redemption of the Notes.

13. REFERENCE ITEM-LINKED REDEMPTION AMOUNT = INFLATION-LINKED REDEMPTION AMOUNT

Where the Issue Terms relating to a Tranche of Notes specifies that the Reference Item-Linked Redemption Amount is the “Inflation-Linked Redemption Amount”, based on the performance of an inflation index, such Notes give the investor a right to receive a Final Redemption Amount which will be determined in accordance with the formula set out below. Such Notes will be Inflation-Linked Notes (linked to a single Inflation Index).

The Inflation-Linked Redemption Amount in respect of each Calculation Amount (“CA”) will be calculated based on the change in value of the Reference Item and will be determined as the Calculation Amount multiplied by an amount (which, depending on the specified Performance Floor, may be less than 100%) equal to the performance of the Reference Item multiplied by a participation rate. As a formula:

$$RPA \times Max \left[Performance\ Floor; \left(PR \times \frac{Reference\ Level_f}{Reference\ Level_{f-0}} \right) \right] \times FX$$

where “RPA” or “Relevant Principal Amount” means the CA.

Where the performance of the Reference Item is multiplied by a participation rate (“PR”) greater than 100%, the effect on the Inflation-Linked Redemption Amount of changes in the level of the Reference Item will be magnified. Where PR is less than 100%, the effect of changes in the level of the Reference Item will be reduced.

In addition, where the relevant Issue Terms specify that FX Conversion is applicable, the Reference Item Amount will be adjusted to reflect changes in the specified exchange rate between the initial exchange rate and the final exchange rate on the specified FX valuation date(s).

Where the Performance Floor is less than 100%, depending on the performance of the Reference Item, the Inflation-Linked Redemption Amount may be less than the Calculation Amount and investors may receive on redemption less than the amount they originally invested.

The Inflation-Linked Redemption Amount is determined by reference to the performance of the Reference Item over a certain time period, determined as the level the Reference Item in respect of a specified reference month divided by the level of the Reference Item in respect of a specified preceding reference month, expressed as a percentage.

Consequently, if the level of the Reference Item increases compared to the level of the Reference Item in respect of the specified preceding reference month, the Inflation-Linked Redemption Amount will be greater than the Calculation Amount. Conversely, if the level of the Reference Item decreases compared to the level of the Reference Item in respect of the specified preceding reference month, the Inflation-Linked Redemption Amount may be less than the Calculation Amount (depending on the Performance Floor).

Inflation-Linked Notes which are also Credit Linked Notes

Where the Notes are Inflation-Linked Notes which are also Credit-Linked Notes, Maturity Credit Event Redemption shall apply and, where the Conditions to Settlement have been satisfied in relation to one or more Reference Entities, the Inflation-Linked Redemption Amount will be determined as specified above except that “CA” in the definition of Relevant Principal Amount shall substituted by the Credit-Linked Redemption Amount which shall be either a fixed amount specified in the relevant Issue Terms or an amount determined as (i) the Calculation Amount multiplied by (ii) the final price or auction final price (determined as set out in the Conditions) in respect of the relevant Reference Entity or, in respect of Portfolio Credit-Linked Notes, the sum of the weighted final prices or auction final prices (determined as set out in the Conditions) of each of the Reference Entities the subject of a Credit Event. The amount received on redemption may therefore be less than the Calculation Amount and may be zero.

Examples of the calculation of the Inflation-Linked Redemption Amount:

The following examples illustrate how the Inflation-Linked Redemption Amount is calculated in respect of Notes linked to a single Reference Item:

Reference Level for the Reference Month falling
3 months prior to the maturity date: 2.00%
Calculation Amount: EUR 1,000
Performance Floor: 100%
Participation Rate (PR): 100%
FX Conversion: Not Applicable: FX = 1

a) A positive performance

Reference Level for the Reference Month falling 15 months prior to the maturity date	Performance
4.00%	$4.00\%/2.00\% = 2$ or 200% (expressed as a percentage)

Inflation-Linked Redemption Amount =

$$\text{EUR } 1,000 \times \text{Max} [100\%; (100\% \times 200\%)] \times 1 = \text{EUR } 2,000$$

As the level of the inflation index has increased, investors participate in the increase and the Inflation-Linked Redemption Amount is greater than the Calculation Amount.

b) A negative performance

Reference Level for the Reference Month falling 15 months prior to the maturity date	Performance
1%	1.00%/2.00% = 0.5 or 50% (expressed as a percentage)

Inflation-Linked Redemption Amount =

$$\text{EUR } 1,000 \times \text{Max} [100\%; (100\% \times 50\%)] \times 1 = \text{EUR } 1,000$$

As the level of the inflation index has decreased but as the value of the Inflation-Linked Redemption Amount is floored at 100% (Performance Floor is equal to 100%), investors do not participate fully in the decrease in the level of the inflation index and the Inflation-Linked Redemption Amount is equal to the Calculation Amount.

Example of the calculation of the Inflation-Linked Redemption Amount where the Notes are also Credit-Linked Notes:

The following example illustrates how the Inflation-Linked Redemption Amount is calculated in respect of Inflation-Linked Notes which are also Credit-Linked Notes linked to the credit of a single Reference Entity:

Reference Level for the Reference Month falling
3 months prior to the maturity date: 2.00%
Calculation Amount: EUR 1,000
Performance Floor: 100%
Participation Rate (PR): 100%
FX Conversion: Not Applicable: FX = 1

Reference Entity Final Price: 40%
Unwind Costs: Zero

a) A positive performance of the inflation index where conditions to settlement have been satisfied in respect of the Reference Entity

Reference Level for the Reference Month falling 15 months prior to the maturity date	Performance
4.00%	4.00%/2.00% = 1.5 or 150% (expressed as a percentage)

Credit-Linked Redemption Amount =

$$(EUR1,000 \times 40\%) - 0 = EUR400$$

Inflation-Linked Redemption Amount =

$$EUR400 \times \text{Max} [100\%; (100\% \times 150\%)] \times 1 = EUR 600$$

As the level of the inflation index has increased, investors participate in the increase but such increase is determined by reference to the Credit-Linked Redemption Amount rather than the Calculation Amount and the Inflation-Linked Redemption Amount is therefore not greater than the Calculation Amount.

14. REFERENCE ITEM-LINKED REDEMPTION AMOUNT = CALL REDEMPTION AMOUNT

Where the Issue Terms relating to a Tranche of Notes specifies that the Reference Item-Linked Redemption Amount is the “Call Redemption Amount”, based on the economic performance of a Reference Item or a basket of Reference Items (other than Reference Items which are Reference Entities), such Notes give the investor a right to receive a Final Redemption Amount which will be determined in accordance with the formula set out below. Such Notes may be Index-Linked Notes (linked to an Index or a basket of Indices), Equity-Linked Notes (linked to an Underlying Equity or a basket of Underlying Equities) or Currency-Linked Notes (linked to a Subject Currency or a basket of Subject Currencies).

The Call Redemption Amount in respect of each Calculation Amount (“CA”) will be calculated based on the change in value of the relevant Reference Item(s) by reference to the following formula:

$$\text{RPA} + \text{Reference Item Amount}$$

where “RPA” or “**Relevant Principal Amount**” means the CA.

The Reference Item Amount will be determined as the Calculation Amount multiplied by an amount (which, depending on the specified Performance Floor, may be less than zero) determined by reference to the performance of the relevant Reference Item(s), as a formula:

$$\text{CA} \times \text{Max} [\text{Performance Floor}; (\text{PR} \times \text{Call Performance})] \times \text{FX}$$

Where Call Performance is multiplied by a participation rate (“PR”) greater than 100%, the effect on the Reference Item Amount of changes in the level of the relevant Reference Item(s) will be magnified. Where PR is less than 100%, the effect of changes in the level of the relevant Reference Item(s) will be reduced.

In addition, where the relevant Issue Terms specify that FX Conversion is applicable, the Reference Item Amount will be adjusted to reflect changes in the specified exchange rate between the initial exchange rate and the final exchange rate on the specified FX valuation date(s).

Call Performance is determined as the performance of the Reference Item (where the Notes relate to a single Reference Item) or the sum of the weighted performances of each of the Reference Items (where the Notes relate to a basket of Reference Items) MINUS 100%.

The performance of any Reference Item is determined as the value or the average value of the relevant Reference Item in respect of specified final valuation date(s) divided by the value, the average value or the highest or lowest value of the relevant Reference Item in respect of specified initial valuation date(s), expressed as a percentage. Where “**Look Back**” is specified to apply, the Initial Value will be determined by reference to the lowest value of the relevant Reference Item in respect of any of the specified initial valuation date(s).

Consequently, if the value of the Reference Item(s) increases compared to the value of the Reference Item(s) in respect of the specified initial valuation date(s), Call Performance will be positive and the Call Redemption Amount will be greater than the Calculation Amount. Conversely, if the value of the Reference Item(s) decreases compared to the value of the Reference Item(s) in respect of the specified initial valuation date(s), Call Performance will be negative and (subject to the Performance Floor) the Call Redemption Amount may be less than the Calculation Amount.

Index-Linked Notes/Equity-Linked Notes which are also Credit Linked Notes

Where the Notes are Index-Linked Notes or Equity-Linked Notes which are also Credit-Linked Notes, Maturity Credit Event Redemption shall apply and, where the conditions to settlement have been satisfied in relation to one or more Reference Entities, the Call Redemption Amount will be determined as specified above except that “CA” in the definition of Relevant Principal Amount (although not in the definition of Reference Item Amount) shall substituted by the Credit-Linked Redemption Amount which shall be either a fixed amount specified in the relevant Issue Terms or an amount determined as (i) the Calculation Amount multiplied by (ii) the final price or auction final price (determined as set out in the Conditions) in respect of the relevant Reference Entity or, in respect of Portfolio Credit-Linked Notes, the sum of the weighted final prices or auction final prices (determined as set out in the Conditions) of each of the Reference Entities the subject of a Credit Event. The amount received on redemption may therefore be less than the Calculation Amount and may be zero.

Examples of the calculation of the Call Redemption Amount:

The following examples illustrate how the Call Redemption Amount is calculated in respect of Notes linked to a basket of two equally weighted Reference Items:

Reference Items:
 Reference Item 1: Share A
 Reference Item 2: Share B
 Reference Item Initial Value:
 Reference Item 1: EUR 100
 Reference Item 2: EUR 100
 Reference Item Weighting:
 Reference Item 1: 50%
 Reference Item 2: 50%
 Calculation Amount: EUR 1,000
 Performance Floor: Zero
 Participation Rate (PR): 100%
 FX Conversion: Not Applicable: FX = 1

a) A positive Call Performance

Final Value of Reference Items	Performance	Call Performance
Share A: EUR 125	Share A: EUR125/EUR100 = 1.25 or 125% (expressed as a percentage)	$[(125\% \times 50\%) + (140\% \times 50\%)] - 100\% =$ <p style="text-align: center;">32.5%</p>
Share B: EUR 140	Share B: EUR140/EUR100 = 1.40 or 140% (expressed as a percentage)	

Call Redemption Amount =

$$\text{EUR } 1,000 + (\text{EUR } 1,000 \times \text{Max } [0; (100\% \times 32.5\%)] \times 1) = \text{EUR } 1,325$$

As the value of the shares has increased, investors participate in the increase in value and the Call Redemption Amount is greater than the Calculation Amount.

b) A negative Call Performance

Final Value of Reference Items	Performance	Call Performance
Share A: EUR 80	Share A: EUR 80/EUR100 = 0.80 or 80% (expressed as a percentage)	$[(80\% \times 50\%) + (95\% \times 50\%)] - 100\% =$ -12.5%
Share B: EUR 95	Share B: EUR 95/EUR100 = 0.95 or 95% (expressed as a percentage)	

Call Redemption Amount =

$$\text{EUR } 1,000 + (\text{EUR } 1,000 \times \text{Max } [0; (100\% \times -12.5\%)] \times 1) = \text{EUR } 1,000$$

The value of the shares has decreased but as the value of the Reference Item Amount is floored at zero (Performance Floor is equal to zero), investors do not participate fully in the decrease in the value of the shares and the Call Redemption Amount is equal to the Calculation Amount.

Examples of the calculation of the Call Redemption Amount where the Notes are also Credit-Linked Notes:

The following examples illustrate how the Call Redemption Amount is calculated in respect of Notes linked to a basket of two equally weighted Reference Items where the Notes are Equity-Linked Notes which are also Credit-Linked Notes linked to the credit of a single Reference Entity:

Reference Items:

Reference Item 1: Share A

Reference Item 2: Share B

Reference Item Initial Value:

Reference Item 1: EUR 100

Reference Item 2: EUR 100

Reference Item Weighting:

Reference Item 1: 50%

Reference Item 2: 50%

Calculation Amount: EUR 1,000

Performance Floor: Zero

Participation Rate (PR): 100%

FX Conversion: Not Applicable: FX = 1

Reference Entity Final Price: 40%

Unwind Costs: Zero

a) A positive Call Performance

Final Value of Reference Items	Performance	Call Performance
Share A: EUR 125	Share A: EUR125/EUR100 = 1.25 or 125% (expressed as a percentage)	$[(125\% \times 50\%) + (140\% \times 50\%)] - 100\% =$ <p style="text-align: center;">32.5%</p>
Share B: EUR 140	Share B: EUR140/EUR100 = 1.40 or 140% (expressed as a percentage)	

Credit-Linked Redemption Amount =

$$(EUR1,000 \times 40\%) - 0 = EUR400$$

Call Redemption Amount =

$$EUR 400 + (EUR 1,000 \times \text{Max } [0; (100\% \times 32.5\%)] \times 1) = EUR 725$$

As the value of the shares has increased, investors participate in the increase in value. However, as a Credit Event has occurred, although the Reference Item Amount is determined by reference to the full amount of the Calculation Amount, the Relevant Principal Amount is the Credit-Linked Redemption Amount rather than the full amount of the Calculation Amount and the Call Redemption Amount is therefore not greater than the Calculation Amount.

The general corporate structure of the Danske Bank Group (the “**Danske Bank Group**” or the “**Group**”) is as shown below:

Overview

The Group is the leading financial service provider in Denmark – and one of the largest in the Nordic region – measured by total assets as at 31 December 2012¹. The Group offers its customers in Denmark and in its other markets a broad range of services that, depending on the market, include services in banking, mortgage finance, insurance, trading, leasing, real estate agency and investment management. The Group has a leading market position in Denmark and is one of the larger banks in Northern Ireland and Finland. The Group also has significant operations in its other main markets of Sweden, Norway, Ireland, and the Baltics. The Group currently serves approximately five million customers and approximately 2.2 million customers use the Group’s online services. As at 31 December 2012, the Group’s total assets amounted to DKK 3,485 billion (EUR 467.1 billion)² and the Group employed approximately 20,300 employees.

Danske Bank A/S (“**Danske Bank**” or the “**Issuer**”) is the parent company of the Group. The Issuer is an international retail bank that operates in 15 countries with a focus on the Nordic region. In Denmark, customers are also served by head office departments, finance centres and subsidiaries. The Group has branches in London, Hamburg and Warsaw and a representative office in Moscow. The Issuer’s History and Development

The Issuer was founded in Denmark and incorporated on 5 October 1871 and has, through the years, merged with a number of financial institutions. The Issuer is a commercial bank with limited liability and carries on business under the Danish Financial Business Act. The Issuer is registered with the Danish Commerce and Companies Agency.

In the period from 1997-2007, the Issuer strengthened its position in the Nordic region through acquisitions. In 1997, it acquired Östgöta Enskilda Bank in Sweden, in 1999, Fokus Bank A/S (“**Fokus Bank**”) in Norway and, in 2000, RealDanmark and its subsidiaries BG Bank A/S and Realkredit Danmark A/S. Furthermore, on 1 March 2005, the Issuer acquired Northern Bank Limited (“**Northern Bank**”) in Northern Ireland and National Irish Bank in the Republic of Ireland, and, on 1 February 2007, the purchase of Sampo Bank in Finland, including Sampo Bank’s activities in the three Baltic countries and a subsidiary in St. Petersburg, Russia, was completed.

² Unless specified, DKK amounts are converted into EUR at 7.4604 DKK pr. EUR

Effective 1 June 1998, all branches of Östgöta Enskilda Bank were converted into branches of the Issuer and, effective 1 April 2007, Fokus Bank and National Irish Bank were converted into branches of the Issuer and, in June 2008, the three Baltic banks, AS Sampo Pank in Estonia, AS Sampo Banka in Latvia and AB Sampo bankas in Lithuania, were converted into branches of the Issuer. In November 2012, the Group rebranded its banking units and now markets all its banking operations under the Danske Bank brand name.

Business Units

Prior to 1 June 2012, the Group operated its business through five units: Banking Activities, Danske Markets, Danske Capital, Danica Pension and Other Activities. With effect from 1 June 2012, the Group created a new organisation structured around three business units: Personal Banking, Business Banking and Corporates & Institutions. The three new units operate across all of the Group's geographical markets. The main units are described below. The new organisation was the first step in a new strategy for the Danske Bank Group. The Group's business conditions have changed radically since the beginning of the crisis. The Group is now operating in a "new normal" environment. In response to the new challenges and opportunities, the new strategy "New Standards" was launched on 30 October 2012. The Group's financial reporting reflects the new structure with effect from 1 January 2013.

The following table sets forth certain information with respect to the Group's business units. The table below includes adjusted highlights for 2012:

Organisational structure

Personal Banking

Personal Banking is responsible for the Group's personal and private banking customers, with the aim of pushing decision-making closer to customers and making processes simpler, faster and more agile. Personal Banking is in charge of its own customer relations, credit approval, business development, HR, communications and marketing. The unit encompasses operations in Denmark, Finland, Sweden, Norway, Ireland, Northern Ireland and Luxembourg.

Business Banking

Business Banking is responsible for the Group's business customers, with the aim of utilising all the skills and products the Group has to serve customers' needs, drive cross-sales and improve financial results. Business Banking is in charge of its own customer relations, credit approval, business development, HR,

communications and marketing. The unit is structured across four regional Danish divisions; business customers in Finland, Sweden, Norway, Ireland and Northern Ireland and the Baltics; as well as a Specialist Products division.

Corporates & Institutions (“C&I”)

C&I combines the competencies of Danske Markets, Corporate & Institutional Banking (CIB) and International Banking. The business unit is responsible for its own customer relations, credit approval, business development, HR, strategy and performance management and compliance. C&I is organised around the following divisions: Relationship Management; Sales, Research & Risk Advisory; Trading & Risk; Capital Markets; and Transaction Banking. Wholesale banking services are provided to the largest institutional and corporate customers in the Nordic region. Institutional Banking includes services provided to international financial institutions outside the Nordic region.

Danske Capital

This brand continues as a separate business units in the new organisational setup. The Private Banking concept and Danske Bank International have moved to Personal Banking, whereas investment concepts and the investment desk remain within Danske Capital.

Danske Capital develops and sells asset management solutions and wealth management products and services that are marketed through Personal Banking and directly to businesses, institutional clients and external distributors. Danske Capital also supports the advisory and asset management activities of Personal Banking. As at 31 December 2012, Danske Capital had 569 employees and is represented in Denmark, Sweden, Norway, Finland, Estonia, Lithuania and Luxembourg. As at 31 December 2012, the assets managed by Danske Capital amounted to DKK 687 billion (EUR 92.1 billion).

Danica Pension

This brand continues as separate business units in the new organisational setup. No significant organisational or rebranding exercises are planned for Danica Pension.

The Group’s insurance activities comprise conventional life insurance, unit-linked insurance and personal accident insurance. Danica Pension targets both personal and business customers. Its products are marketed through a range of distribution channels within the Group, primarily Personal Banking and Danica Pension’s own agents and advisers. Danica Pension sells two market-based product groups: Danica Balance and Danica Link. Products in these groups allow customers to select their own investment profiles, and the return on savings depends on market trends. Danica Pension also sells Danica Traditionel, a product that does not offer individual investment profiles and for which Danica Pension sets the rate of interest on policyholders’ savings. As at 31 December 2012, Danica Pension had 799 employees.

As at 31 December 2012, Danica Pension’s total investment assets (customer funds) amounted to DKK 291 billion (EUR 38.9 billion), with unit-linked assets (assets managed on behalf of policy holders) amounting to DKK 29 billion (EUR 3.9 billion).

Non-Core

The Non-core business unit is responsible for the controlled exit of part of the loan portfolio. The primary objective of the Non-core unit is to establish a dedicated organisation focused on working-out the Non-core loan portfolios with a view to maximising the return to the shareholders of the Group. There is no specific timeframe associated with the workout as the timeframe will be determined by the various strategies employed around each of the loan portfolios. The Non-core unit should be largely self-sufficient and should not interfere with the Group’s core business or strategy.

Other Activities

Other Activities consists of the following Group resource and service functions: Group Risk Management; Group Finance & Legal (including Group Treasury); Group HR; Group Communications; Group IT; and Group Services. These service areas support the main business units, performing tasks that span various customer groups and markets.

Funding structure

The Group continues to ensure that it has a prudent ratio between lending and long-term funding. In addition, the Group has comprehensive and well-established funding programmes, including covered bonds. The existing CP, CD and EMTN programmes are used for short- and medium-term funding, while covered bond issues are used mainly for longer-term funding. Covered bonds thus help diversify the Group's funding across investors and maturities.

The Group has two channels through which it grants mortgage loans: (i) Realkredit Danmark A/S; and (ii) the Issuer itself.

The mortgage loans on the Realkredit Danmark A/S platform are funded through the issuance of mortgage bonds according to the Danish Mortgage-Credit Loans and Mortgage-Credit Bonds, etc. Act and executive orders issued by the Danish FSA.

Realkredit Danmark A/S currently issues mortgage covered bonds only through the Capital Centres of Realkredit Danmark A/S.

Shareholders' equity

The Issuer's shareholders' equity was DKK 138 billion (EUR 18.5 billion) as at the end of 2012 against DKK 126 billion (EUR 16.9 billion) at the end of 2011.³

At year-end 2012, the Issuer's authorised and issued share capital totalled DKK 10,086,200,000 (EUR 1,352 million) based on 1,008,620,000 shares of DKK 10 (EUR 1.34) each. The Issuer's shares are listed on the NASDAQ OMX Copenhagen A/S.

³ FX rate at 31 December 2011 = 7.4342 DKK per EUR.

On 30 October 2012 the Issuer announced that its Board of Directors had resolved to launch an offering of new shares in order to raise approximately DKK 7 billion (EUR 938 million)⁴ in new equity through an accelerated book building process. The offering of 76,880,966 new shares of DKK 10 (EUR 1.34) each represented approximately 8.3 per cent. of the Issuer's registered share capital before the capital increase and accounts for approximately 7.6 per cent. of the Issuer's registered share capital following completion of the capital increase. The final subscription price was DKK 93 (EUR 12.47) per new share, raising gross proceeds of DKK 7,149,929,838 (EUR 958,461,331) for the Issuer, and thus increasing the Issuer's share capital of nominal DKK 768,809,660 (EUR 103,060,358). Following the capital increase, the share capital of the Issuer consists of 1,008,620,000 shares of nominal value DKK 10 (EUR 1.34) each, equal to a nominal value of DKK 10,086,200,000 (EUR 1,352,073,782).

At year-end 2012, the Issuer had approximately 327,000 shareholders. According to the Danish Companies Act, shareholders must notify a company if their shareholding exceeds 5 per cent. of the company's share capital or higher percentages divisible by 5. Three shareholder groups have notified the Issuer that they hold more than 5 per cent. of its share capital:

- A.P. Møller and Chastine Mc-Kinney Møller Foundation, Copenhagen, held a total of (directly and indirectly) 22.84 per cent. of the share capital of which A.P. Møller-Maersk A/S directly holds 20 per cent.;
- Realdania, Copenhagen, held directly 10.07 per cent. of the share capital; and
- Cevian Capital II GP Limited (in its capacity as general partner of Cevian Capital II Master Fund LP, Cevian Capital II Co-Investment Fund LP and Cevian Capital II Co-Investment No. 3 LP) held 5.06 per cent. of the share capital.

In addition, on 27 February 2013 it was announced that Cevian Capital II Master Fund LP had increased its holding of shares in the Issuer whereby its holding of shares amounts to 51,174,252 shares in the Issuer of a nominal value of DKK 511,742,520, equivalent to 5.07 per cent. of the Issuer's share capital. The aforementioned holding and major shareholder announcement related only to Cevian Capital II Master Fund LP and did not include any holding of shares by Cevian Capital II Co-Investment Fund LP, Cevian Capital II Co-Investment No. 3 LP, Icahn Partners L.P., Icahn Partners Master Fund L.P., Icahn Partners Master Fund II L.P., Icahn Partners Master Fund III, L.P. and High River Limited Partnership.

On 6 March 2013 it was announced that Realdania had sold 52,000,000 shares in the Issuer on 6 March 2013 and thus now owned less than 5 per cent. of the share capital and voting rights of the Issuer. Realdania now directly owns 49,582,485 shares, equivalent to 4.91 per cent. of the Issuer's share capital.

The Issuer estimates that approximately 42 per cent. of its share capital is held by investors outside of Denmark. Most foreign investors are based in the United States and the United Kingdom.

Capital and Solvency

Pursuant to the Danish Act No. 67 of 3 February 2009 on State Capital Injections in Credit Institutions etc., as amended by the Consolidated Act. No. 876 of 15 September 2009, Act No. 516 of 12 June 2009, Act No. 1273 of 16 December 2009 and Act No. 556 of 21 December 2010, (the "**Credit Act**"), a scheme has been set up whereby the Danish state will offer to inject state funded tier 1 hybrid capital and/or to underwrite issues of tier 1 hybrid capital for Danish banks and mortgage credit institutions. The capital injections will be in the form of tier 1 hybrid capital without a set maturity and a possibility for redemption after three years. Redemption will be subject to approval from the DFSA.

⁴ Unless specified, DKK amounts in this paragraph are converted into EUR at 7.4598 DKK per EUR.

At the general meeting of the Issuer held on 4 March 2009, the shareholders authorised the Board of Directors to apply for and implement a tier 1 hybrid capital injection from the Danish state. In May 2009, the Issuer and Realkredit Danmark A/S received subordinated loan capital from the Danish state in the form of hybrid core capital of approximately DKK 24 billion (EUR 3,224 million)⁵ and approximately DKK 2 billion (EUR 269 million)⁶, respectively. The subordinated loans have strengthened the capital base, and the Group is better prepared to withstand losses that any further negative economic developments may cause. In May 2012, the subordinated loan capital of approximately DKK 2 billion (EUR 269 million) for Realkredit Danmark A/S was repaid. In contrast to the three-year redemption limitation described above, the Issuer's subordinated loan capital can only be redeemed at the earliest on 11 April 2014, i.e. 5 years after the issue date thereof. The following table below shows the total capital ratio, tier 1 capital ratio and core tier 1 capital ratio excluding hybrid capital. The second table shows the risk-weighted assets, subordinated debt and hybrid capital. The interest rate (defined as "annual yield") on the loans from the Danish state is 9.265 per cent. per annum, with an annual premium of 0.5 of a percentage point per annum for the conversion option. The interest rate will increase if the Issuer pays dividends in excess of DKK 5.5 billion (EUR 0.74 billion) per annum.

Pursuant to the agreement on state-funded capital injection between the Issuer and the Danish state, dated 5 May 2009 (the "**State-funded Hybrid Agreement**"), the Issuer is subject to, amongst other things, restrictions on capital reductions, share repurchases and the terms of new and existing share issues, restrictions on the distribution of dividends, restrictions on the use of funds to capitalise businesses in violation of the Credit Act and certain conditions concerning executive pay and bonuses. The State-funded Hybrid Agreement is annexed to the Articles of Association which are available for inspection at the places specified in "General Information".

At 31 December 2012, the total capital ratio was 21.3 per cent., with a core tier 1 capital ratio of 14.5 per cent. and a tier 1 capital ratio of 18.9 per cent.

At the end of 2012, the Group's risk-weighted assets ("RWA") amounted to DKK 819 billion (EUR 109.8 billion), against DKK 906.0 billion (EUR 121.9 billion)⁷ at the end of 2011. The decline in RWA of DKK 87 billion (EUR 12 billion)⁸ from 2011 was caused primarily by the disposal of conduit loans and other portfolio changes.

The Group's capital base consists of tier 1 capital (equity capital and hybrid capital after deductions) and tier 2 capital. At 31 December 2012, the capital base amounted to DKK 174 billion (EUR 23.3 billion)⁸, and the total capital ratio was 21.3 per cent. The core tier 1 capital ratio stood at 14.5 per cent.

The Group's strong financial position was confirmed by the EBA's capitalisation test of European banks, which was published in December 2011 and again in a final report in October 2012. This test was conducted to assess European banks' need for recapitalisation. As expected, the Group passed the test with a capital level substantially above the EBA's requirement.

At the end of March 2012, the Issuer redeemed one subordinated loan of EUR 400 million (DKK 2,976 million)⁹. In September 2012, the Issuer issued subordinated debt, tier 2 capital, of USD 1 billion (DKK 5.7 billion)¹⁰. The issue was part of the Group's ongoing adjustment of the capital structure to meet the coming European capital requirements for banks, and the issue is expected to comply with the requirements for tier 2 capital under CRD IV. The loan has a maturity of 25 years and may be redeemed at par after five years. The tier 2 capital was included in the Group's capital base at 30 September 2012, and it raised the total capital ratio by 0.7 percentage points.

Restrictions on Distributions

As a result of the Issuer's participation in the Danish bank packages, the Issuer could not distribute dividends for the financial years ended 31 December 2008 and 2009. Since 1 October 2010, and for as long as the Danish state holds hybrid capital in the Issuer, the Group may distribute dividends only if the dividends can be paid in full out of the net profit. The loan agreement with the Danish state also stipulates an increase in the interest rate if annual dividend payments exceed DKK 5.5 billion (EUR 0.74 billion).

The Group aims to resume dividend payments of 40 per cent. of net profit as soon as it is prudent. Until capital targets and rating ambitions are met, the pay-out ratio may be lower. No dividend payment was made for 2012.

Risk Management

Introduction

The Issuer's Rules of Procedure for the Board of Directors and the Executive Board (the "**Rules of Procedure**") specify the responsibilities of the two boards and the division of responsibilities between them. The Rules of Procedure and the two-tier management structure, which were developed in accordance with Danish legislation, are central to the organisation of risk management and the policy on lending authority limits in the Group.

⁷ FX rate at 31 December 2011 = 7.4342 DKK per EUR.

⁸ FX rate at 31 December 2012 = 7.4604 DKK per EUR.

⁹ FX rate at 31 March 2012 = 7.4399 DKK per EUR.

¹⁰ FX rate at 21 September 2012 = 5.7439 DKK per USD.

The Board of Directors lays down overall policies, while the Executive Board is in charge of the Group's day-to-day management. The risk and capital management functions are separate from the credit assessment and credit-granting functions.

Responsibility for the day-to-day management of risks in the Group is divided between Group Finance & Legal, Group Risk Management and the business units. The Group has established a segregation of duties between units that enter into business transactions with customers or otherwise expose the Group to risk on the one hand, and units in charge of overall risk management on the other.

Group Risk Management

Group Risk Management is headed by the Group's chief risk officer (“**CRO**”), who is member of the Executive Board.

The department has overall responsibility for monitoring the Group's risk policies and for monitoring, following up and reporting on risk issues across risk types and organisational units. Group Risk Management also serves as a resource for referrals from local risk committees.

The department supports and challenges the rest of the risk management organisation in risk management practices and reporting. It serves as secretariat for the All Risk Committee. Senior staff from the department also chair the Risk Model and Parameter Committee, which monitors the Group's use of risk models, results of backtests and changes to parameters; the Operational Risk Committee, which evaluates the management of the Group's key operational risks; and the Product Risk Committee, which reviews risk related to possible new products. A specialised department in Group Risk Management is responsible for the day-to-day monitoring of operational risks.

In addition, the department has overall responsibility for setting the group-wide risk appetite and policies, for reviewing the approval and follow-up processes in the business units' lending books, and for monitoring and reporting on the Group's consolidated lending portfolio - including the determination of portfolio limits for specific industries and countries.

Group Risk Management is also responsible for facilitating the quarterly process of calculating and consolidating the impairment of credit exposures.

A unit within the department is responsible for developing credit rating and valuation models and for ensuring that they are available for day-to-day credit processing at the business units and that they meet statutory requirements. A separate unit is responsible for backtesting and validating credit risk parameters in collaboration with the business units.

Group Finance & Legal

Group Finance & Legal is headed by the Group's chief financial officer (“**CFO**”), who is member of the Executive Board. The department is responsible for the Group's financial reporting, budgeting and strategic business analysis, including the tools used by the business units for performance follow-up and analysis.

The department is also in charge of the Group's investor relations, capital structure, capital allocation, regulatory matters and relations with international rating agencies.

It is responsible for the day-to-day monitoring and control of market risk as well as the compilation of risk-weighted assets and the Group's internal capital adequacy assessment process (“**ICAAP**”).

Within Group Finance & Legal, Group Treasury is responsible for monitoring liquidity risk and funding needs. Group Treasury also ensures that the Group's structural liquidity profile enables the Group to

comply with the limits and meet the targets set by the Board of Directors and the All Risk Committee as well as regulatory and prudential requirements.

Furthermore, Group Treasury is responsible for asset liability management, private equity activities and long-term funding activities.

Business units

The business units' mandate to originate and accumulate risk exposure for the Group in their daily work is regulated by risk policies, instructions and limits. The Group strives to cultivate a corporate culture that supports and enforces the organisation's objective to undertake selected risks according to guidelines that have been agreed upon.

Responsibility for all business-related risks is with the heads of the business units and the heads of the operations and services areas. Their responsibilities extend across national borders, thus risk management is centralised by business segment. The segment-based organisation enables risk management processes to be tailored to the various customer segments and to be aligned across borders. Lending authorities for specific customer segments and products are granted to the individual business units. Credit decisions exceeding the delegated authorities are referred to the Executive Board and the Board of Directors as required.

The business units carry out all the fundamental tasks required for sound risk management and controls. These tasks include updating the information about customers that is used in risk management tools and models as well as maintaining and following up on customer relationships.

Each business unit is responsible for preparing documentation before undertaking business transactions and for recording the transactions properly. Each unit is also required to update information on customer relationships and other issues as necessary.

The business units must also ensure that all risk exposures comply with specific risk limits as well as the Group's other guidelines.

Certain risk areas, such as market risk and liquidity risk, are still managed centrally at the group level.

Increased attention from local regulators - especially where activities are organised in local legal entities - led the Group to strengthen governance structures for risk management from a local perspective. In the new organisation, country managers and local risk officers are responsible for ensuring compliance with local rules and regulations. Local risk committees as well as asset and liability management committees have also been set up where they are relevant.

Legal Proceedings

Owing to its business volume, the Group is continually a party to various lawsuits. In view of its size, the Group does not expect the outcomes of the cases pending to have any material effect on its financial position.

Bank Packages

Chapter 4a of the Danish Act No. 1003 of 10 October 2008 on Financial Stability ("**Bank Package I**"), as amended by Consolidated Act No. 875 of 15 September 2009, Act No. 516 of 12 June 2009, Act No. 1273 of 16 December 2009, Act No. 721 of 25 June 2010, Act No. 1556 of 21 December 2010 and Act No. 619 of 14 June 2011, and as further amended from time to time (the "**Act on Financial Stability**"), established a transition scheme whereby a Danish bank could apply individually for a state guarantee of its unsubordinated and unsecured debt and of its supplemental security (junior covered bonds) in respect of its

covered bonds, in each case issued no later than 31 December 2010 with a maturity of up to three years (the “**Transition Scheme**” or “**Bank Package II**”). Applications for a state guarantee under the Transition Scheme had to be submitted no later than 31 December 2010. The Danish Minister of Economic and Business Affairs is authorised to extend the 31 December 2010 time limit referred to above.

The Issuer was eligible to apply for a state guarantee in respect of its unsubordinated and unsecured debt, including unsubordinated notes, and its Senior Debt (junior covered bonds), in each case issued no later than 31 December 2010 with a maturity up to three years, provided that the Issuer satisfied the solvency requirements in the Danish Financial Business Act. All state-guaranteed debt issued by the Issuer was repaid in July 2012.

With effect from 1 October 2010 the Act on Financial Stability was amended inter alia to allow for a controlled winding-up of a distressed bank through the Financial Stability Company which is known as “**Bank Package III**”. The new resolution scheme is voluntary and contains no general state guarantee of creditors.

The intention of the new winding-up procedures is to wind up a distressed bank faster than under the traditional bankruptcy procedures. The new procedures do not alter the risk for the creditors, which is that under both the new winding-up procedures and the traditional bankruptcy procedures, the creditors may lose all or part of their claims.

The Act on Financial Stability was further amended with effect from 23 June 2011 in order to allow for the Guarantee Fund for Depositors and Investors to contribute with a financial inducement to encourage a sound bank to take over all activities of a distressed bank, including all unsubordinated and unsecured claims. On 25 August 2011 a number of consolidation initiatives was agreed upon by the vast majority of the political parties in the Danish Parliament (“**Bank Package IV**”). Bank Package IV provides for a strengthening of the compensation scheme in order to create greater incentives for sound banks to wholly or partly take over a bank in distress. In particular, Bank Package IV provides for the Danish state to contribute in the compensation scheme with an amount up to the equivalent of the haircut that would have been imposed on any state guaranteed bonds that were issued by the bank in distress. Contrary to Bank Package III, the unsubordinated and unsecured senior creditors will not suffer any loss if Bank Package IV is applied.

New Capital and Liquidity Regulations

New regulations for the financial sector are being proposed in the EU and beyond. The Group follows this process closely and supports measures that strengthen the resilience of the sector and its ability to support economic growth. The Group is of the opinion that the Basel III guidelines generally meet this criterion.

European implementation of the Basel III Framework

On 20 July 2011, the European Commission adopted its proposal for a review of the CRD (“**CRD IV**”), including implementation of Basel III in the EU. CRD IV is not yet available in its final form. Protracted political negotiations have led to a deviation from the original plan of implementing the rules in early 2013. After formal adoption of CRD IV, the European Banking Authority (“**EBA**”) will propose detailed rules for many areas including, inter alia, liquidity requirements and certain aspects of capital requirements. The following assessment of their effects is therefore a preliminary analysis based on the Issuer’s interpretation of drafts and political discussions on CRD IV.

Under the CRD IV and Basel III framework, the minimum capital requirement for common equity tier 1 (“**CET1**”) (which does not include hybrid capital) will be phased in gradually from the current 2 per cent. of risk-weighted assets to up to 9.5 per cent. in 2019. The 9.5 per cent. requirement will include a “capital conservation buffer requirement” of 2.5 per cent. and a “countercyclical buffer requirement” of 0-2.5 per cent. in addition to the minimum requirement of 4.5 per cent. The countercyclical buffer requirement will apply in periods of excess lending growth in the economy and can vary for each jurisdiction. If a bank

does not maintain these buffers (in excess of the 4.5 per cent. CET1 minimum requirement), restrictions will be placed on its ability to pay dividends and make other payments.

For each systemically important financial institution (“**SIFI**”) there will be additional capital requirements on top of the minimum requirements. In Denmark a SIFI expert committee has been established by the minister for business and growth. In its report, the committee recommended that the Issuer should be considered a Danish SIFI and that, among other things, an additional CET1 capital requirement of 3.5 per cent. on top of CRD IV should be applied.

The CRD IV framework also contains stricter requirements for the quality of capital that may count as CET1 capital and for the calculation of RWA. On the basis of the proposal, the Issuer made a preliminary assessment that its CET1 capital ratio as at 31 December 2012 would be reduced by around 2.0 percentage points when it is calculated on the basis of CRD IV with fully loaded capital deductions (fully phased-in rules by 2018).

The Group estimates that 1.4 percentage points of the reduction will derive from deductions from core tier 1 capital, mainly expected deductions for Danica Pension and for net assets in defined benefit pension plans. The deductions are expected to be phased in such a way that they will be set at 20 per cent. in 2014 and rise in equal annual steps to 100 per cent. in 2018.

According to the Group’s estimates, the remaining 0.6 of a percentage point of the reduction will come from a rise in RWA attributable to new capital requirements for derivative exposures in the form of the so-called Credit Valuation Adjustment risk charge and RWA increases for credit risk relating to exposures to financial customers as well as the Group’s investment in Danica Pension (see below). The estimated increase in RWA may fluctuate over time, however, because of changes in market conditions and market positions. CRD IV will have an immediate effect on the Group’s RWA when it takes effect. The effect on RWA from Danica Pension is expected to take place gradually, however, at the same pace at which the capital deduction for Danica Pension is phased in.

As regards liquidity, the Basel Committee proposed two liquidity ratios in December 2012:(i) the Liquidity Coverage Ratio (“**LCR**”) and the Net Stable Funding Ratio (“**NSFR**”). The LCR stipulates that banks must have a liquidity buffer that ensures a survival horizon of at least 30 calendar days in the case of a seriously stressed liquidity situation. The NSFR is intended to ensure a sound funding structure by promoting an increase in long-dated funding. The NSFR stipulates that at all times banks must have stable funding equal to the amount of their illiquid assets for one year ahead.

In January 2013, the Basel Committee issued revisions to its guideline for the LCR. The revisions include a phasing-in of the minimum requirement in which it will be set at 60 per cent. in 2015 and rise in equal annual steps to 100 per cent. on 1 January 2019. The revisions also include an expansion of the pool of level 2 liquid assets that can be counted in the liquidity buffer and a reduction of the weights assigned to certain liquidity outflows.

In Europe, the focus is on the LCR, but the definition of the LCR is still awaiting additional technical guidance from the EBA. Nevertheless, it is of great significance in the measurement of the Group’s liquidity buffer with the LCR that the CRD IV proposal enables most of the Group’s holdings of covered bonds, including Danish mortgage bonds, to be classified as level 1 liquid assets, on par with Danish government bonds, for example.

It is unclear how the EU authorities will choose to incorporate or modify the Basel Committee’s revisions to the LCR in CRD IV. The Basel Committee’s revisions are therefore not incorporated in the Group’s reported LCR. If the Basel Committee’s revisions are to be incorporated in CRD IV, and if CRD IV still enables most of the Group’s holdings of covered bonds, including Danish mortgage bonds, to be classified as level 1 liquid assets, these revisions are expected to have a positive effect on the Group’s LCR.

At the end of 2012, the Group's LCR was 121 per cent. The Group met the requirement by lengthening its funding profile, changing the composition of its liquidity buffer, and counting holdings of covered bonds and Danish mortgage bonds, including own issued bonds. The Group will include these holdings in the ratio until the EBA's final guidelines are announced before expected implementation of the requirement in the EU in 2015.

Once CRD IV is finalised, the Group will assess whether the new rules change the implications for the Group's capital and liquidity relative to the preliminary assessment.

Solvency II (insurance)

Once the new international insurance solvency rules, Solvency II, take effect, expected in 2014, the requirements for capital strength in the insurance area will be the focus of attention. The rules are intended to protect customers' funds and will generally increase the capital requirements. Danica is well-prepared for the new rules. Danica is closely monitoring the work on the coming EU solvency rules, Solvency II which, among other things, are set to change the existing volume-based capital requirement to a capital requirement that more accurately reflects the risks involved in the operation.

Solvency II was previously set to take effect at 1 January 2014. However, in the autumn of 2012 the European Insurance and Occupational Pensions Authority ("EIOPA") announced that this is no longer realistic. Instead, EIOPA expects the new rules to take effect at 1 January 2016. The postponement is due to the many remaining unresolved issues that are holding up the legislative process. A central unresolved issue is the treatment of long-term guarantees. Despite the lingering uncertainty as to the effective date of Solvency II, in 2012 Danica continued preparing for the transition to Solvency II. It is not yet possible to predict what Danica's capital requirements will be under Solvency II as the amounts of long-term guarantees, among other factors, are of great significance to the coming capital requirements. However, Danica does not expect the company's excess core capital to change significantly under the new rules once implemented.

Recent Developments

Danske Bank has received orders from the Danish FSA

The Danish Financial Supervisory Authority (the "FSA") has on 17 June 2013 issued orders to Danske Bank concerning its use of the internal ratings-based approach in capital adequacy calculations (the IRB approach) and solvency need calculations.

Apart from the order in relation to exposures on other institutions, Danske Bank does not agree with the orders and has appealed the decision to the Company Appeals Board.

The FSA's orders

The FSA has given Danske Bank four orders that can be summed up as follows:

- With effect from 31 December 2013, an order to change some specific elements of the IRB model and thus increase the risk weights for corporate exposures (two orders). In this connection, Danske Bank can reduce Pillar II add-ons.
- With effect from 30 June 2014, ensure that Through The Cycle Probability of Default (TTC PD) values for exposures with counterparty risk reflect the increase for the remaining corporate portfolio. In the meantime, Danske Bank must include an add-on in the solvency requirement.
- With effect from 30 June 2013, an order to set aside additional capital in its solvency need calculations to cover risks deriving from exposures to other institutions.
- With effect from 30 June 2013, an order to remove a deduction from the solvency need.

For further information about the orders, please see the FSA's decision.

Consequences of the orders

Danske Bank has begun implementing the new requirements.

Over time, the net effect of the orders would be a rise in risk-weighted assets of around DKK 100 billion relative to the figure for Q2 2013 DKK 779 billion (EUR 104 billion)¹¹.

Another consequence of the orders would be an increase in Danske Bank's capital requirement (Pillar I requirement) of DKK 8 billion (EUR 1.1 billion), from DKK 62 billion (EUR 8.3 billion) to DKK 70 billion (EUR 9.4 billion) calculated at 30 June 2013. There will be a corresponding reduction in Pillar II add-ons.

Calculated at 30 June 2013, the total capital ratio would be around 19.2 per cent. (the actual reported figure at 30 June 2013 was 21.8 per cent.), and the solvency need ratio under the Basel I transitional rules would be 10.0 per cent. (the actual reported figure at 30 June 2013 was 11.3 per cent.).

The DFSA's decision is available at www.danskebank.com/ir.

Management changes – New Chief Executive Officer

On 16 September 2013, the Board of Directors appointed Thomas F. Borgen as new Chief Executive Officer. Thomas F. Borgen replaced Eivind Kolding who resigned with effect as of 16 September 2013. Thomas F. Borgen has been employed with the Danske Bank Group since 1997 and comes from the position as Member of Danske Bank's Executive Board responsible for Corporate & Institutional Banking. These areas will for the time being continue to be a part of Thomas F. Borgen's field of responsibility.

After application of the relevant laws and conflict of interest policies of the Issuer, no potential conflicts of interest exist between the duties to the Issuer of the persons on the Board of Directors and the Executive Board and their private interests and/or other duties listed above.

Corporate Authorities

The establishment of the Programme was authorised by a resolution of the Board of Directors of the Issuer passed on 24 January 2008. The Issuer has obtained or will obtain from time to time all necessary consents, approvals and authorisations in connection with the issue and performance of the Notes.

Significant Change and Material Adverse Change

- (i) There has been no significant change in the financial or trading position of the Issuer or of the Issuer and its subsidiaries taken as a whole since 30 June 2013, the last day of the financial period in respect of which the most recent financial statements of the Issuer have been prepared; and
- (ii) save as disclosed on page 7 of the Interim Report – First Half 2013, there has been no material adverse change in the prospects of the Issuer since 31 December 2012, the last day of the financial period in respect of which the most recently audited financial statements of the Issuer have been prepared.

Legal Proceedings

There are no governmental, legal or arbitration proceedings against or affecting the Issuer or any of its subsidiaries (and no such proceedings are pending or threatened of which the Issuer is aware) during a period covering at least the previous 12 months which have or may have in the recent past, individually or in the aggregate, significant effects on the profitability or the financial position of the Issuer or of the Issuer and its subsidiaries taken as a whole.

Auditors

The financial statements of the Issuer have been audited:

- (i) in the case of the financial year ended 31 December 2012, by KPMG Statsautoriseret Revisionspartnerselskab (“**KPMG**”) of Osvald Helmuths Vej 4, Postboks 250, DK-2000 Frederiksberg; and
- (ii) in the case of the financial year ended 31 December 2011, by PricewaterhouseCoopers Danmark Statsautoriseret Revisionsaktieselskab (“**PwC**”) (formerly operating as Grant Thornton Danmark) of Strandvejen 44, DK-2900 Hellerup and KPMG,

in each case being the relevant independent public auditors of the Issuer for the relevant period. Unqualified opinions have been reported on such financial statements and each of KPMG and PwC is a member of “FSR - Danske Revisorer” (Association of State Authorised Public Accountants). The Issuer’s Articles of Association and the Danish Financial Business Act provide that the Issuer’s Annual Report shall be audited by one or more state-authorised public accountants who shall be elected for one year at a time. The Annual General Meeting on 18 March 2013 approved that KPMG will be the sole state-authorised public accountants for the Issuer for 2013.

Use of Proceeds

The net proceeds of the issue of each Tranche of Notes will be applied by the Issuer to meet part of its general financing requirements. SECTION E.3 - OVERVIEW OF FORM OF THE NOTES

Words and expressions defined in “Terms and Conditions of the Notes” herein shall have the same meanings in this “Overview of Form of the Notes”.

The Notes of each Series will be in bearer form or, in the case of VP Systems Notes, uncertificated and dematerialised book entry form.

Form of Bearer Notes

Each Tranche of Bearer Notes will initially be in the form of either a temporary global note (the “**Temporary Global Note**”), without interest Coupons, or a permanent global note (the “**Permanent Global Note**”), without interest Coupons, in each case as specified in the relevant Issue Terms. Each Temporary Global Note or, as the case may be, Permanent Global Note (each a “**Global Note**”) which is intended to be issued in CGN form, as specified in the relevant Issue Terms, will be deposited on or around the issue date of the relevant Tranche of the Notes with a depositary or a common depositary for Euroclear and Clearstream, Luxembourg and each Global Note which is intended to be issued in NGN form as specified in the relevant Issue Terms, will be deposited on or around the relevant issue date with a common safe-keeper for Euroclear and/or Clearstream, Luxembourg.

The relevant Issue Terms will also specify whether United States Treasury regulation §1.163-5(c)(2)(i)(C) (or any successor United States Treasury regulation section, including without limitation, successor regulations issued in accordance with Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA C Rules**”) or United States Treasury regulation §1.163-5(c)(2)(i)(D) (or any successor United States Treasury regulation section, including without limitation, successor regulations issued in accordance with Internal Revenue Service Notice 2012-20 or otherwise in connection with the United States Hiring Incentives to Restore Employment Act of 2010) (the “**TEFRA D Rules**”) are applicable in relation to the Notes or, if the Notes do not have a maturity of more than 365 days, that neither the TEFRA C Rules nor the TEFRA D Rules are applicable.

Temporary Global Note exchangeable for Permanent Global Note

If the relevant Issue Terms specifies the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note”, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for interests in a Permanent Global Note, without interest coupons, not earlier than forty days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership.

No payments will be made under the Temporary Global Note unless exchange for interests in the Permanent Global Note is improperly withheld or refused. In addition, interest payments in respect of the Notes cannot be collected without certification of non-U.S. beneficial ownership.

Whenever any interest in the Temporary Global Note is to be exchanged for an interest in a Permanent Global Note, the Issuer shall procure (in the case of first exchange) the prompt delivery (free of charge to the bearer) of such Permanent Global Note, duly authenticated and, in the case of a NGN, effectuated, to the bearer of the Temporary Global Note or (in the case of any subsequent exchange of a part of the Temporary Global Note) an increase in the principal amount of the Permanent Global Note in accordance with its terms against:

- (i) presentation and (in the case of final exchange) surrender of the Temporary Global Note to or to the order of the Fiscal Agent; and

- (ii) in either case, receipt by the Fiscal Agent of a certificate or certificates of non-U.S. beneficial ownership,

within seven days of the bearer requesting such exchange.

Temporary Global Note exchangeable for Definitive Notes

If the relevant Issue Terms specifies the form of Notes as being “Temporary Global Note exchangeable for Definitive Notes” and also specifies that the TEFRA D Rules are applicable, then the Notes will initially be in the form of a Temporary Global Note which will be exchangeable, in whole or in part, for Notes in definitive form (“**Definitive Notes**”) not earlier than forty days after the issue date of the relevant Tranche of the Notes upon certification as to non-U.S. beneficial ownership. Interest payments in respect of the Notes cannot be collected without such certification of non-U.S. beneficial ownership.

Whenever the Temporary Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons attached (if so specified in the relevant Issue Terms), in an aggregate principal amount equal to the principal amount of the Temporary Global Note to the bearer of the Temporary Global Note against the surrender of the Temporary Global Note to or to the order of the Fiscal Agent within thirty days of the bearer requesting such exchange.

Permanent Global Note exchangeable for Definitive Notes

If the relevant Issue Terms specifies the form of Notes as being “Permanent Global Note exchangeable for Definitive Notes”, then the Notes will initially be in the form of a Permanent Global Note. If the relevant Issue Terms specifies the form of Notes as being “Temporary Global Note exchangeable for a Permanent Global Note which is exchangeable for Definitive Notes”, then the Notes will be initially in the form of a Temporary Global Note which will be exchangeable for a Permanent Global Note as set out above. In each case, the Permanent Global Note will be exchangeable, in whole but not in part only and at the request of the bearer of the Permanent Global Note, for Definitive Notes:

- (i) on the expiry of such period of notice as may be specified in the relevant Issue Terms; or
- (ii) at any time, if so specified in the relevant Issue Terms, save that this paragraph (ii) shall not apply if the relevant Issue Terms specify denominations consisting of a minimum Specified Denomination plus one or more integral multiples of another smaller amount; or
- (iii) if the relevant Issue Terms specifies “in the limited circumstances described in the Permanent Global Note”, then if:
 - (a) Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of fourteen days (other than by reason of legal holidays) or announces an intention permanently to cease business or in fact does so; or
 - (b) any of the circumstances described in General Condition 9 (*Events of Default*) occurs.

The Permanent Global Note will become exchangeable, in whole but not in part only and at the request of the Issuer, for Definitive Notes if, by reason of any change in the laws of Denmark, the Issuer will be required to make any withholding or deduction from any payment in respect of the Notes which would not be required if the Notes are in definitive form.

Interest-bearing Definitive Notes will have attached thereto at the time of their initial delivery Coupons. Interest-bearing Definitive Notes, if so specified in the relevant Issue Terms, will have attached

thereto at the time of their initial delivery, Talons for further coupons and the expression Coupons shall, where the context so requires, include Talons.

Whenever the Permanent Global Note is to be exchanged for Definitive Notes, the Issuer shall procure the prompt delivery (free of charge to the bearer) of such Definitive Notes, duly authenticated and with Coupons and Talons (if so specified in the relevant Issue Terms) attached, in an aggregate principal amount equal to the principal amount of the Permanent Global Note to the bearer of the Permanent Global Note against the surrender of the Permanent Global Note to or to the order of the Fiscal Agent within thirty days of the bearer requesting such exchange.

The Permanent Global Note also provides, *inter alia*, that:

- (i) if Definitive Notes have not been delivered in accordance with the terms of the Permanent Global Note by 6.00 p.m. (London time) on the thirtieth day after the day on which such Permanent Global Note becomes due to be exchanged; or
- (ii) if the Permanent Global Note (or any part thereof) becomes due and payable in accordance with the Terms and Conditions or the date for final redemption of the Permanent Global Note has occurred, and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made on the due date for payment by 6.00 p.m. (London time) on such due date,

then such Permanent Global Note will become void in accordance with its terms but without prejudice to the rights conferred by the Deed of Covenant.

Legend concerning United States persons

In the case of any Tranche of Bearer Notes having a maturity of more than 365 days, the Global Notes, the Definitive Notes and any Coupons and Talons appertaining thereto will bear a legend to the following effect:

“Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code.”

The sections referred to in such legend provide that a United States person who holds a Bearer Note, Coupon or Talon will generally not be allowed to deduct any loss realised on the sale, exchange or redemption of such Note, Coupon or Talon and any gain (which might otherwise be characterised as capital gain) recognised on such sale, exchange or redemption will be treated as ordinary income.

Form of VP Systems Notes

Each Tranche of VP Systems Notes will be issued in uncertificated and dematerialised book entry form. Legal title to the VP Systems Notes will be evidenced by book entries in the records of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be. Issues of VP Systems Notes are the subject of the VP Systems Agency Agreement. On the issue of such VP Systems Notes, the Issuer will send a copy of the relevant Issue Terms to the Fiscal Agent, with a copy sent to the relevant VP Systems Agent. On delivery of the relevant Issue Terms by the relevant VP Systems Agent to the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, and notification to the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, of the subscribers and their VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, account details by the relevant Dealer, the VP Systems Agent, acting on behalf of the Issuer, will give instructions to the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, to credit each subscribing account holder with the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, with a principal amount of the relevant VP Systems Notes equal to the principal amount thereof for which it has subscribed and paid.

No physical global or definitive Notes or any bearer security will be issued in respect of VP Systems Notes registered with Euroclear Sweden. Issuance and redemption of VP Systems Notes registered with Euroclear Sweden is subject to and will take place in accordance with the rules and procedures of Euroclear Sweden. Payments of principal, interest (if any) or any other amounts on any such VP Systems Notes will be made through Euroclear Sweden's system in accordance with the rules and operating procedures of Euroclear Sweden.

Settlement of sale and purchase transactions in respect of VP Systems Notes in the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, will take place in accordance with market practice at the time of the transaction. Transfers of interests in the relevant VP Systems Notes will take place in accordance with the rules and procedures for the time being of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be.

The Terms and Conditions applicable to any VP Systems Notes will consist of the Conditions set out under “*Terms and Conditions of the Notes*” below and the provisions of the relevant Issue Terms which complete and/or (in the case of Exempt Notes only) amend and/or replace those Conditions.

Clearing Systems

Any reference herein to Euroclear and/or Clearstream, Luxembourg and/or the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer, the Fiscal Agent, the other Paying Agents and the relevant Noteholders.

SECTION E.4 - SUBSCRIPTION AND SALE

In respect of each Tranche of Notes issued under the Programme, a Dealer may, by entering into a purchase agreement (unless the Dealer is Danske Bank A/S or any affiliate), agree with the Issuer the basis upon which it agrees to purchase Notes. Any such agreement will extend to those matters stated under “*Overview of Form of the Notes*” above and “*Terms and Conditions of the Notes*” below.

United States of America: *Regulation S Category 2; TEFRA D, TEFRA C or “TEFRA Not Applicable” as specified in the relevant Issue Terms.*

Notes have not been and will not be registered under the Securities Act and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in the preceding sentence have the meanings given to them by Regulation S under the Securities Act.

Notes in bearer form are subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to U.S. persons, except in certain transactions permitted by U.S. Treasury regulations. Terms used in this paragraph have the meanings given to them by the U. S. Internal Revenue Code of 1986 and Treasury regulations promulgated thereunder. The relevant Issue Terms will identify whether TEFRA C rules or TEFRA D rules apply or whether TEFRA is not applicable.

Each Dealer will be required to agree (or, if the Dealer is Danske Bank A/S or any affiliate thereof, will be deemed to have agreed), that it will not offer, sell or deliver Notes, (i) as part of their distribution at any time or (ii) otherwise until 40 days after the completion of the distribution of the Notes comprising the relevant Tranche, as certified to the Fiscal Agent or the Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the Issuer shall notify each such Dealer when all such Dealers have so certified) (the “**distribution compliance period**”) within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each distributor, dealer or person to which it sells Notes during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Notes within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the respective meanings given to them by Regulation S under the Securities Act.

In addition, until forty days after the commencement of the offering of Notes comprising any Tranche, any offer or sale of Notes within the United States by any dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act if such offer or sale is made otherwise than in accordance with an available exemption under the Securities Act (if available).

The Notes do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the United States Commodity Exchange Act, as amended, and trading in the Notes has not been approved by the United States Commodity Futures Trading Commission under the United States Commodity Exchange Act, as amended.

European Economic Area

In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a “**Relevant Member State**”), each Dealer will be required to represent and agree (or, if the Dealer is Danske Bank A/S or any affiliate thereof, will be deemed to have represented and agreed) that with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the “**Relevant Implementation Date**”) it has not made and will not make an offer of Notes which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Relevant Member State except that it may, with effect

from and including the Relevant Implementation Date, make an offer of such Notes to the public in that Relevant Member State:

- (i) if the Final Terms in relation to the Notes specify that an offer of those Notes may be made other than pursuant to Article 3(2) of the Prospectus Directive in that Relevant Member State (a “**Non-exempt Offer**”), following the date of publication of a prospectus in relation to such Notes which has been approved by the competent authority in that Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Non-exempt Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Non-exempt Offer;
- (ii) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (iii) at any time to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Dealer(s) nominated by the Issuer for any such offer; or
- (iv) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Notes referred to in (ii) to (iv) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, the expression an “**offer of Notes to the public**” in relation to any Notes in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Notes to be offered so as to enable an investor to decide to purchase or subscribe the Notes, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression “**Prospectus Directive**” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State) and includes any relevant implementing measure in the Relevant Member State and the expression “**2010 PD Amending Directive**” means Directive 2010/73/EU.

United Kingdom

Each Dealer will be required to represent and agree (or, if the Dealer is Danske Bank A/S or any affiliate thereof, will be deemed to have represented and agreed) that:

General

With the exception of the application to the Central Bank for the approval of this document as a Base Prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Ireland, no action has been or will be taken in any country or jurisdiction by the Issuer or any Dealer that would permit a public offering of Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required. Persons into whose hands this Base Prospectus or any Final Term comes are required by the Issuer and any Dealer to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material, in all cases at their own expense.

Selling restrictions may be supplemented or modified with the agreement of the Issuer. Any such supplement or modification will be set out in the relevant Pricing Supplement (in the case of a supplement or modification relevant only to Exempt Notes) or (in any other case) in a supplement to this document.

SECTION E.5 - TAXATION

The following is a general description of relevant tax considerations and is not to be regarded as a complete tax analysis of all tax issues related to the Notes. This general description is based upon the law in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date.

Investors in Notes may be required to pay taxes and other charges in accordance with applicable laws. The tax treatment applicable to an investor will depend on its individual circumstances and prospective investors in Notes should consult their professional tax advisers if they are in doubt about their own tax position. In addition to the information below, investors should consider carefully the relevant Issue Terms to determine whether General Condition 8.1 (*Gross-up*) or General Condition 8.3 (*No gross-up*) is specified as applicable. The Issuer does not accept responsibility for the withholding of taxes at source.

Danish Taxation

The following summary applies to investors who are fully liable to tax in the Kingdom of Denmark. Investors who are fully liable to tax in the Kingdom of Denmark are individuals residing in the Kingdom of Denmark or individuals staying in the Kingdom of Denmark for a period of at least six months, as well as companies, foundations, etc., that are registered in the Kingdom of Denmark or whose effective place of management is in the Kingdom of Denmark.

The tax treatment applicable to an investor depends on the individual circumstances of such investor and such individual circumstances, as well as Danish tax law, may be subject to change in the future.

A Note qualifies as a financial contract under Danish tax law and gains and losses are taxed on an annual basis according to the “mark-to-market principle”, i.e. realised as well as unrealised gains and losses have to be recognised for tax purposes.

Individuals are liable to tax on capital gains, and losses can be offset or deducted pursuant to special rules. Taxable capital gains and deductible losses are included in the capital income. Losses can be offset against any capital gains of financial contracts etc. of the same income year. Further losses can be deducted directly from the capital income if such losses do not exceed the taxed net gains on financial contracts etc. in previous income years from and including the income year 2002. Any further losses can be offset against realised net gains on shares or distributing equity funds traded on a regulated market. This set-off is conditional on the Notes being linked solely to shares, share baskets or share indices, and that either the Notes, the underlying shares, the distributing equity funds or the shares comprised by the equity index are traded on a regulated market. Any losses in excess can be carried forward in the following income years and be offset against net capital gains of financial contracts or net gains from shares traded on a regulated market.

Self-employed persons can invest funds encompassed by the special business income scheme in the Notes.

Investors liable to tax on pensions returns, e.g. life insurance companies may invest in the Notes. Private funds placed in individual pension schemes with banks can be used for investments in the Notes if the Notes are traded on a regulated market. For individual pension saving accounts the Notes are encompassed by the 20 per cent ceiling on investment of pension funds, c.f. “The Executive Order on Pension Pools and Other Tax-Privileged Savings” etc. (“**Puljebekendtgørelsen**”).

Companies, foundations, etc., that are registered in the Kingdom of Denmark or whose management is based in the Kingdom of Denmark are liable to tax on capital gains, and losses are deductible in the taxable income.

For holders of Notes who are not fully liable to tax in the Kingdom of Denmark or who are subject to a Danish joint taxation scheme and do not carry on business in the Kingdom of Denmark through a permanent establishment, (i) payments of interest or principal amounts to any such holder of a Note are not subject to taxation in the Kingdom of Denmark, (ii) no withholding tax will be required on such payments, (iii) any gain realised upon the sale, exchange or retirement of a Note will not be subject to taxation in the Kingdom of Denmark and (iv) the applicable tax treatment is determined by the rules of the country of their residence.

Finnish Taxation

The following summary applies to investors who are fully liable to tax (tax residents) in Finland. Investors who are fully liable to tax in Finland are individuals having their home or main abode in Finland or individuals staying in Finland for a continuous period of more than six months, as well as companies, that are registered in Finland or otherwise established under Finnish law. A Finnish citizen is, however, normally deemed to be fully liable to tax in Finland until three years have elapsed from the end of the year during which the citizen left the country.

The tax treatment applicable to a holder of Notes depends on the individual circumstances of such investor and such individual circumstances. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Base Prospectus and is subject to any change in law that may take effect after such date, including changes with retroactive effect.

Taxation of individuals

Under present Finnish domestic tax law, holders of Notes, who are individuals or an estate of a deceased person and resident in Finland for tax purposes, will be subject to Finnish capital income tax on interest payments under the Notes in accordance with Income Tax Act (1535/1992, as amended). Also any gains realised on the sale or redemption of the Notes as well as accrued interest received (secondary market compensation) when the Notes are disposed of during the loan period shall be subject to Finnish capital income tax. The current tax rate applicable to annual taxable capital income up to EUR 50,000 is 30 per cent., while it is 32 per cent. for the portion of taxable capital income exceeding EUR 50,000. Capital losses realised on the sale or redemption of the Notes are deductible only from capital gains realized during the same tax year or during the five subsequent tax years. Special tax provisions may apply to small capital gains and losses.

If Notes are acquired in the secondary market, any secondary market compensation paid is deductible from the capital income or, to the extent exceeding capital income, from earned income subject to limitations of the Income Tax Act.

If an investment in the Notes has been made under an agreement on long term savings in accordance with the Act on Long Term Savings (1183/2009), special taxation rules apply.

Tax withholding

A Finnish credit institution, broker or a Finnish branch of a foreign credit institution shall deduct a preliminary withholding tax (Fi: “**ennakonpidätys**”) from interest payments under the Notes and from secondary market compensation paid to resident individuals or estates of a deceased person. The rate of preliminary withholding tax for capital income in 2013 is 30 per cent.

Taxation of legal entities

For holders of Notes, who are resident limited companies or other resident entities subject to corporate income tax, interest payments and capital gains under the Notes are regarded as taxable income. The current tax rate for limited companies and other entities subject to corporate tax is 24.5 per cent.

Transfer Taxation

A transfer of the Notes is not subject to Finnish transfer taxation.

Tax Compliance Requirements

Under Finnish domestic tax law, a Finnish credit institution, a Finnish branch of a foreign credit institution or a Finnish broker is obliged to report any interest payments under the Notes and any secondary market compensations paid and received to the Finnish tax administration. Capital gains and losses derived from the Notes by individuals and estates of deceased persons shall also be reported to the Finnish tax administration under certain conditions.

Resident individuals and estates of deceased persons are required to review the tax information related to the Notes contained in their pre-completed annual tax return and, if necessary, correct or complete the information in the tax return.

Irish Taxation

The following is a summary of the principal Irish withholding tax consequences of ownership of the Notes for individuals who are resident and ordinarily resident in Ireland for tax purposes and for companies that are resident in Ireland for tax purposes. It is based on the laws and practice of the Revenue Commissioners currently in force in Ireland as at the date of this Base Prospectus and may be subject to change. The statements in this summary are based on the understanding that the Notes will be treated as debt for Irish tax purposes. It deals with Noteholders who beneficially own their Notes as an investment. Particular rules not discussed below may apply to certain classes of taxpayers holding Notes, including dealers in Notes and trusts. The summary does not constitute tax or legal advice and the comments below are of a general nature only and it does not discuss all aspects of Irish taxation that may be relevant to any particular holder of Notes.

Withholding Tax

Tax at the standard rate of income tax (currently 20 per cent.) is required to be withheld from payments of Irish source interest. The Issuer will not be obliged to withhold Irish income tax from payments of interest on the Notes so long as such payments do not constitute Irish source income. Interest paid on the Notes should not be treated as having an Irish source unless:

- (i) the Issuer is resident in Ireland for tax purposes; or
- (ii) the Issuer has a branch or permanent establishment in Ireland, the assets or income of which is used to fund the payments on the Notes; or
- (iii) the Issuer is not resident in Ireland for tax purposes but the register for the Notes is maintained in Ireland or (if the Notes are in bearer form) the Notes are physically held in Ireland.

It is anticipated that, (i) the Issuer is not and will not be resident in Ireland for tax purposes; (ii) the Issuer will not have a branch or permanent establishment in Ireland; (iii) that bearer Notes will not be physically located in Ireland; and (iv) the Issuer will not maintain a register of any registered Notes in Ireland.

Encashment Tax

In certain circumstances, Irish tax will be required to be withheld at the standard rate of income tax (currently 20 per cent.) from any interest paid on Notes issued by a company not resident in Ireland, where such interest is collected or realised by a bank or encashment agent in Ireland on behalf of any Noteholder who is Irish resident. Encashment tax does not apply where the Noteholder is not resident in Ireland and has made a declaration in the prescribed form to the encashment agent or bank.

Luxembourg Taxation

The following summary is of a general nature and is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. The information contained within this section is limited to Luxembourg withholding tax issues and prospective investors in the Notes should therefore consult their own professional advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

Withholding Tax

Non-resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the laws of 21 June 2005, as amended (the “**Laws**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to non-resident holders of Notes, nor on accrued but unpaid interest in respect of the Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of the Notes held by non-resident holders of Notes.

Under the Laws implementing the EC Council Directive 2003/48/EC of 3 June 2003 on taxation of savings income in the form of interest payments and ratifying the treaties entered into by Luxembourg and certain dependent and associated territories of EU Member States (the “**Territories**”), payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity, as defined by the Laws, which is a resident of, or established in, an EU Member State (other than Luxembourg) or one of the Territories will be subject to a withholding tax unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the competent fiscal authority of Luxembourg, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Laws would at present be subject to withholding tax of 35 per cent.

Resident holders of Notes

Under Luxembourg general tax laws currently in force and subject to the law of 23 December 2005, as amended (the “**Law**”) mentioned below, there is no withholding tax on payments of principal, premium or interest made to Luxembourg resident holders of Notes, nor on accrued but unpaid interest in respect of Notes, nor is any Luxembourg withholding tax payable upon redemption or repurchase of Notes held by Luxembourg resident holders of Notes.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the benefit of an individual beneficial owner who is a resident of Luxembourg will be subject to a withholding tax of 10 per cent. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the Notes coming within the scope of the Law would be subject to withholding tax of 10 per cent.

Swedish Taxation

The following summary applies to investors who are domiciled and fully liable to tax in Sweden, i.e. tax residents in Sweden. The summary only applies to notes which from a Swedish tax perspective are regarded as listed. The information below is general and does not cover all categories of tax payers or situations e.g. the information does not cover the taxation of investments made through an investment savings account (“**investeringsparkonto**”) or securities treated as current assets (“**lager**”) for tax purposes. Other tax consequences may apply for investors who are not domiciled in Sweden and considered non-tax residents in Sweden.

The tax treatment applicable to an investor depends on the individual circumstances of such investor and such individual circumstances, as well as Swedish tax law, may be subject to change in the future. Tax consequences that are not outlined below may arise and investors should seek advice from their tax advisors prior to any decision to invest.

Taxation of individuals

Disposals of Notes are generally taxed according to the capital gains rules. Capital gains/losses are calculated as the difference between the relevant sales price (less any sales costs) and the relevant acquisition cost. Acquisition costs are generally determined based on the “average method”, meaning that the average acquisition cost of Notes of the same kind should be calculated. Alternatively, acquisition costs in respect of listed Notes which are considered equity-linked rights (Sw. *delägarätter*) are calculated by applying a standardised acquisition cost calculated as 20 per cent of the sales price less sales cost.

Normally the reference item(s) to which a security is linked are decisive when determining the tax consequences of an investment in the Note. If such reference item(s) are shares or share indices or a basket of shares the relevant security will be taxed as equity-linked rights (“**delägarätter**”). If such reference item(s) are other types of indices or a mixture of indices where the indices which are not share indices at date of issue exceed 50 per cent. of the reference item(s), the relevant Note will be taxed as a Swedish receivable (“**Sw. fordringsrätt**”) if the settlement currency is SEK. However, if the settlement currency of the relevant security is not SEK, it will be taxed as a foreign receivable (Sw. “**utländsk fordringsrätt**”).

Individuals are liable to tax on capital gains as investment income at a tax rate of 30 per cent. Capital losses on listed share-linked rights can be fully set off against capital gains on shares, equity-linked rights and other types of securities taxed as shares. Any further loss is deductible at 70 per cent. against any other capital income.

Capital losses on listed receivables are fully deductible against other investment income.

If the total investment income of an investor becomes negative after possible set-offs pursuant to the above, such a deficit can reduce tax on other types of income according to special rules. The tax reduction amounts to 30 per cent. of a deficit up to SEK 100,000. Should the deficit exceed SEK 100,000 a reduction of 21 per cent. of the excess may be granted. Deficits may not be carried forward to a subsequent fiscal year for individuals.

Tax Withholding

Preliminary tax withholding at a rate of 30 per cent. is made on interest paid to individuals residing in Sweden and to Swedish estates of deceased persons in accordance with chapter 10 and 17 Skatteförfarandelagen 2011:1244.

Swedish withholding tax is due at redemption of a zero-coupon note. However, no withholding tax is due if a zero-coupon note is disposed of before the maturity date.

Taxation of legal entities

Companies and other legal entities are normally taxed on all income. Capital gains on equity-linked rights, receivables and other assets are included in the company income and taxed at a rate of 22 per cent.

Capital losses can be set-off against other company income. However, capital losses on equity-linked rights can only be set-off against capital gains derived from the disposal of shares and other types of securities taxed as shares in the same year. Capital losses on equity-linked rights which are not utilised can be carried forward indefinitely. Such losses may, subject to special rules, in some circumstances be utilized by other group companies against that group company's capital gains on shares and other types of securities taxed as shares.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income, Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries). A number of non-EU countries and territories including Switzerland have adopted similar measures (a withholding system in the case of Switzerland). In April 2013, the Luxembourg Government announced its intention to abolish the withholding system with effect from 1 January 2015 in favour of information exchange under the Directive.

The European Commission has proposed certain amendments to the Directive, which may, if implemented, amend or broaden the scope of the requirements described above.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (“**FATCA**”) impose a new reporting regime and potentially a 30 per cent. withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a “foreign financial institution”, or “**FFI**” (as defined by FATCA)) that does not become a “**Participating FFI**” by entering into an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide the Internal Revenue Service (“**IRS**”) with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States Account” of the Issuer (a “**Recalcitrant Holder**”). The Issuer will be classified as an FFI.

The new withholding regime will be phased in beginning 1 July 2014 for payments from sources within the United States and will apply to “**foreign passthru payments**” (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Notes characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the “**grandfathering date**”, which is the later of (a) 1 July 2014 and (b) the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified on or after the grandfathering date and (ii) any Notes characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Notes are issued before the grandfathering date, and additional Notes of the same series are issued on or after that date, the additional Notes may not be treated as grandfathered, which may have negative consequences for the existing Notes, including a negative impact on market price.

The United States and a number of other jurisdictions have announced their intention to negotiate intergovernmental agreements to facilitate the implementation of FATCA (each, an “IGA”). Pursuant to FATCA and the “Model 1” and “Model 2” IGAs released by the United States, an FFI in an IGA signatory country could be treated as a “**Reporting FI**” not subject to withholding under FATCA on any payments it receives. Further, an FFI in a Model 1 IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being “**FATCA Withholding**”) from payments it makes. The Model 2 IGA leaves open the possibility that a Reporting FI might in the future be required to withhold as a Participating FFI on foreign passthru payments and payments that it makes to Recalcitrant Holders. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Denmark have signed an agreement (the “**US-Denmark IGA**”) based largely on the Model 1 IGA.

The Issuer expects to be treated as a Reporting FI pursuant to the US-Denmark IGA and does not anticipate being obliged to deduct any FATCA Withholding on payments it makes. There can be no assurance, however, that the Issuer will be treated as a Reporting FI, or that it would in the future not be required to deduct FATCA Withholding from payments it makes. Accordingly, the Issuer and financial institutions through which payments on the Notes are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Notes is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

Whilst the Notes are in global form and held within the clearing systems, it is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Notes by the Issuer, any paying agent and the common depository or common safekeeper, as the case may be, given that each of the entities in the payment chain beginning with the Issuer and ending with the clearing systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Notes. The documentation expressly contemplates the possibility that the Notes may go into definitive form and therefore that they may be taken out of the clearing systems. If this were to happen, then a non-FATCA compliant holder could be subject to FATCA Withholding. However, definitive Notes will only be printed in remote circumstances.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Notes.

TO ENSURE COMPLIANCE WITH IRS CIRCULAR 230, EACH TAXPAYER IS HEREBY NOTIFIED THAT: (A) ANY TAX DISCUSSION HEREIN IS NOT INTENDED OR WRITTEN TO BE USED, AND CANNOT BE USED BY THE TAXPAYER FOR THE PURPOSE OF AVOIDING U.S. FEDERAL INCOME TAX PENALTIES THAT MAY BE IMPOSED ON THE TAXPAYER; (B) ANY SUCH TAX DISCUSSION WAS WRITTEN TO SUPPORT THE PROMOTION OR MARKETING OF THE TRANSACTIONS OR MATTERS ADDRESSED HEREIN; AND (C) THE TAXPAYER SHOULD SEEK ADVICE BASED ON THE TAXPAYER'S PARTICULAR CIRCUMSTANCES FROM AN INDEPENDENT TAX ADVISER.

1. **Introduction**

1.1. *Programme*

Danske Bank A/S (the “**Issuer**”) has established a Structured Note Programme (the “**Programme**”) for the issuance of up to EUR 5,000,000,000 in aggregate principal amount of notes (the “**Notes**”). References herein to the “Notes” shall be references to the Notes of this Series (as defined below) and shall mean, as the context requires:

- (i) in relation to any Bearer Notes represented by a global Note (a “**Global Note**”), units of each Specified Denomination in the Specified Currency;

References herein to “**Exempt Notes**” are to Notes for which no prospectus is required to be published under the Prospectus Directive.

1.2. *Issue Terms*

Notes are issued in series (each a “**Series**”) and each Series may comprise one or more tranches (each a “**Tranche**”) of Notes. Each Tranche is the subject of a Final Terms document (the “**Final Terms**”) or, in the case of Exempt Notes, a pricing supplement (the “**Pricing Supplement**”) which, in the case of the Final Terms, completes or, in the case of Exempt Notes, amends and/or replaces these terms and conditions (the “**General Conditions**”) and the applicable Schedule(s) (the General Conditions and the applicable Schedules together, the “**Conditions**”). The “**Terms and Conditions**” applicable to any particular Tranche of Notes are the Conditions as completed by the relevant Final Terms or, in the case of Exempt Notes, amended and/or replaced by the relevant Pricing Supplement. In the event of any inconsistency between the Conditions and the relevant Issue Terms, the relevant Issue Terms shall prevail.

For the purposes hereof, “**Issue Terms**” means either (i) where the Notes are not Exempt Notes, the relevant Final Terms or (ii) where the Notes are Exempt Notes, the relevant Pricing Supplement, and should be construed accordingly.

1.3. *Issue and Paying Agency Agreement and VP Systems Agency Agreement*

The Notes are the subject of either:

- (i) in the case of Notes other than VP Systems Notes, an issue and paying agency agreement dated 21 June 2013 (as supplemented, amended and/or replaced from time to time, the “**Agency Agreement**”) between, *inter alios*, the Issuer and Citibank, N.A., London Branch as fiscal agent (the “**Fiscal Agent**”, which expression includes any successor fiscal agent appointed from time to time in connection with the Notes); or

The relevant VP Systems Agent will act as agent of the Issuer in respect of all dealings with the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, in respect of the relevant VP Systems Notes; and
 - (B) the Agency Agreement to the extent specified therein.

1.4. *Interest-bearing definitive Bearer Notes*

Interest-bearing definitive Bearer Notes have interest coupons (“**Coupons**”) and, if indicated in the relevant Issue Terms, talons for further Coupons (“**Talons**”) attached on issue. Any reference herein to “**Coupons**” shall, unless the context otherwise requires, be deemed to include a reference to Talons. Global Notes and VP Systems Notes do not have Coupons or Talons attached on issue.

1.5. *Deed of Covenant*

The Notes (other than VP Systems Notes) have the benefit of a deed of covenant dated 21 June 2013 (as supplemented, amended and/or replaced from time to time, the “**Deed of Covenant**”).

1.6. *The Notes*

Bearer Notes which are represented by a Global Note will be transferable only in accordance with the rules and procedures for the time being of Euroclear and Clearstream, Luxembourg, as the case may be. References to Euroclear and/or Clearstream, Luxembourg shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system specified in the relevant Issue Terms or as may otherwise be approved by the Issuer and the Fiscal Agent.

The Holder of a VP Systems Note will be the person evidenced (including any nominee) as such by a book entry in the records of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be. The person so evidenced as a Holder of VP Systems Notes shall be treated as the Holder of such Notes for all purposes.

The Issuer shall be entitled to receive information regarding the identity of Holders maintained by the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, and from time to time shall be entitled to review the “debt ledgers” maintained by the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, which contain details of the Holders.

4. **Status of the Notes**

The Notes constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer and rank *pari passu* without any preference among themselves and at least *pari passu* with all other unsubordinated and unsecured obligations (including liabilities in respect of deposits) of the Issuer, present and future (save for certain mandatory exceptions provided by law).

5. **Interest**

The Notes may be interest bearing or non-interest bearing depending on the Interest Basis (if any) specified in the relevant Issue Terms. Interest shall accrue at the rate or shall be determined as set out in Payout Schedule 1 (*Interest*) and/or, in respect of Exempt Notes, in the relevant Pricing Supplement.

6. **Redemption and Purchase**

6.1. *Scheduled redemption*

Unless previously redeemed, or purchased and cancelled, the Notes will be redeemed at their Final Redemption Amount on the Maturity Date, subject as provided in Condition 7 (*Payments*). The Final Redemption Amount shall be determined as set out in Payout Schedule 2 (*Redemption*) and/or, in respect of Exempt Notes, in the relevant Pricing Supplement.

6.2. *Early redemption*

The Notes may be redeemed early in the circumstances (if any) specified in Payout Schedule 2 (*Redemption*) and/or, in respect of Exempt Notes, in the relevant Pricing Supplement, subject as provided in Condition 7 (*Payments*).

6.3. *Early redemption for tax reasons*

If, in relation to any Series of Notes, Condition 8.1 (*Gross-up*) is specified in the relevant Issue Terms as being applicable and:

- (i) as a result of any change in the laws, regulations or rulings of Denmark or of any political subdivision thereof or any authority or agency therein or thereof having power to tax or in the interpretation or administration of any such laws, regulations or rulings which becomes effective on or after the Issue Date of the first Tranche of such Notes, the Issuer would be required to pay additional amounts as provided in Condition 8.1 (*Gross-up*); and

(ii) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

the Issuer may, at its option and having given no less than the minimum period of notice nor more than the maximum period of notice (if any) specified in the relevant Issue Terms (ending, in the case of Floating Rate Notes, on a day upon which interest is payable) to the Holders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable), redeem all (but not some only) of the outstanding Notes comprising the relevant Series at the Early Redemption Amount, together with, if so specified in the relevant Issue Terms, accrued interest, provided, however, that no such notice of redemption may be given earlier than ninety days (or, in the case of Notes which are Floating Rate Notes, a number of days which is equal to the aggregate of the number of days falling within the then current interest period applicable to the Notes plus sixty days) prior to the earliest date on which the Issuer would be obliged to pay such additional amounts were a payment in respect of the Notes then due.

If Condition 8.3 (*No gross-up*) is specified in the relevant Issue Terms as being applicable, this Condition 6.3 shall not apply to the Notes.

6.4. *Redemption at the option of the Issuer*

If Call Option is specified in the relevant Issue Terms as being applicable, the Notes may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Issue Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call), together with accrued interest (if any) thereon upon the Issuer's giving not less than the minimum period of notice nor more than the maximum period of notice (if any) specified in the relevant Issue Terms to the Holders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable and shall oblige the Issuer to redeem the Notes or, as the case may be, the Notes specified in such notice on the relevant Optional Redemption Date (Call)).

If the Notes are Bearer Notes in definitive form, the notice to Holders referred to in this Condition 6.4 shall specify the serial numbers of the Notes so to be redeemed.

If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Issue Terms, then any such redemption must be of a principal amount not greater than the maximum or be less than the minimum so specified.

The Issuer may not exercise such option in respect of any Note which is the subject of the prior exercise by the Holder of its Put Option pursuant to Condition 6.6 (*Redemption at the option of Holder*).

6.5. *Partial redemption*

If the Notes are to be redeemed in part only on any date in accordance with Condition 6.4 (*Redemption at the option of the Issuer*):

- (ii) in the case of Global Notes, the Notes to be redeemed will be selected in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a reduction in principal amount, at their discretion); or

- (iii) in the case of VP Systems Notes, the Notes to be redeemed shall be selected in accordance with the standard procedures of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, from time to time.

6.6. *Redemption at the option of Holder*

If Put Option is specified in the relevant Issue Terms as being applicable, upon a Holder of any Note giving not less than the minimum period of notice nor more than the maximum period of notice (if any) specified in the relevant Issue Terms to the Issuer, the Issuer will redeem such Note on the Optional Redemption Date (Put) at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date.

If the Note is a Bearer Note in definitive form, in order to exercise the option contained in this Condition 6.6, the Holder of such Note must, within the notice period described above, deposit at the Specified Office of any Paying Agent such Note together with all unmatured Coupons relating thereto and a duly completed Put Option Notice in the form obtainable from any Paying Agent specifying the aggregate Outstanding Principal Amount in respect of which such option is exercised. The Paying Agent with which a Note is so deposited shall deliver a duly completed Put Option Receipt to the depositing Holder. No Note, once deposited with a duly completed Put Option Notice in accordance with this Condition 6.6, may be withdrawn; provided, however, that if, prior to the relevant Optional Redemption Date (Put), any such Note becomes immediately due and payable or, upon due presentation of any such Note on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the depositing Holder at such address as may have been given by such Holder in the relevant Put Option Notice and shall hold such Note at its Specified Office for collection by the depositing Holder against surrender of the relevant Put Option Receipt. For so long as any outstanding Note is held by a Paying Agent in accordance with this Condition 6.6, the depositor of such Note and not such Paying Agent shall be deemed to be the holder of such Note for all purposes.

If the Notes are represented by a Global Note, in order to exercise the option contained in this Condition 6.6, the Holder of such Global Note must, within the notice period set out above, give written notice of such exercise to the Fiscal Agent specifying the principal amount of Notes in respect of which such option is being exercised.

If the Note is a VP Systems Note, in order to exercise the option contained in this Condition 6.6, the Holder of such Note must, within the notice period set out above, give notice to the relevant VP Systems Agent of such exercise in accordance with the standard procedures of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, from time to time.

Any such notice will be irrevocable and may not be withdrawn.

The Holder of a Note may not exercise such Put Option in respect of any Note which is the subject of an exercise by the Issuer of its Call Option.

6.7. *Illegality*

In the event that the Calculation Agent determines that the performance of the Issuer's obligations under the Notes or that any arrangements made to hedge the Issuer's obligations under the Notes has or will become unlawful, illegal or otherwise prohibited in whole or in part as a result of compliance with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative or judicial authority or power, or in the interpretation thereof, the Issuer having given not less than ten nor more than thirty days' notice to Holders in accordance with Condition 15 (*Notices*) (which notice shall be irrevocable), may, on expiry of such notice redeem all, but not some only, of the Notes, each Note being redeemed at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.

6.8. *Purchase*

The Issuer or any of its Subsidiaries may at any time purchase Notes in the open market or otherwise and at any price, provided that, in the case of Bearer Notes, all unmatured Coupons are purchased therewith. Such Notes may be held, reissued, resold or, in the case of Bearer Notes, surrendered to any Paying Agent for cancellation.

6.9. *Cancellation*

All Notes which are redeemed will forthwith be cancelled (together with all unmatured Coupons attached thereto or surrendered therewith at the time of redemption). All Notes so cancelled and the Notes purchased and cancelled pursuant to Condition 6.8 (*Purchase*) above (together, in the case of Bearer Notes, with all unmatured Coupons cancelled therewith) shall be forwarded to the Fiscal Agent or, in the case of VP Systems Notes, shall be deleted from the records of the VP, VPS, Euroclear Finland or Euroclear, as the case may be, and, in either case, cannot be reissued or resold.

7.2. *Presentation of definitive Bearer Notes and Coupons*

Payments of principal and unpaid amounts (if any and if applicable) in respect of accrued interest (in the case of early redemption of the Notes other than on a date scheduled for payment of such interest) in respect of definitive Bearer Notes will (subject as provided below) be made in the manner provided in Condition 7.1 (*Method of payment*) above only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of definitive Bearer Notes, and payments of interest in respect of definitive Bearer Notes will (subject as provided below) be made as aforesaid only against presentation and surrender (or, in the case of part payment of any sum due, endorsement) of Coupons, in each case at the Specified Office of any Paying Agent outside the United States (which expression, as used herein, means the United States of America (including the States and the District of Columbia, its territories, its possessions and other areas subject to its jurisdiction)).

7.3. *Coupons for definitive Fixed Rate Notes (other than Long Maturity Notes)*

Fixed Rate Notes in definitive bearer form (other than Long Maturity Notes (as defined below)) should be presented for payment together with all unmatured Coupons appertaining thereto (which expression shall for this purpose include Coupons falling to be issued on exchange of matured Talons), failing which the amount of any missing unmatured Coupon (or, in the case of payment not being made in full, the same proportion of the amount of such missing unmatured Coupon as the sum so paid bears to the sum due) will be deducted from the sum due for payment. Each amount of

principal so deducted will be paid in the manner mentioned above against surrender of the relative missing Coupon at any time before the expiry of 10 years after the Relevant Date in respect of such principal (whether or not such Coupon would otherwise have become void under Condition 10 (*Prescription*)) or, if later, five years from the date on which such Coupon would otherwise have become due, but in no event thereafter.

Upon any Fixed Rate Note in definitive bearer form becoming due and repayable prior to its Maturity Date, all unmatured Talons (if any) appertaining thereto will become void and no further Coupons will be issued in respect thereof.

7.4. *Coupons for definitive Notes (other than Fixed Rate Notes which are not Long Maturity Notes)*

Upon the date on which any Note (other than a Fixed Rate Note which is not a Long Maturity Note) in definitive bearer form becomes due and repayable, unmatured Coupons and Talons (if any) relating thereto (whether or not attached) shall become void and no payment or, as the case may be, exchange for further Coupons shall be made in respect thereof. A “**Long Maturity Note**” is a Fixed Rate Note (other than a Fixed Rate Note which on issue had a Talon attached) whose principal amount on issue is less than the aggregate interest payable thereon provided that such Note shall cease to be a Long Maturity Note on the Interest Payment Date on which the aggregate amount of interest remaining to be paid after that date is less than the principal amount of such Note.

7.5. *Bearer Global Notes*

Payments of principal and interest (if any) in respect of Notes represented by any Global Note in bearer form will (subject as provided below) be made in the manner specified above in relation to definitive Bearer Notes and otherwise in the manner specified in the relevant Global Note against presentation or surrender, as the case may be, of such Global Note at the Specified Office of any Paying Agent outside the United States. A record of each payment made against presentation or surrender of any Global Note in bearer form, distinguishing between any payment of principal and any payment of interest, will be made on such Global Note by the Paying Agent to which it was presented and such record shall be *prima facie* evidence that the payment in question has been made.

7.6. *General provisions applicable to payments*

The Holder of a Global Note shall be the only person entitled to receive payments in respect of Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Note in respect of each amount so paid. Each of the persons shown in the records of Euroclear or Clearstream, Luxembourg as the beneficial holder of a particular principal amount of Notes represented by such Global Note must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for his share of each payment so made by the Issuer to, or to the order of, the Holder of such Global Note.

7.7. *Payments in New York City*

Notwithstanding the foregoing provisions of this Condition 7, if any amount of principal and/or interest in respect of Bearer Notes is payable in U.S. dollars, such U.S. dollar payments of principal and/or interest in respect of such Notes will be made at the Specified Office of a Paying Agent in the United States if:

- (i) the Issuer has appointed Paying Agents with Specified Offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment in U.S. dollars at such Specified Offices outside the United States of the full amount of principal and interest on the Bearer Notes in the manner provided above when due;

- (iii) such payment is then permitted under United States law without involving, in the opinion of the Issuer, adverse tax consequences to the Issuer.

7.8. *VP Systems Notes*

Payments of principal and interest in respect of VP Systems Notes shall be made to the Holders shown in the relevant records of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, in accordance with, and subject to the rules and regulations from time to time governing, the VP, VPS, Euroclear Finland or Euroclear Sweden.

7.9. *Payment Business Day*

If the date for payment of any amount in respect of any Note or Coupon is not a Payment Business Day, the Holder thereof shall not be entitled to payment until the next following Payment Business Day and shall not be entitled to further interest or other payment in respect of such delay.

7.10. *Payments subject to fiscal laws*

Payments will be subject in all cases to (i) any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 8 (*Taxation*) and (ii) any withholding or deduction required pursuant to an agreement described in Section 1471(b) of the Code or otherwise imposed pursuant to Sections 1471 through 1474 of the Code, any regulations or agreements thereunder, any official interpretations thereof, or (without prejudice to the provisions of Condition 8 (*Taxation*)) any law implementing an intergovernmental approach thereto.

8. **Taxation**

8.1. *Gross-up*

If Condition 8.1 is specified in the relevant Issue Terms as being applicable, all payments of principal and interest in respect of the Notes and the Coupons by or on behalf of the Issuer shall be made free and clear of, and without withholding or deduction for or on account of, any present or future taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of Denmark or any political subdivision therein or any authority or agency therein or thereof having power to tax, unless the withholding or deduction of such taxes, duties, assessments, or governmental charges is required by law. In that event, the Issuer shall pay such additional amounts as will result in receipt by the Holders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in relation to any payment in respect of any Note or Coupon:

- (i) to, or to a third party on behalf of, a Holder which is liable to such taxes, duties, assessments or governmental charges in respect of such Note or Coupon by reason of it having some connection with Denmark other than:
 - (a) the mere holding of the Note or Coupon; or
 - (b) the receipt of principal, interest or other amount in respect of such Note or Coupon; or

- (ii) presented for payment more than thirty days after the Relevant Date, except to the extent that the relevant Holder would have been entitled to such additional amounts on presenting the same for payment on or before the expiry of such period of thirty days; or
- (iii) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive; or
- (iv) presented for payment by or on behalf of a Holder who would have been able to avoid such withholding or deduction by presenting the relevant Note or Coupon to another Paying Agent in a Member State of the EU.

8.2. *Taxing jurisdiction*

If the Issuer becomes subject at any time to any taxing jurisdiction other than Denmark, references in these Conditions to Denmark shall be construed as references to Denmark and/or such other jurisdiction.

8.3. *No gross-up*

If Condition 8.3 is specified in the relevant Issue Terms as being applicable, the Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, presentation and surrender for payment, or enforcement of any Note and all payments made by the Issuer shall be made subject to any tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

9. **Events of Default**

9.1. *Events of Default*

The following events or circumstances, or, in respect of Exempt Notes, the following events or circumstances as modified by, and/or such other events as may be specified in, the relevant Pricing Supplement (each an “**Event of Default**”) shall be acceleration events in relation to the Notes of any Series, namely:

- (i) the Issuer fails to pay any amount of principal or interest in respect of the Notes of the relevant Series or any of them on the due date for payment thereof and such default continues for a period of five days on which banks are open for business in Copenhagen after written notice has been given by the Fiscal Agent or the Holder of any such Note to the Issuer; or
- (ii) the Issuer defaults in the performance or observance of any of its other obligations under or in respect of the Notes of the relevant Series and (except in any case where such default is incapable of remedy when no such continuation or notice, as is hereinafter mentioned, will be required) such default remains unremedied for thirty days after written notice requiring such default to be remedied has been received by the Issuer from the Fiscal Agent or the Holder of any such Note; or
- (iii) a distress, execution, seizure before judgment or other legal process is levied or enforced or sued out upon or against any part of the property, assets or revenues of the Issuer which is material in its effect upon the operation of the Issuer and is not discharged or stayed within sixty days of having been so levied, enforced or sued out; or
- (iv) (A) an application for the commencement of bankruptcy against the assets of the Issuer is filed and the application has been filed by or on behalf of the Issuer, or (B) a third party has

filed an application for the commencement of bankruptcy against the assets of the Issuer and (the earlier of) either (1) the DFSA advises the competent court to open up bankruptcy proceedings, or (2) the competent court opens bankruptcy proceedings against the assets of the Issuer, or (C) under Section 233 of the Danish Financial Business Act, the DFSA permits liquidators of the Issuer appointed pursuant to Sections 227 or 228 of the Danish Financial Business Act to file a petition for bankruptcy under and pursuant to Section 17 of the Bankruptcy Act in relation to the Issuer, or (D) under Sections 233 or 234 of the Danish Financial Business Act, the DFSA files a petition for bankruptcy under and pursuant to Section 17 of the Bankruptcy Act in relation to the Issuer; or

- (v) under Section 238 of the Danish Financial Business Act, the DFSA files a petition for the suspension of payments of the Issuer.

9.2. *Acceleration*

If any Event of Default shall occur in relation to any Series of Notes, any Holder of a Note of the relevant Series may, by written notice to the Issuer (effective upon receipt), at the specified office of the Fiscal Agent, declare that such Note and (if the Note is interest-bearing) together with all interest (if any) accrued thereon shall be forthwith due and payable, whereupon the same shall become immediately due and payable at its Early Redemption Amount, together with all interest (if any) accrued thereon without presentment, demand, protest or other notice of any kind, all of which the Issuer will expressly waive, anything contained in such Notes to the contrary notwithstanding, unless, prior thereto, all Events of Default in respect of the Notes of the relevant Series shall have been cured.

10. **Prescription**

Claims for principal shall become void unless the relevant Notes are presented for payment within ten years of the appropriate Relevant Date. Claims for interest shall become void unless the relevant Coupons are presented for payment within five years of the appropriate Relevant Date.

11. **Replacement of Notes and Coupons**

If any Note or Coupon is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the Specified Offices of the Fiscal Agent (and, if the Notes are then admitted to listing, trading and/or quotation by any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Paying Agent having its Specified Office in the place required by such listing authority, stock exchange and/or quotation system), subject to all applicable laws and listing authority, stock exchange and/or quotation system requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence, security, indemnity and otherwise as the Issuer may reasonably require. Mutilated or defaced Notes or Coupons must be surrendered before replacements will be issued.

12. **Agents, Discretions and Determinations**

12.1. *Obligations of Agents*

In acting under the Agency Agreement or the VP Systems Agency Agreement and in connection with the Notes and the Coupons, each of the Paying Agents, the Calculation Agent and each VP Systems Agent acts solely as agent of the Issuer and does not assume any obligations towards or relationship of agency or trust for or with any of the Holders or Couponholders, and each of them shall only be responsible for the performance of the duties and obligations expressly imposed upon it in the Agency Agreement, the VP Systems Agency Agreement or other agreement entered into with respect to its appointment or incidental thereto.

12.2. *Termination of Appointments*

The initial Paying Agents and the VP Systems Agents and their initial Specified Offices are listed in the Agency Agreement or the VP Systems Agency Agreement, as applicable. The Calculation Agent in respect of any Notes shall be specified in the relevant Issue Terms. The Issuer reserves the right at any time to vary or terminate the appointment of any Paying Agent (including the Fiscal Agent) or any VP Systems Agent or the Calculation Agent and to appoint an additional or successor fiscal agent, paying agent, calculation agent or agent in connection with the Notes; provided, however, that:

- (i) the Issuer shall at all times maintain a Fiscal Agent;
- (ii) the Issuer shall at all times maintain a Paying Agent (which may be the Fiscal Agent) in a jurisdiction within Europe, other than the jurisdiction in which the Issuer is incorporated;
- (iii) the Issuer shall at all times maintain a Paying Agent (which may be the Fiscal Agent) in a Member State of the European Union that will not be obliged to withhold or deduct tax pursuant to European Council Directive 2003/48/EC or any law implementing or complying with, or introduced in order to conform to, such Directive;
- (iv) if a Calculation Agent is specified in the relevant Issue Terms, the Issuer shall at all times maintain a Calculation Agent;
- (v) if and for so long as the Notes are admitted to listing on any listing authority, stock exchange and/or quotation system which requires the appointment of a Paying Agent in any particular place, the Issuer shall maintain a Paying Agent (which may be the Fiscal Agent) with a Specified Office in the place required by such listing authority, stock exchange and/or quotation system;
- (vi) in the case of VP Systems Notes, the Issuer shall at all times maintain a VP Systems Agent authorised to act as an account holding institution with the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be; and
- (vii) in the circumstances described in Condition 7.7 (*Payments in New York City*), a Paying Agent with a Specified Office in New York City.

12.3. *Change of Specified Offices*

The Paying Agents, the VP Systems Agents and the Calculation Agent reserve the right at any time to change their respective Specified Offices to some other Specified Office provided that (in the case of the Paying Agents only) such specified office shall be in the same city. Notice of any change in the identities or Specified Offices of any Paying Agent, the VP Systems Agents or the Calculation Agent shall promptly be given to the Holders in accordance with Condition 15 (*Notices*).

12.4. *Discretions and Determinations*

Except as otherwise expressly set out herein or, in respect of Exempt Notes, in the relevant Pricing Supplement, all discretions exercised and calculations and determinations made in respect of the Notes by either the Calculation Agent or the Issuer shall be made in its sole and absolute discretion and in good faith and shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Fiscal Agent, the VP Systems Agents any other Paying Agent, the Noteholders and the Couponholders.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

12.5. *Exercise of Discretion*

In exercising its discretion in respect of the Notes as provided herein, each of the Issuer and the Calculation Agent may take into account such factors as it determines appropriate in each case, which may include in particular any circumstances or events which have or may have a material impact on the hedging arrangements entered into by the Issuer and/or any of its Affiliates and/or a Hedging Party in respect of the Notes. The exercise of the Issuer's and/or the Calculation Agent's discretion in respect of the Notes as provided herein are necessary because certain circumstances or events (for example a material modification or disruption to any reference item or basis of reference to which the Notes are linked) may occur subsequent to the issuance of the Notes which may materially affect the costs to the Issuer and/or any of its Affiliates and/or a Hedging Party of maintaining the relevant Notes or relevant hedging arrangements. Such circumstances or events may not have been reflected in the pricing of the Notes. In addition, as a result of certain circumstances or events (e.g. unavailability or material disruption to any reference source) it may no longer be reasonably practicable or otherwise appropriate for certain valuations in respect of the reference item or basis of reference to which the Notes are linked to be made, thus making it necessary for the Issuer and/or the Calculation Agent to exercise its discretion in such a case.

As used herein, "**hedging arrangements**" means the arrangements, if any, the Issuer makes to have available to it the relevant cash amounts to be paid under the Notes as these fall due. This may involve the Issuer and/or a Hedging Party investing directly in the reference item(s) or basis of reference to which the Notes are linked. Alternatively, the Issuer and/or a Hedging Party may make an indirect investment by entering into or acquiring a derivative contract referencing the reference item(s) or basis of reference to which the Notes are linked. Such hedging arrangements may be carried out on a portfolio basis (i.e. where the Hedging Party maintains arrangements for hedging the Notes together with other obligations of the Issuer or its Affiliates). The Issuer will select hedging arrangements which are efficient for it in the context of the tax, regulatory and business environment in which it operates. The Issuer and/or a Hedging Party may also adjust hedging arrangements from time to time but will not always be able to avoid adverse costs, taxes or regulatory changes which affect its hedging arrangements. For the avoidance of doubt, the Issuer is under no obligation to enter into any hedging arrangements and, if any hedging arrangements are entered into, such arrangements will not confer any rights or entitlements on any Noteholder and no Noteholder will have recourse to any such hedging arrangements.

12.6. *Determination of amounts payable*

The Calculation Agent will employ the methodology described in these Conditions and/or, in respect of Exempt Notes, the relevant Pricing Supplement to determine amounts payable in respect of the Notes and Coupons. When making any such determination in relation to any amounts so payable, the Calculation Agent may in its sole and absolute discretion consider any relevant information, which may but is not required to include, without limitation, one or more of the following:

- (i) quotations (either firm or indicative) supplied by one or more third parties or information sources;
- (ii) (information consisting of relevant market data in the relevant markets supplied by one or more third parties or information sources including, without limitation, relevant rates, prices, yields, yield curves, volatilities, spreads correlation or other relevant market data in the relevant market; or
- (iii) information of the types described in (i) or (ii) above from internal sources (including any Affiliates of the Calculation Agent) or other information of a type used by the Calculation Agent in the regular course of its business or in connection with similar transactions.

Whenever the Calculation Agent is required to make any determination it may, inter alia, decide issues of construction and legal interpretation. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or discretions under the Notes including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion.

12.7. *Disclaimer of liability*

The Calculation Agent makes no express or implied representations or warranties as to (i) the advisability of investing in or obtaining exposure to the Notes, (ii) the value of the Notes at any particular time on any particular date, or (iii) any amounts that may become payable in respect of the Notes.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Noteholders for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

12.8. *Conflict of Interest*

In addition to providing calculation agency services to the Issuer, the Calculation Agent or any of its Affiliates may perform further or alternative roles relating to the Issuer and any Series of Notes including, but not limited to, for example, being involved in arrangements relating to any of the reference items (for example as a calculation agent or, in the case of a proprietary index for example, as index sponsor). Furthermore, the Calculation Agent or any of its Affiliates may contract with the Issuer and/or enter into transactions which relate to the Issuer, the Notes or any of the reference items and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Issuer nor the Calculation Agent in respect of the Notes shall owe any duty or responsibility to any Noteholder to avoid any conflict or to act in the interests of any Noteholder.

13. **Meetings of Holders; Modification and Waiver**

13.1. *Meetings of Holders of Notes other than VP Systems Notes*

This Condition 13.1 is applicable only in relation to Notes other than VP Systems Notes. The Agency Agreement contains provisions (which shall have effect as if incorporated herein) for convening meetings of Holders of Notes of any Series (other than VP Systems Notes) to consider matters relating to such Series of Notes, including (without limitation) the modification by Extraordinary Resolution (as defined in the Agency Agreement) of any provision of these Conditions and the Deed of Covenant insofar as the same may apply to such Notes. Any Extraordinary Resolution duly passed at any such meeting of Holders of Notes of any Series will be binding on all Holders of Notes of such Series, whether present or not at the meeting and on all Holders of Coupons relating to Notes of such Series.

In addition, a resolution in writing signed by or on behalf of all Holders who for the time being are entitled to receive notice of a meeting of Holders of Notes will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders of Notes.

13.2. *Modification of Notes other than VP Systems Notes*

This Condition 13.2 is applicable only in relation to Notes other than VP Systems Notes. The Issuer may, with the consent of the Fiscal Agent, amend the Notes, these Conditions and the Deed of Covenant without the consent of the Holders or Couponholders:

- (i) where such amendment is of a formal, minor or technical nature or to correct a manifest error or proven error or to cure, correct or supplement any defective provision of the Notes of the relevant Series and/or the Deed of Covenant; or
- (ii) where the Issuer determines (whether before or after issue) to list and/or trade the Notes of the relevant Series on a stock exchange, market or quotation system or a central securities depository, trading facility or clearing system and such amendment is made to enable such Notes to be listed and/or traded on such stock exchange, market or quotation system or central securities depository, trading facility or clearing system; or
- (iii) to comply with any mandatory provision of law or the rules of any stock exchange, market or quotation system, central securities depository, trading facility or clearing system.

Subject as aforesaid, no other modification may be made to these Conditions or the Deed of Covenant except with the sanction of an Extraordinary Resolution.

13.3. *Meeting of Holders of VP Systems Notes*

This Condition 13.3 is applicable only in relation to VP Systems Notes. The Agency Agreement contains provisions (which shall have effect as if incorporated herein) for convening meetings of Holders of VP Systems Notes of any Series to consider matters relating to such Series of Notes, including (without limitation) the modification by Extraordinary Resolution of any provision of these Conditions insofar as the same may apply to such Notes. Any Extraordinary Resolution duly passed at any such meeting of Holders of VP Systems Notes of any Series will be binding on all Holders of Notes of such Series, whether present or not at the meeting. Meetings of Holders shall be held in accordance with the Agency Agreement and in compliance with the relevant regulations of the VP, VPS, Euroclear Finland or Euroclear Sweden, as the case may be. Any person requesting the convening of any such meeting or attending or voting at any such meeting shall be required to provide proof of their appointment as proxy, attorney or representative and/or ownership of Notes satisfactory to the Issuer and/or in the form specified by Issuer in the notice in respect of the relevant meeting given to Holders in accordance with Condition 15 (*Notices*).

In addition, a resolution in writing signed by or on behalf of all Holders who for the time being are entitled to receive notice of a meeting of Holders of Notes will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders of Notes.

13.4. *Modification of VP Systems Notes*

This Condition 13.4 is applicable only in relation to VP Systems Notes. The Issuer may amend the Notes and these Conditions without the consent of the Holders:

- (i) where such amendment is of a formal, minor or technical nature or to correct a manifest error or proven error or to cure, correct or supplement any defective provision of the Notes of the relevant Series; or
- (ii) where the Issuer determines (whether before or after issue) to list and/or trade the Notes of the relevant Series on a stock exchange, market or quotation system or a central securities depository, trading facility or clearing system and such amendment is made to enable such Notes to be listed and/or traded on such stock exchange, market or quotation system or central securities depository, trading facility or clearing system; or
- (iii) to comply with any mandatory provision of law or the rules of any stock exchange, market or quotation system, central securities depository, trading facility or clearing system.

Subject as aforesaid, no other modification may be made to these Conditions except with the sanction of an Extraordinary Resolution.

14. **Further Issues**

The Issuer may from time to time, without the consent of the Holders or the Couponholders, create and issue further Notes having the same Terms and Conditions as the Notes in all respects (or in all respects except for the first payment of interest, if any, on them and/or the issue price thereof) so as to form a single series with the Notes.

15. **Notices**

15.1. *Bearer Notes*

Notices to Holders of Bearer Notes will, save where another means of effective communication has been specified herein or, in respect of Exempt Notes, in the relevant Pricing Supplement, be deemed to be validly given:

- (i) in the case of any Bearer Notes represented by definitive Bearer Notes, if published in a leading English language daily newspaper having general circulation in Europe; or
- (ii) in the case of any Bearer Notes represented by a Global Note, if delivered to Euroclear and Clearstream, Luxembourg for communication by them to the persons shown in their respective records as having interests therein,

and, in either case, if such Notes are listed on the Official List of the Irish Stock Exchange (so long as such Notes are listed on the Official List of the Irish Stock Exchange and the rules of that exchange so permit), if published on the website of the Irish Stock Exchange (www.ise.ie).

The Issuer shall also ensure that notices are duly published in a manner which complies with the rules of any stock exchange or other relevant authority on which the Bearer Notes are for the time being listed or by which they have been admitted to trading.

Any notice so given will be deemed to have been validly given, in the case of any Bearer Notes represented by definitive Bearer Notes, on the date of first such publication (or, if required to be published in more than one newspaper, on the first date on which publication shall have been made in all the required newspapers) or, in the case of any Bearer Notes represented by a Global Note, on the date of such delivery to Euroclear and Clearstream, Luxembourg. Couponholders will be deemed for all purposes to have notice of the contents of any notice given to Holders of Bearer Notes in accordance with this Condition 15.1.

15.2. *VP Systems Notes*

All notices regarding the VP Systems Notes shall be given (i) if and for so long as the Notes are admitted to trading and/or listed on any stock exchange or any other relevant authority, by publication in any manner which complies with the rules of such stock exchange or other relevant authority and (ii) may be (a) given in accordance with the procedures of the VP, VP Lux, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, and/or (b) published in a relevant national newspaper and/or published on the website specified in the relevant Issue Terms.

15.3. *Validity of Notices*

Any notice so given will be deemed to have been validly given, (i) if published either (a) on the website of any stock exchange or other relevant authority on which the relevant VP Systems Notes are for the time being listed or by which they have been admitted to trading and/or (b) in a national

newspaper, on the date of the first such publication or (ii) if given in accordance with the procedures of the VP, VP Lux, VPS, Euroclear Finland or Euroclear Sweden, as the case may be, on the date it is published in accordance with such procedures, or (iii) if given or published in any other manner in accordance with this Condition 15.3, on the date specified in the relevant notice or, if no such date is specified, on the third Business Day after the date of such notice.

Notices to the Issuer shall be given in writing to the Issuer at 2-12 Holmens Kanal, DK-1092 Copenhagen K, Denmark, attention: 4841 Danske Markets/Asset and Liability Management or such other address and/or addressee as the Issuer may notify to Holders from time to time in accordance with this Condition 15.3.

16. **Currency Indemnity**

The currency in which the Notes are denominated, as specified in the relevant Final Terms or, in respect of Exempt Notes, if different, the currency in which the Notes are payable, as specified in the relevant Pricing Supplement (the “**Contractual Currency**”), is the sole currency of account and payment for all sums payable by the Issuer in respect of the Notes, including damages. Any amount received or recovered in a currency other than the Contractual Currency (whether as a result of, or of the enforcement of, a judgment or order of a court of any jurisdiction or otherwise) by any Holder in respect of any sum expressed to be due to it from the Issuer shall only constitute a discharge to the Issuer to the extent of the amount of the Contractual Currency which such Holder is able to purchase with the amount so received or recovered in that other currency on the date of that receipt or recovery (or, if it is not practicable to make that purchase on that date, on the first date on which it is practicable to do so). If that amount is less than the amount of the Contractual Currency expressed to be due to any Holder in respect of such Note or Coupon, the Issuer shall indemnify such Holder against any loss sustained by such Holder as a result. In any event, the Issuer shall indemnify each such Holder against any cost of making such purchase which is reasonably incurred. These indemnities constitute a separate and independent obligation from the Issuer’s other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Holder and shall continue in full force and effect despite any judgment, order, claim or proof for a liquidated amount in respect of any sum due in respect of the Notes or any judgment or order. Any such loss as aforesaid shall be deemed to constitute a loss suffered by the relevant Holder and no proof or evidence of any actual loss will be required by the Issuer.

17. **Waiver and Remedies**

No failure to exercise, and no delay in exercising, on the part of the Holder of any Note, any right in these Conditions shall operate as a waiver thereof nor shall any single or partial exercise thereof preclude any other or future exercise thereof or the exercise of any other right. Rights hereunder shall be in addition to all other rights provided by law. No notice or demand given in any case shall constitute a waiver of rights to take other action in the same, similar or other instances without such notice or demand.

18. **Governing Law and Jurisdiction**

18.1. *Governing law*

The Notes, the Agency Agreement, the Deed of Covenant and the VP Systems Agency Agreement, and any non-contractual obligations arising therefrom or in connection therewith, shall be governed by, and construed in accordance with, English law, except for the registration of Notes in the VP, which shall be governed by, and shall be construed in accordance with, Danish law, the registration of Notes in the VPS, which shall be governed by, and shall be construed in accordance with, Norwegian law, the registration of Notes in Euroclear Finland, which shall be governed by, and shall be construed in accordance with Finnish law and the registration of Notes in Euroclear Sweden, which shall be governed by, and shall be construed in accordance with, Swedish law.

18.2. *English courts*

The courts of England have jurisdiction to settle any dispute (a “**Dispute**”) arising from or connected with the Notes (including any Dispute relating to any non-contractual obligations arising from or connected with the Notes).

18.3. *Appropriate forum*

The Issuer agrees that the courts of England are the most appropriate and convenient courts to settle any Dispute and, accordingly, that it will not argue to the contrary.

18.4. *Rights of the Holders to take proceedings outside England*

Condition 18.2 (*English courts*) is for the benefit of the Holders only. As a result, nothing in this Condition 18 prevents any Holder from taking proceedings relating to a Dispute (“**Proceedings**”) in any other courts with jurisdiction. To the extent allowed by law, any Holder may take concurrent Proceedings in any number of jurisdictions.

18.5. *Service of process*

The Issuer agrees that the documents which start any Proceedings and any other documents required to be served in relation to those Proceedings may be served on it by being delivered to the Issuer at 75 King William Street, London EC4N 7DT or at any address of the Issuer in Great Britain at which service of process may be served on it in accordance with Part 34 of the Companies Act 2006. Nothing in this paragraph shall affect the right of any Holder to serve process in any other manner permitted by law. This Condition 18 applies to Proceedings in England and to Proceedings elsewhere.

19. **Rights of Third Parties**

No person shall have any right to enforce any term or condition in respect of a Note under the Contracts (Rights of Third Parties) Act 1999.

SECTION F.2 - SCHEDULES TO THE GENERAL CONDITIONS

REFERENCE ITEM SCHEDULE 1 CREDIT-LINKED NOTES

1. **Credit-Linked Notes**

1.1. *Applicability*

This Reference Item Schedule 1 (Credit-Linked Notes) is applicable only in relation to Notes which are specified to be "Credit-Linked Notes" ("**Credit-Linked Notes**") in the relevant Issue Terms.

1.2. *Definitions*

2.5-year Limitation Date has the meaning given to that term in the definition of "Limitation Date".

5-year Limitation Date has the meaning given to that term in the definition of "Limitation Date".

20-year Limitation Date has the meaning given to that term in the definition of "Limitation Date".

2005 Matrix Supplement means the 2005 Matrix Supplement to the 2003 ISDA Credit Derivatives Definitions as published by ISDA on 7 March 2005.

"**Accreted Amount**" means, with respect to an Accreting Obligation, an amount equal to (a) the sum of (i) the original issue price of such obligation and (ii) the portion of the amount payable at maturity that has accreted in accordance with the terms of the obligation (or as otherwise described below), less (b) any cash payments made by the obligor thereunder that, under the terms of such obligation, reduce the amount payable at maturity (unless such cash payments have been accounted for in (a)(ii) above), in each case calculated as of the earlier of (1) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (2) the applicable Valuation Date. Such Accreted Amount shall include any accrued and unpaid periodic cash interest payments only if "Include Accrued Interest" is specified as applicable in the relevant Issue Terms. If an Accreting Obligation is expressed to accrete pursuant to a straight-line method or if such Obligation's yield to maturity is not specified in, nor implied from, the terms of such Obligation, then, for the purposes of (a)(ii) above, the Accreted Amount shall be calculated using a rate equal to the yield to maturity of such Obligation. Such yield shall be determined on a semi-annual bond equivalent basis using the original issue price of such obligation and the amount payable at the scheduled maturity of such obligation, and shall be determined as of the earlier of (I) the date on which any event occurs that has the effect of fixing the amount of a claim in respect of principal and (II) the applicable Valuation Date. The Accreted Amount shall exclude, in the case of an Exchangeable Obligation, any amount that may be payable under the terms of such obligation in respect of the value of the Equity Securities for which such obligation is exchangeable.

The Calculation Agent shall determine in its reasonable discretion the accrued and unpaid periodic cash interest payments to be included in the Accreted Amount.

"**Accreting Obligation**" means any obligation (including, without limitation, a Convertible Obligation or an Exchangeable Obligation), the terms of which expressly provide for an amount payable upon acceleration equal to the original issue price (whether or not equal to the face amount thereof) plus an additional amount or amounts (on account of original issue discount or other accruals of interest or principal not payable on a periodic basis) that will or may accrete, whether or not (a) payment of such additional amounts is subject to a contingency or determined by reference to a formula or index, or (b) periodic cash interest is also payable.

“**Additional Interest Amount**” means an amount in the Specified Currency equal to the product of:

- (a) the Final Redemption Amount or Early Redemption Amount, as applicable;
- (b) the Average Overnight Rate in respect of the Additional Amount Period; and

The Calculation Agent will determine the entity which succeeds to such Relevant Obligations on the basis of the Best Available Information. If the date on which the Best Available Information becomes available (or is filed) precedes the legally effective date of the relevant Succession Event, any assumptions as to the allocation of obligations between or among entities contained in the Best Available Information will be deemed to have been fulfilled as of the legally effective date of the Succession Event, whether or not this is in fact the case.

“Representative Amount” means an amount that is representative for a single transaction in the relevant market and at the relevant time, such amount to be determined by the Calculation Agent.

“Repudiation/Moratorium” means the occurrence of both of the following events:

- (a) an authorised officer of a Reference Entity or a Governmental Authority:
 - (i) disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, one or more Obligations in an aggregate amount of not less than the Default Requirement; or
 - (ii) declares or imposes a moratorium, standstill, roll-over or deferral, whether *de facto* or *de jure*, with respect to one or more Obligations in an aggregate amount of not less than the Default Requirement; and
- (b) a Failure to Pay, determined without regard to the Payment Requirement, or a Restructuring, determined without regard to the Default Requirement, with respect to any such Obligation occurs on or prior to the Repudiation/Moratorium Evaluation Notice Date.

“Repudiation/Moratorium Evaluation Date” means, if a Potential Repudiation/Moratorium occurs on or prior to the Scheduled Notice Maturity Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan

Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)), (a) if the Obligations to which such Potential Repudiation/Moratorium relates include Bonds, the date that is the later of (i) the date that is 60 days after the date of such Potential Repudiation/Moratorium and (ii) the first payment date under any such Bond after the date of such Potential Repudiation/Moratorium (or, if later, the expiration date of any applicable Grace Period in respect of such payment date) and (b) if the Obligations to which such Potential Repudiation/Moratorium relates do not include Bonds, the date that is 60 days after the date of such Potential Repudiation/Moratorium provided that, in either case, the Repudiation/Moratorium Evaluation Date shall occur no later than the Scheduled Termination Notice Date unless the Repudiation/Moratorium Extension Condition is satisfied.

“Repudiation/Moratorium Extension Condition” will be satisfied: (a) if ISDA publicly announces, pursuant to a valid request that was delivered in accordance with the Rules and effectively received on or prior to the date that is fourteen calendar days after the Scheduled Termination Notice Date, that the relevant Credit Derivatives Determinations Committee has Resolved that an event that constitutes a Potential Repudiation/Moratorium for purposes of a Series has occurred with respect to an Obligation of the relevant Reference Entity and that such event occurred on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) or, if Reference Item Condition 1.9 (*Maturity Date Extension*) applies, the Postponed Maturity Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) or (b) otherwise, by the delivery by the Calculation Agent to the Issuer of a Repudiation/Moratorium Extension Notice and, if Notice of Publicly Available is specified as applicable in the relevant Issue Terms, a Notice of Publicly Available Information that are each effective on or prior to the date that is fourteen calendar days after the Scheduled Termination Notice Date. In all cases, the Repudiation/Moratorium Extension Condition will be deemed not to have been satisfied, or capable of being satisfied, if, or to the extent that, ISDA publicly announces, pursuant to a valid request that was delivered in accordance with the Rules and effectively received on or prior to the date that is fourteen calendar days after the Scheduled Termination Notice Date, that the relevant Credit Derivatives Determinations Committee has Resolved that either (i) an event does not constitutes a Potential Repudiation/Moratorium for purposes of a Series with respect to an Obligation of the relevant Reference Entity or (ii) an event that constitutes a Potential Repudiation/Moratorium for purposes of a Series has occurred with respect to an Obligation of the relevant Reference Entity but that such event occurred after the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)).

“Repudiation/Moratorium Extension Notice” means an irrevocable notice (which may be in writing (including by facsimile and/or email) and/or by telephone) from the Calculation Agent to the Issuer (which the Calculation Agent has the right but not the obligation to deliver) that describes a Potential Repudiation/Moratorium that occurred on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)). A Repudiation/Moratorium Extension Notice must contain a description in reasonable detail of the facts relevant to the determination that a Potential Repudiation/Moratorium has occurred and indicate the date of the occurrence. The Potential Repudiation/Moratorium that is the subject of the Repudiation/Moratorium Extension Notice need not be continuing on the date the Repudiation/Moratorium Extension Notice is effective.

“Resolve” has the meaning set out in the Rules, and "Resolved" and "Resolves" shall be interpreted accordingly.

“Restructured Bond or Loan” means an Obligation which is a Bond or Loan and in respect of which the relevant Restructuring has occurred.

“Restructuring” means, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, any one or more of the following events occurs in a form that binds all holders of such Obligation, is agreed between a Reference Entity or a Governmental Authority and a sufficient number of holders of such Obligation to bind all the holders of the Obligation or is announced (or otherwise decreed) by a Reference Entity or a Governmental Authority in a form that binds all holders of such Obligation, and such event is not expressly provided for under the terms of such Obligation in effect as of the later of (i) the Credit Event Backstop Date applicable to a Series and (ii) the date as of which such Obligation is issued or incurred:

- (a) a reduction in the rate or amount of interest payable or the amount of scheduled interest accruals;
- (b) a reduction in the amount of principal or premium payable at maturity or at scheduled redemption dates;
- (c) a postponement or other deferral of a date or dates for either (i) the payment or accrual of interest or (ii) the payment of principal or premium;
- (d) a change in the ranking in priority of payment of any Obligation, causing the Subordination of such Obligation to any other Obligation; or
- (e) any change in the currency or composition of any payment of interest or principal to any currency which is not a Permitted Currency;

Notwithstanding the above provisions, none of the following shall constitute a Restructuring:

- (i) the payment in euro of interest or principal in relation to an Obligation denominated in a currency of a Member State of the European Union that adopts or has adopted the single currency in accordance with the Treaty establishing the European Community, as amended by the Treaty on European Union;
- (ii) the occurrence of, agreement to or announcement of any of the events described in (a) to (e) above due to an administrative adjustment, accounting adjustment or tax adjustment or other technical adjustment occurring in the ordinary course of business; and
- (iii) the occurrence of, agreement to or announcement of any of the events described in (a) to (e) above in circumstances where such event does not directly or indirectly result from a deterioration in the creditworthiness or financial condition of the Reference Entity.

For the purposes of the definition of Restructuring and Reference Item Condition 1.12 (*Credit Event Notice after Restructuring Credit Event*), the term Obligation shall be deemed to include Underlying Obligations for which the Reference Entity is acting as provider of a Qualifying Affiliate Guarantee or, if All Guarantees is specified as applicable in the relevant Issue Terms, as provider of any Qualifying Guarantee. In the case of a Qualifying Guarantee and an Underlying Obligation, references to the Reference Entity in the initial paragraph and sub-paragraphs (a) to (e) above of the definition of Restructuring shall be deemed to refer to the Underlying Obligor and the reference to the Reference Entity in the second paragraph of this definition of Restructuring shall continue to refer to the Reference Entity.

“Restructuring Date” means the date on which a Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring.

“Restructuring Maturity Limitation Date” means with respect to a Valuation Obligation, the Limitation Date occurring on or immediately following the Scheduled Termination Notice Date, provided that, in circumstances where the Scheduled Termination Notice Date is later than the 2.5-year Limitation Date, at least one Enabling Obligation exists. Notwithstanding the foregoing, if the final maturity date of the Restructured Bond or Loan with the latest final maturity date of any Restructured Bond or Loan occurs prior to the 2.5-year Limitation Date (such Restructured Bond or Loan, a **“Latest Maturity Restructured Bond or Loan”**) and the Scheduled Termination Notice Date occurs prior to the final maturity date of such Latest Maturity Restructured Bond or Loan, then the Restructuring Maturity Limitation Date will be the final maturity date of such Latest Maturity Restructured Bond or Loan.

In the event that the Scheduled Termination Notice Date is later than (a)(i) the final maturity date of the Latest Maturity Restructured Bond or Loan, if any, or (ii) the 2.5-year Limitation Date, and, in either case, no Enabling Obligation exists or (b) the 20-year Limitation Date, the Restructuring Maturity Limitation Date will be the Scheduled Termination Notice Date.

“Rules” has the meaning given to that term in the definition of "Credit Derivatives Determinations Committee" above.

“Scheduled Termination Notice Date” means the day specified as such in the relevant Issue Terms.

“Settlement Currency” means the currency specified as such in the relevant Issue Terms, or if no currency is specified in the relevant Issue Terms, the Specified Currency of the Notes.

“Settlement Method” means, if (a) Auction Settlement is specified as the applicable Settlement Method in the relevant Issue Terms, Auction Settlement or (b) Cash Settlement is specified as the applicable Settlement Method in the relevant Issue Terms, Cash Settlement.

“Sovereign” means any state, political subdivision or government, or any agency, instrumentality, ministry, department or other authority (including without limiting the foregoing, the central Issuer) thereof.

“Sovereign Agency” means any agency, instrumentality, ministry, department or other authority (including, without limiting the foregoing, the central Issuer) of a Sovereign.

“Sovereign Restructured Deliverable Obligation” means an Obligation of a Sovereign Reference Entity (a) in respect of which a Restructuring that is the subject of the relevant Credit Event Notice has occurred and (b) described by the Valuation Obligation Category specified in the relevant Issue Terms, and, subject to paragraph (ii) "*Interpretation of Provisions*" in the definition of "Valuation Obligation", having each of the Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms, in each case, immediately preceding the date on which such Restructuring is legally effective in accordance with the terms of the documentation governing such Restructuring without regard to whether the Obligation would satisfy such Valuation Obligation Category or Valuation Obligation Characteristics after such Restructuring.

“Specified Number” means the number of Public Source(s) specified in the relevant Issue Terms, or if no number is specified in the relevant Issue Terms, two.

“Substitute Reference Obligation” means one or more obligations of the Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee or, if All Guarantees is specified as applicable in the relevant Issue Terms, as provider of any Qualifying Guarantee) that will replace one or more Reference Obligations, identified by the Calculation Agent in accordance with the following procedures:

- (a) In the event that:
- (i) a Reference Obligation is redeemed in whole; or
 - (ii) (1) the aggregate amounts due under any Reference Obligation have been materially reduced by redemption or otherwise (other than due to any scheduled redemption, amortisation or prepayments), (2) any Reference Obligation is an Underlying Obligation with a Qualifying Guarantee of a Reference Entity and, other than due to the existence or occurrence of a Credit Event, the Qualifying Guarantee is no longer a valid and binding obligation of such Reference Entity enforceable in accordance with its terms or (3) for any other reason, other than due to the existence or occurrence of a Credit Event, any Reference Obligation is no longer an obligation of a Reference Entity, the Calculation Agent shall identify one or more Obligations to replace such Reference Obligation.
- (b) Any Substitute Reference Obligation or Substitute Reference Obligations shall be an Obligation that (i) ranks *pari passu* in priority of payment with the ranking in priority of payment of each of the Substitute Reference Obligation and such Reference Obligation (with the ranking in priority of payment of such Reference Obligation being determined as of the date as of which such Reference Obligation was issued or incurred and not reflecting any change to such ranking in priority of payment after such date), (ii) preserves the economic equivalent, as closely as practicable as determined by the Calculation Agent of the payment obligations of the Issuer and (iii) is an obligation of the relevant Reference Entity (either directly or as provider of a Qualifying Affiliate Guarantee or, if All Guarantees is specified as applicable in the relevant Issue Terms, as provider of any Qualifying Guarantee). The Substitute Reference Obligation or Substitute Reference Obligations identified by the Calculation Agent shall, if so selected at the discretion of the Calculation Agent, without further action, replace such Reference Obligation or Reference Obligations. The Calculation Agent shall use its reasonable discretion to determine whether the conditions met at (i) to (iii) above are fulfilled.
- (c) If more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to one or more but not all of the Reference Obligations, and the Calculation Agent determines not to select a Substitute Reference Obligation or that no Substitute Reference Obligation is available for one or more of such Reference Obligations, each Reference Obligation for which no Substitute Reference Obligation is selected or available shall cease to be a Reference Obligation. The Calculation Agent shall use its reasonable discretion to determine whether the conditions set out in this clause (c) are met.
- (d) If more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to all of the Reference Obligations, and the Calculation Agent determines that at least one Substitute Reference Obligation is available for any such Reference Obligation, then each such Reference Obligation may at the reasonable discretion of the Calculation Agent be replaced by a Substitute Reference Obligation and each Reference Obligation for which no Substitute Reference Obligation is available, or for which the Calculation Agent in its discretion determines not to select a Substitute Reference Obligation, will cease to be a Reference Obligation. The Calculation Agent shall use its reasonable discretion to determine whether the conditions set out in this clause (d) are met.
- (e) If:
- (i) more than one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in paragraph (a) above has occurred

with respect to all of the Reference Obligations and the Calculation Agent determines not to select a Substitute Reference Obligation or that no Substitute Reference Obligation is available for any of the Reference Obligations; or

- (ii) only one specific Reference Obligation is identified as a Reference Obligation in relation to a Series, any of the events set forth in paragraph (a) above has occurred with respect to such Reference Obligation and the Calculation Agent determines not to select a Substitute Reference Obligation or that no Substitute Reference Obligation is available for that Reference Obligation,

then the Calculation Agent may continue to attempt to identify a Substitute Reference Obligation until the Extension Date although the Calculation Agent is not obliged to select a Substitute Reference Obligation at any time. If (A) either (i) Cash Settlement is specified as the Settlement Method in the relevant Issue Terms (or is applicable as the fallback settlement method pursuant to Reference Item Condition 1.4 (*Auction Settlement*) below) or (ii) Auction Settlement is specified as the Settlement Method in the relevant Issue Terms and, in each case, the Reference Obligation is the only Deliverable Obligation for the purposes of the relevant Auction or the only Valuation Obligation and (B) on or prior to the Extension Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)), a Substitute Reference Obligation has not been identified, the Issuer shall have the right on or after the Extension Date to early redeem the Notes at the Early Redemption Amount by notice to Noteholders in accordance with General Condition 15 (*Notices*).

The Calculation Agent shall use its reasonable discretion when determining the Early Redemption Amount, taking into account the creditworthiness of the Reference Entity at the time of early redemption.

- (f) For the purposes of identification of a Reference Obligation, any change in the Reference Obligation's CUSIP or ISIN number or other similar identifier will not, in and of itself, convert such Reference Obligation into a different Obligation.

“Succession Event” means (a) with respect to a Reference Entity that is not a Sovereign, an event such as a merger, consolidation, amalgamation, transfer of assets or liabilities, de-merger, spin-off or other similar event in which one entity succeeds to the obligations of another entity, whether by operation of law or pursuant to any agreement or (b) with respect to a Reference Entity that is a Sovereign, an event such as an annexation, unification, secession, partition, dissolution, consolidation, reconstitution or other event that results in any direct or indirect successor(s) to such Reference Entity. Notwithstanding the foregoing, "Succession Event" shall not include an event (i) in which the holders of obligations of the Reference Entity exchange such obligations for the obligations of another entity, unless such exchange occurs in connection with a merger, consolidation, amalgamation, transfer of assets or liabilities, de-merger, spin-off or other similar event or (ii) with respect to which the legally effective date (or, in the case of a Reference Entity that is a Sovereign, the date of occurrence) has occurred prior to the Succession Event Backstop Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) applicable to the relevant Series.

“Succession Event Backstop Date” means (a) for purposes of any event that constitutes a Succession Event for purposes of the relevant Notes, as determined by DC Resolution, the date that is 90 calendar days prior to the Succession Event Resolution Request Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) or (b) otherwise, the date that is 90 calendar days prior to the earlier of (i) the date on which the Succession Event Notice is effective and (ii) in circumstances where (I) the conditions to

convening a Credit Derivatives Determinations Committee to Resolve the matters described in paragraphs (a) and (b) of the definition of Succession Event Resolution Request Date are satisfied in accordance with the Rules, (II) the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters and (III) the Succession Event Notice is delivered by the Calculation Agent to the Issuer not more than fourteen calendar days after the day on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine such matters, the Succession Event Resolution Request Date. The Succession Event Backstop Date shall not be subject to adjustment in accordance with any Business Day Convention unless specified in the relevant Issue Terms that the Succession Event Backstop Date will be adjusted in accordance with a specified Business Day Convention.

“**Succession Event Notice**” means an irrevocable notice from the Calculation Agent (which may be in writing (including by facsimile and/or email) and/or by telephone) to the Issuer that describes a Succession Event that occurred on or after the Succession Event Backstop Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)).

A Succession Event Notice must contain a description in reasonable detail of the facts relevant to the determination, of (a) whether a Succession Event has occurred and (b) if relevant, the identity of any Successor(s).

“**Succession Event Resolution Request Date**” means, with respect to a notice to ISDA, delivered in accordance with the Rules, requesting that a Credit Derivatives Determinations Committee be convened to Resolve:

- (a) whether an event that constitutes a Succession Event for purposes of a Series has occurred with respect to the relevant Reference Entity; and
- (b) if the relevant Credit Derivatives Determinations Committee Resolves that such event has occurred, (i) with respect to a Reference Entity that is not a Sovereign, the legally effective date of such event or (ii) with respect to a Reference Entity that is a Sovereign, the date of the occurrence of such event,

the date, as publicly announced by ISDA, that the relevant Credit Derivatives Determinations Committee Resolves to be the date on which such notice is effective.

“**Successor**” means:

- (a) in relation to a Reference Entity that is not a Sovereign, the entity or entities, if any, determined as set forth below:
 - (i) if one entity directly or indirectly succeeds to seventy-five per cent. or more of the Relevant Obligations of the Reference Entity by way of a Succession Event, that entity will be the sole Successor;
 - (ii) if only one entity directly or indirectly succeeds to more than twenty-five per cent. (but less than seventy-five per cent.) of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than twenty-five per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and not more than twenty-five per cent. of the Relevant Obligations of the

Reference Entity remain with the Reference Entity, the entities that succeed to more than twenty-five per cent. of the Relevant Obligations will each be a Successor and these Terms and Conditions and/or the relevant Issue Terms will be adjusted as provided below;

- (iv) if one or more entities each directly or indirectly succeed to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity by way of a Succession Event, and more than twenty-five per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor and these Terms and Conditions and/or the relevant Issue Terms will be adjusted as provided below;
 - (v) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity will not be changed in any way as a result of the Succession Event; and
 - (vi) if one or more entities directly or indirectly succeed to a portion of the Relevant Obligations of the Reference Entity by way of a Succession Event, but no entity succeeds to more than twenty-five per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations (or, if two or more entities succeed to an equal percentage of Relevant Obligations, the entity from among those entities which succeeds to the greatest percentage of obligations of the Reference Entity) will be the sole Successor; and
- (b) in relation to a Sovereign Reference Entity, each entity which becomes a direct or indirect successor to such Reference Entity by way of Succession Event, irrespective of whether any such successor assume(s) any of the obligations of such Reference Entity.

The Calculation Agent will be responsible for determining, as soon as reasonably practicable after it becomes aware of the relevant Succession Event (but no earlier than fourteen calendar days after the legally effective date of the occurrence of the relevant Succession Event), and with effect from the legally effective date of the occurrence of the Succession Event, whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable; provided that the Calculation Agent will not make any such determination if, at such time, either (A) ISDA has publicly announced that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in (a) above and paragraphs (a) and (b)(1) of the definition of Succession Event Resolution Request Date (in the case of a Reference Entity that is not a Sovereign) or (b) above and paragraphs (a) and (b)(2) of the definition of Succession Event Resolution Request Date (in the case of a Sovereign Reference Entity) are satisfied in accordance with the Rules (until such time (if any) that ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine a Successor) or (B) ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that no event that constitutes a Succession Event has occurred. In calculating the percentages used to determine whether the relevant thresholds set forth above have been met, or which entity qualifies under (a)(vi) above, as applicable, the Calculation Agent shall use, with respect to each applicable Relevant Obligation included in such calculation, the amount of the liability with respect to such Relevant Obligation listed in the Best Available Information and shall, as soon as practicable after such calculation, make such calculation available for inspection by Noteholders at the specified office of the Fiscal Agent.

Where pursuant to paragraph (a)(iii) or (a)(iv) or (b) above, more than one Successor has been identified, the Calculation Agent shall adjust such of the Terms and Conditions and/or the relevant

Issue Terms as it acting in a commercially reasonable manner shall determine to be appropriate to reflect that the relevant Reference Entity has been succeeded by more than one Successor and shall determine the effective date of that adjustment. The Calculation Agent shall be deemed to be acting in a commercially reasonable manner if it adjusts such of the Terms and Conditions and/or the relevant Issue Terms in such a manner as to reflect the adjustment to and/or division of any credit derivative transaction(s) related to or underlying the Notes under the provisions of the 2003 ISDA Credit Derivatives Definitions. The Calculation Agent shall adjust such of the Terms and Conditions and/or the relevant Issue Terms using its reasonable discretion.

Upon the Calculation Agent making such adjustment and notifying the Issuer of such adjustment, the Issuer shall give notice as soon as practicable to the Noteholders in accordance with General Condition 15 (*Notices*) stating the adjustment to the Terms and Conditions and/or the relevant Issue Terms and giving brief details of the relevant Succession Event.

For the purposes of this definition of "Successor", "succeed" means, with respect to a Reference Entity and its Relevant Obligations (or, as applicable, obligations), that a party other than such Reference Entity (i) assumes or becomes liable for such Relevant Obligations (or, as applicable, obligations) whether by operation of law or pursuant to any agreement or (ii) issues Bonds that are exchanged for Relevant Obligations (or, as applicable, obligations), and in either case such Reference Entity is no longer an obligor (primarily or secondarily) or guarantor with respect to such Relevant Obligations (or, as applicable, obligations). The determinations required pursuant to paragraph (a) of this definition of "Successor" shall be made, in the case of an exchange offer, on the basis of the Outstanding Principal Balance of Relevant Obligations tendered and accepted in the exchange and not on the basis of the Outstanding Principal Balance of Bonds for which Relevant Obligations have been exchanged.

Where:

- (i) a Reference Obligation is specified in the relevant Issue Terms; and
- (ii) one or more Successors to the Reference Entity have been identified; and
- (iii) any one or more such Successors have not assumed the Reference Obligation,

a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation" above.

Notwithstanding the provisions above and sub-paragraph (b) of the definition of Reference Entity, in the case of First to Default Credit-Linked Notes and Portfolio Credit-Linked Notes, where one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor pursuant thereto and at least one other entity which is not a Reference Entity is also identified as a Successor in respect of the relevant Succession Event, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Notes. Where pursuant to the provisions above or sub-paragraph (b) of the definition of Reference Entity one or more Reference Entities (each an "**Affected Reference Entity**") and/or the Issuer would, but for this provision, be identified as a Successor pursuant thereto but no other entities which are not Reference Entities or the Issuer are identified as a Successor in respect of the relevant Succession Event, each Affected Reference Entity and/or the Issuer, as applicable, shall not be regarded as a "Successor" for the purposes of the Notes and, in respect of each Affected Reference Entity or the Issuer, as applicable, the Calculation Agent shall use reasonable endeavours to (a) select an Alternative Reference Entity to be the Successor in respect of the relevant Succession Event and (b) select an Alternative Reference Obligation to be the Reference Obligation in respect of such Alternative Reference Entity after the relevant Succession Event. If the Calculation Agent is unable to select an Alternative Reference Entity or an Alternative Reference Obligation, then: (i) no Successor shall be appointed; (ii) the Affected Reference Entity to which the relevant Succession Event relates shall be deemed to have ceased to be a Reference Entity; (iii) that portion of any interest payable which is referable to the purchase of credit protection purchased by the Issuer under the Notes in respect of the Affected Reference Entity shall be reduced accordingly

as determined by the Calculation Agent; and (iv) the Calculation Agent may make such adjustments to the Terms and Conditions to account for the Successor Associated Costs, which may include, without limitation, reducing the Final Redemption Amount, Credit-Linked Redemption Amount by an amount equal to the Successor Associated Costs, in each case with effect from the date determined by the Calculation Agent to be the date on which the relevant Succession Event was effective.

Where:

“Supranational Organisation” means any entity or organisation established by treaty or other arrangement between two or more Sovereigns or the Sovereign Agencies of two or more Sovereigns, and includes, without limiting the foregoing, the International Monetary Fund, European Central Issuer, International Issuer for Reconstruction and Development and the European Issuer for Reconstruction and Development.

“**Valuation Date**” means where Cash Settlement is specified as applying in the relevant Issue Terms, if "Single Valuation Date" is specified in the relevant Issue Terms, the date that is the number of Business Days specified in the Issue Terms after the satisfaction of all Conditions to Settlement or, if the number of Business Days is not so specified, five Business Days after the satisfaction of all Conditions to Settlement (or, if "Cash Settlement" is applicable as the fallback settlement method pursuant to Reference Item Condition 1.4 (*Auction Settlement*) below, the date that is the number of Business Days specified in the relevant Issue Terms or, if the number of Business Days is not so specified, five Business Days after the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable), and if "Multiple Valuation Dates" is specified in the relevant Issue Terms, each of the following dates:

- (a) subject to Reference Item Condition 1.10 (*Settlement Suspension*), the date that is the number of Business Days specified in the relevant Issue Terms (or, if the number of Business Days is not specified, five Business Days) following the satisfaction of all Conditions to Settlement (or if Cash Settlement is applicable as the fallback settlement method pursuant to Reference Item Condition 1.4 (*Auction Settlement*) below, the date that is the number of Business Days specified in the relevant Issue Terms (or, if the number of Business Days is not specified, five Business Days) following the Auction Cancellation Date, if any, or the relevant No Auction Announcement Date, if any, as applicable); and
- (b) each successive date that is the number of Business Days specified in the relevant Issue Terms or, if the number of Business Days is not so specified, five Business Days after the date on which the Calculation Agent obtains a Market Value with respect to the immediately preceding Valuation Date.

When "Multiple Valuation Dates" is specified in the relevant Issue Terms, the total number of Valuation Dates shall be equal to the number of Valuation Dates specified in the relevant Issue Terms (or, if the number of Valuation Dates is not so specified, five Valuation Dates).

If neither Single Valuation Date nor Multiple Valuation Dates is specified in the relevant Issue Terms, Single Valuation Date shall apply.

“**Valuation Method**”:

similar procedural requirement, it being understood that acceleration of an Underlying Obligation shall not be considered a procedural requirement; and

(d) any Additional Valuation Obligation of a Reference Entity specified as such in the relevant Issue Terms.

(i) **Method for Determining Valuation Obligations.** For the purposes of this definition of "Valuation Obligation", the term "Valuation Obligation" may be defined as each obligation of each Reference Entity described by the Valuation Obligation Category specified in the relevant Issue Terms, and, subject to (ii)(III) below, having each of the Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms, in each case, as of the date of the event which constitutes the Credit Event which is the subject of either the Credit Event Notice or the notice to ISDA resulting in the occurrence of the Credit Event Resolution Request Date, as applicable. The following terms shall have the following meanings:

I. **"Valuation Obligation Category"** means one of Payment, Borrowed Money, Reference Obligations Only, Bond, Loan, or Bond or Loan (each as defined in the definition of "Obligation" below, except that, for the purpose of determining Valuation Obligations, the definition of "Reference Obligations Only" shall be amended to state that no Valuation Obligation Characteristics shall be applicable to Reference Obligations Only).

II. **"Valuation Obligation Characteristics"** means any one or more of Not Subordinated, Credit Linked Specified Currency, Not Sovereign Lender, Not Domestic Currency, Not Domestic Law, Listed, Not Domestic Issuance (each as defined in the definition of "Obligation" below), Not Contingent, Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer where:

(1) **"Not Contingent"** means any obligation having an Outstanding Principal Balance or, in the case of obligations that are not Borrowed Money, a Due and Payable Amount, that pursuant to the terms of such obligation may not be reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than payment). A Convertible Obligation, an Exchangeable Obligation and an Accreting Obligation shall constitute Valuation Obligations that are Not Contingent if such Valuation Obligation otherwise meets the requirements of the preceding sentence so long as, in the case of a Convertible Obligation or an Exchangeable Obligation, the right (x) to convert or exchange such obligation or (y) to require the issuer to purchase or redeem such obligation (if the issuer has exercised or may exercise the right to pay the purchase or redemption price, in whole or in part, in Equity Securities) has not been exercised (or such exercise has been effectively rescinded) on or before the relevant Valuation Date.

If a Reference Obligation is a Convertible Obligation or an Exchangeable Obligation, then such Reference Obligation may be included as a Valuation Obligation only if the rights referred to in paragraphs (x) and (y) of the preceding paragraph have not been exercised (or such exercise has been effectively rescinded) on or before the applicable Valuation Date.

- (2) “**Assignable Loan**” means a Loan that is capable of being assigned or novated to, at a minimum, commercial Issuers or financial institutions (irrespective of their jurisdiction of organisation) that are not then a lender or a member of the relevant lending syndicate, without the consent of the relevant Reference Entity or the guarantor, if any, of such Loan (or the consent of the applicable borrower if a Reference Entity is guaranteeing such Loan) or any agent;
- (3) “**Consent Required Loan**” means a Loan that is capable of being assigned or novated with the consent of the relevant Reference Entity or the guarantor, if any, of such Loan (or the consent of the relevant borrower if a Reference Entity is guaranteeing such loan) or any agent;
- (4) “**Direct Loan Participation**” means a Loan in respect of which, pursuant to a participation agreement, the Issuer is capable of creating, or procuring the creation of, a contractual right in favour of each Holder that provides each Holder with recourse to the participation seller for a specified share in any payments due under the relevant Loan which are received by such participation seller, any such agreement to be entered into between each Holder and either (A) the Issuer (to the extent that the Issuer is then a lender or a member of the relevant lending syndicate), or (B) a Qualifying Participation Seller (if any) (to the extent such Qualifying Participation Seller is then a lender or a member of the relevant lending syndicate);
- (5) “**Transferable**” means an obligation that is transferable to institutional investors without any contractual, statutory or regulatory restriction, provided that none of the following shall be considered contractual, statutory or regulatory restrictions:
- (A) contractual, statutory or regulatory restrictions that provide for eligibility for resale pursuant to Rule 144A or Regulation S promulgated under the United States Securities Act of 1933, as amended (and any contractual, statutory or regulatory restrictions promulgated under the laws of any jurisdiction having a similar effect in relation to the eligibility for resale of an obligation); or
 - (B) restrictions on permitted investments such as statutory or regulatory investment restrictions on insurance companies and pension funds;
- (6) “**Maximum Maturity**” means an obligation that has a remaining maturity from the relevant Valuation Date of not greater than the period specified in the relevant Issue Terms;
- (7) “**Accelerated or Matured**” means an obligation under which the total amount owed, whether at maturity, by reason of acceleration, upon termination or otherwise (other than amounts in respect of default interest, indemnities, tax gross-ups and other similar amounts), is, or on or prior to the applicable Valuation Date will be, due and payable in full in accordance with the terms of such

obligation, or would have been but for, and without regard to, any limitation imposed under any applicable insolvency laws; and

- (8) “**Not Bearer**” means any obligation that is not a bearer instrument unless interests with respect to such bearer instrument are cleared via Euroclear, Clearstream International or any other internationally recognised clearing system.

(ii) Interpretation of Provisions

- I. If the Obligation Characteristic "Listed" is specified in the relevant Issue Terms, the relevant Issue Terms shall be construed as though Listed had been specified as an Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Obligation Category;
- II. if (1) either of the Valuation Obligation Characteristics "Listed" or "Not Bearer" is specified in the relevant Issue Terms, the relevant Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Valuation Obligation Category; (2) the Valuation Obligation Characteristic "Transferable" is specified in the relevant Issue Terms, the relevant Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Valuation Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the selected Valuation Obligation Category); or (3) any of the Valuation Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the relevant Issue Terms, the relevant Issue Terms shall be construed as though such Valuation Obligation Characteristic had been specified as a Valuation Obligation Characteristic only with respect to Loans and shall only be relevant if Loans are covered by the selected Valuation Obligation Category;
- III. if any of Payment, Borrowed Money, Loan or Bond or Loan is specified as the Valuation Obligation Category and more than one of Assignable Loan, Consent Required Loan and Direct Loan Participation are specified as Valuation Obligation Characteristics, the Valuation Obligations may include any Loan that satisfies any one of such D Valuation Obligation Characteristics specified and need not satisfy all such Valuation Obligation Characteristics; and
- IV. in the event that an Obligation or a Valuation Obligation is a Qualifying Guarantee, the following will apply:
 - (1) For purposes of the application of the Obligation Category or the Valuation Obligation Category, the Qualifying Guarantee shall be deemed to be described by the same category or categories as those that describe the Underlying Obligation.
 - (2) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the

Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms from the following list: Not Subordinated, Credit Linked Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For these purposes, unless otherwise specified in the relevant Issue Terms, (x) the lawful currency of any of Canada, Japan, Switzerland, the United Kingdom or the United States of America or the euro shall not be a Domestic Currency and (y) the laws of England and the laws of the State of New York shall not be a Domestic Law.

- (3) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, only the Qualifying Guarantee must satisfy on the relevant date the Obligation Characteristic or the Valuation Obligation Characteristic of Not Subordinated, if specified in the relevant Issue Terms.
- (4) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or the Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms from the following list: Listed, Not Contingent, Not Domestic Issuance, Assignable Loan, Consent Required Loan, Direct Loan Participation, Transferable, Maximum Maturity, Accelerated or Matured and Not Bearer.
- (5) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (6) The terms "Outstanding Principal Balance" and "Due and Payable Amount" (as they are used in the Terms and Conditions) when used in connection with Qualifying Guarantees are to be interpreted to be the then "Outstanding Principal Balance" or "Due and Payable Amount", as applicable, of the Underlying Obligation which is supported by a Qualifying Guarantee.

For the avoidance of doubt the provisions of this paragraph (ii) apply in respect of the definitions of Obligation and Valuation Obligation as the context admits.

“Valuation Time” means the time specified as such in the relevant Issue Terms or, if no time is so specified, 11.00 a.m. in the principal trading market for the Valuation Obligation.

“Voting Shares” shall mean those shares or other interests that have the power to elect the board of directors or similar governing body of an entity.

“Weighted Average Quotation” means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Reference Obligation with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount (but, if a Minimum Quotation Amount is specified in the relevant Issue Terms, of a size equal to the Minimum Quotation Amount or, if quotations of a size equal to the Minimum Quotation Amount are not available, quotations as near in size as practicable to the Minimum Quotation Amount) that in aggregate are approximately equal to the Quotation Amount.

1.3. *Redemption of Credit-Linked Notes*

Where the Notes are First-to-Default Credit-Linked Notes and Maturity Credit Event Redemption is not specified as applying in the relevant Issue Terms, if Conditions to Settlement are satisfied in relation to any of the specified Reference Entities, then the Notes will be redeemed in accordance with Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 below (*Cash Settlement*) below as applicable in relation only to the First Reference Entity (as defined in the definition of Conditions to Settlement).

Where the Notes are Portfolio Credit-Linked Notes or where Maturity Credit Event Redemption is specified as applying in the relevant Issue Terms, if the Conditions to Settlement are satisfied in relation to one or more of the specified Reference Entities then notwithstanding anything to the contrary in the Reference Item Conditions, no settlement in accordance with Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 (*Cash Settlement*) below, as applicable, will occur and, unless purchased and cancelled or otherwise redeemed early, each unit or principal amount of Credit-Linked Notes equal to the Calculation Amount will be redeemed by the Issuer at the relevant Final Redemption Amount determined as set out in Redemption Payout Condition 2 (*Redemption in respect of Credit-Linked Notes*) which will take into account the number of Reference Entities in respect of which Conditions to Settlement have been satisfied. For these purposes, other than as provided in Reference Item Condition 1.12 (*Credit Event Notice after Restructuring Credit Event*), the Conditions to Settlement may only be satisfied once in respect of each Reference Entity and it should be noted that specific provisions apply for the purposes of determining any Successor as set out in the definition of “Successor” in Reference Item Condition 1.2 (*Definitions*).

For the avoidance of doubt the provisions of Reference Item Condition 1.6 (*Repudiation/Moratorium Extension*), 1.7 (*Grace Period Extension*), 1.8 (*Credit Derivatives Determinations Committee Extension*) and 1.9 (*Maturity Date Extension*) will each apply to First-to-Default Credit-Linked Notes, and Portfolio Credit-Linked Notes meaning that the Maturity Date may be delayed beyond the Scheduled Termination Notice Date in certain circumstances.

1.4. *Auction Settlement*

If Conditions to Settlement are satisfied then, where Auction Settlement is specified as the applicable Settlement Method in the relevant Issue Terms and a Credit Event Determination Date occurs on or prior to the Auction Final Price Determination Date, the Issuer shall give notice (such notice an “**Auction Settlement Notice**”) to the Holders in accordance with General Condition 15 (*Notices*) and, subject to any adjustment in accordance with Reference Item Condition 1.12 (*Credit Event Notice after Restructuring Credit Event*), redeem, all but not some only of the Notes and pay in respect of each unit or nominal amount of Notes equal to the Calculation Amount, the Credit-Linked Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

Unless settlement has occurred in accordance with the above paragraph, if (a) an Auction Cancellation Date occurs, (b) a No Auction Announcement Date occurs (and in circumstances where such No Auction Announcement Date occurs pursuant to paragraph (b) of the definition of No Auction Announcement Date, the Issuer has not exercised the Movement Option), (c) ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved, following a Credit Event Resolution Request Date, not to determine the matters described in paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date, (d) a Credit Event Determination Date was determined pursuant to paragraph (a) of the definition of Credit Event Determination Date and no Credit Event Resolution Request Date has occurred on or prior to the date falling three Business Days after such Credit Event Determination Date or (e) a Credit Event Determination Date was determined pursuant to paragraph (b)(ii)(1) or (b)(ii)(2) of the definition of Credit Event Determination Date, then the Issuer shall redeem the Notes in accordance with Reference Item Condition 1.5 below (*Cash Settlement*) below.

If Conditions to Settlement are satisfied and the Notes become redeemable in accordance with this Reference Item Condition 1.4 (Auction Settlement), upon payment of the Credit-Linked Redemption Amounts in respect of the Notes, the Issuer shall have discharged its obligations in respect of the

Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit-Linked Redemption Amount may be less than the Calculation Amount of a Note. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer.

1.5. *Cash Settlement*

If a Credit Event occurs and Conditions to Settlement are satisfied then where Cash Settlement is specified as the applicable Settlement Method in the relevant Issue Terms or if settlement pursuant to this Reference Item Condition 1.5 (*Cash Settlement*) applies pursuant to the terms of Reference Item Condition 1.4 (*Auction Settlement*) above, the Issuer shall give notice (such notice a “**Cash Settlement Notice**”) to the Noteholders in accordance with General Condition 15 (*Notices*) and redeem, all but not some only of the Notes, and pay in respect of each unit or nominal amount of Credit-Linked Notes equal to the Calculation Amount, the Credit Linked Redemption Amount in the relevant Specified Currency on the Credit Event Redemption Date.

If Conditions to Settlement are satisfied and the Notes become redeemable in accordance with this Reference Item Condition 1.5 (Cash Settlement), upon payment of the Credit-Linked Redemption Amount in respect of the Notes, the Issuer shall have discharged its obligations in respect of the Notes and shall have no other liability or obligation whatsoever in respect thereof. The Credit-Linked Redemption Amount may be less than the Calculation Amount of a Note. Any shortfall shall be borne by the Holders and no liability shall attach to the Issuer.

1.6. *Repudiation/Moratorium Extension*

Where Repudiation/Moratorium is specified as a Credit Event in the relevant Issue Terms, the provisions of this Reference Item Condition 1.6 (*Repudiation/Moratorium Extension*) shall apply.

Where in respect of any Reference Entity the Conditions to Settlement have not been satisfied on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) but the Repudiation/Moratorium Extension Condition has been satisfied on or prior to the Scheduled Termination Notice Date or, if Reference Item Condition 1.9 (*Maturity Date Extension*) applies, the Postponed Maturity Date (as defined in Reference Item Condition 1.9 (*Maturity Date Extension*)) and the Repudiation/Moratorium Evaluation Date in respect of such Potential Repudiation Moratorium will fall after the Scheduled Termination Notice Date, then the Calculation Agent may notify the Holders in accordance with General Condition 15 (*Notices*) that a Potential Repudiation/Moratorium has occurred and:

- (a) where a Repudiation/Moratorium has not occurred on or prior to the Repudiation/Moratorium Evaluation Date each unit or nominal amount of Notes equal to the Calculation Amount will be redeemed by the Issuer by payment of the Final Redemption Amount on the second Business Day following the Repudiation/Moratorium Evaluation Date;
- (b) where a Repudiation/Moratorium has occurred on or prior to the Repudiation/Moratorium Evaluation Date and Conditions to Settlement are satisfied, the provisions of Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 (*Cash Settlement*) or, in the case of Portfolio Credit-Linked Notes, Reference Item Condition 1.3 (*Redemption of Credit-Linked Notes*), as applicable, shall apply; and
- (c) if "Additional Interest Amount" is specified as applicable in the relevant Issue Terms, in the case of interest bearing Notes, the Issuer shall pay an Additional Interest Amount in respect of each Note and the Additional Amount Period ending on (but excluding) the Repudiation/Moratorium Evaluation Date, but, in each case, shall only be obliged to make such payments of interest on the second Business Day following the Repudiation/Moratorium Evaluation Date.

1.7. *Grace Period Extension*

If "Grace Period Extension" is specified as applicable in the relevant Issue Terms, the provisions of this Reference Item Condition 1.7 (*Grace Period Extension*) shall apply.

Where in respect of any Reference Entity the Conditions to Settlement have not been satisfied on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) but a Potential Failure to Pay has occurred with respect to one or more Obligation(s) in respect of which a Grace Period is applicable on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) (and such Grace Period(s) is/are continuing as at the Scheduled Termination Notice Date), then the Calculation Agent may notify the Holders in accordance with General Condition 15 (*Notices*) that a Potential Failure to Pay has occurred and:

- (a) where a Failure to Pay has not occurred on or prior to the Grace Period Extension Date each unit or nominal amount of Notes equal to the Calculation Amount will be redeemed by the Issuer by payment of the Final Redemption Amount on the second Business Day following the Grace Period Extension Date;
- (b) where a Failure to Pay has occurred on or prior to the Grace Period Extension Date and Conditions to Settlement are satisfied, the provisions of Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 (*Cash Settlement*) or, in the case of Portfolio Credit-Linked Notes, Reference Item Condition 1.3 (*Redemption of Credit-Linked Notes*), as applicable, shall apply to the Notes; and
- (c) if "Additional Interest Amount" is specified as applicable in the relevant Issue Terms, in the case of interest bearing Notes, the Issuer shall pay an Additional Interest Amount in respect of each Note and the Additional Amount Period ending on (but excluding) the Grace Period Extension Date, but, in each case, shall only be obliged to make such payments of interest on the second Business Day following the Grace Period Extension Date.

1.8. *Credit Derivatives Determinations Committee Extension*

If a Credit Event Resolution Request Date or a Potential Credit Event has occurred and the Credit Derivatives Determinations Committee has not made its determination on or prior to the Scheduled Termination Notice Date (determined by reference to Greenwich Mean Time (or, if the Transaction Type of the relevant Reference Entity is Japan Corporate or Japan Sovereign (as such terms are defined in the 2005 Matrix Supplement), Tokyo time)) then the Calculation Agent may notify Holders in accordance with General Condition 15 (*Notices*) that the Maturity Date has been postponed to a date (the "DC Cut-off Date") being the earliest of: (a) 15 Business Days following the date on which the Credit Derivatives Determinations Committee Resolves that a Credit Event has occurred; (b) the second Business Day following the date on which the Credit Derivatives Determinations Committee Resolves that a Credit Event has not occurred and (c) 15 Business Days following the date on which ISDA publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to determine whether a Credit Event has occurred and:

- (a) where a Credit Event has not occurred on or prior to the DC Cut-off Date each unit or nominal amount of Notes equal to the Calculation Amount will be redeemed by the Issuer by payment of the Final Redemption Amount on the second Business Day following the DC Cut-off Date;
- (b) where a Credit Event has occurred on or prior to the DC Cut-off Date and Conditions to Settlement are satisfied, the provisions of Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 (*Cash Settlement*) or in the case of Portfolio Credit-Linked

Notes, Reference Item Condition 1.3 (*Redemption of Credit-Linked Notes*), as applicable, shall apply to the Notes; and

- (c) if "Additional Interest Amount" is specified as applicable in the relevant Issue Terms, in the case of interest bearing Notes, the Issuer shall pay an Additional Interest Amount in respect of each Note and the Additional Amount Period ending on (but excluding) the DC Cut-off Date, but, in each case, shall only be obliged to make such payments of interest on the second Business Day following the DC Cut-off Date.

1.9. *Maturity Date Extension*

Without prejudice to Reference Item Condition 1.10 (*Settlement Suspension*), if in respect of any Reference Entity:

- (a) on (i) the Scheduled Termination Notice Date, (ii) if applicable, the Repudiation/Moratorium Evaluation Date, (iii) if Grace Period Extension is specified as applying in the relevant Issue Terms, the Grace Period Extension Date, (iv) if applicable, the DC Cut-off Date or (v) the last day of the Notice Delivery Period, as the case may be, Conditions to Settlement have not been satisfied but a Credit Event may have occurred; and the Calculation Agent shall use its reasonable discretion to determine whether a Credit Event has occurred; or
- (b) on the Scheduled Termination Notice Date a Potential Repudiation/Moratorium may have occurred; and the Calculation Agent shall use its reasonable discretion to determine whether a Potential Repudiation/Moratorium has occurred,

then, the Calculation Agent may notify the Holders in accordance with General Condition 15 (*Notices*) that the Maturity Date, the Scheduled Termination Notice Date, the Repudiation/Moratorium Evaluation Date, the Grace Period Extension Date and/or the DC Cut-off Date, as the case may be, has been postponed to a date (such date the "**Postponed Maturity Date**") specified in such notice falling 15 Business Days after the previous Scheduled Termination Notice Date, Repudiation/Moratorium Evaluation Date or Grace Period Extension Date or DC Cut-off Date, as the case may be, or if such day is not a Business Day the immediately succeeding Business Day and:

- (i) in the case of Reference Item Condition 1.9(a) (*Maturity Date Extension*), where the Conditions to Settlement are not satisfied on or prior to the Postponed Maturity Date, or, in the case of Reference Item Condition 1.9(b) (*Maturity Date Extension*), the Repudiation/Moratorium Extension Condition is not satisfied on or prior to the Postponed Maturity Date, subject as provided below each unit or nominal amount of Notes equal to the Calculation Amount will be redeemed by the Issuer by payment of the Final Redemption Amount on the second Business Day following the Postponed Maturity Date; and
- (ii) where:
 - (A) in the case of Reference Item Condition 1.9(a) (*Maturity Date Extension*), the Conditions to Settlement are satisfied on or prior to the Postponed Maturity Date, the provisions of Reference Item Condition 1.4 (*Auction Settlement*) or Reference Item Condition 1.5 (*Cash Settlement*) or, in the case of Portfolio Credit-Linked Notes, Reference Item Condition 1.3 (*Redemption of Credit-Linked Notes*), as applicable, shall apply to the Notes; or
 - (B) in the case of Reference Item Condition 1.9(b) (*Maturity Date Extension*) the Repudiation/Moratorium Extension Condition is satisfied on or prior to the Postponed Maturity Date, the provisions of Reference Item Condition 1.6 (*Repudiation/Moratorium Extension*) shall apply to the Notes; and

- (iii) if "Additional Interest Amount" is specified as applicable in the relevant Issue Terms, in the case of interest bearing Notes (other than where the provisions of Reference Item Condition 1.6 (*Repudiation/Moratorium Extension*) shall apply to the Notes), the Issuer shall pay an Additional Interest Amount in respect of each Note and the Additional Amount Period ending on (but excluding) the Postponed Maturity Date, but, in each case, shall only be obliged to make such payments of interest on the second Business Day following the Postponed Maturity Date.

1.10. *Settlement Suspension*

- (a) Without prejudice to Reference Item Condition 1.9 (*Maturity Date Extension*), in respect of any Reference Entity if, following the determination of a Credit Event Determination Date in accordance with sub-paragraph (a) of the definition of Credit Event Determination Date but prior to the Maturity Date, ISDA publicly announces that the conditions to convening a Credit Derivatives Determinations Committee to Resolve the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date are satisfied in accordance with the Rules, the Calculation Agent may determine that the applicable timing requirements of these Reference Item Conditions and the definitions of Credit Event Redemption Date, Valuation Date and any other Reference Item Condition as determined by the Calculation Agent in its reasonable discretion, shall toll and be suspended and remain suspended (such period of suspension, a Suspension Period) until such time as ISDA subsequently publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved (a) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (b) not to determine such matters. Once ISDA has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved (i) the matters described in sub-paragraphs (a) and (b) of the definition of Credit Event Resolution Request Date or (ii) not to determine such matters, the relevant timing requirements of the Reference Item Conditions that have previously tolled or been suspended shall resume on the Business Day following such public announcement by ISDA.
- (b) In the event of any such Suspension Period, the Calculation Agent may make (i) such consequential or other adjustment(s) or determination(s) to or in relation to the General Conditions and these Reference Item Conditions as may be desirable or required either during or following any relevant Suspension Period to account for or reflect such suspension and (ii) determine the effective date of such adjustment(s) or determination(s).
- (c) In the case of interest bearing Notes, the Issuer shall be obliged to pay interest calculated in accordance with General Condition 5 (*Interest*) and Payout Schedule 1 (*Interest*) provided that if an Interest Payment Date falls in a Suspension Period, such Interest Payment Date will be deferred until such date as determined by the Calculation Agent falling no earlier than the first Business Day and no later than the fifth Business Day following the end of the Suspension Period, all subject to the provisions of General Condition 5 (*Interest*) and Reference Item Conditions 1.6 (*Repudiation/Moratorium Extension*), 1.7 (*Grace Period Extension*) and 1.8 (*Credit Derivatives Determinations Committee Extension*).

1.11. *Redemption following a Merger Event*

If this Reference Item Condition 1.11 (*Redemption following a Merger Event*) is specified as applicable in the relevant Issue Terms, other than in the case of First to Default Credit-Linked Notes and Portfolio Credit-Linked Notes, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with General Condition 15 (*Interest*) and redeem the Notes at the Early Redemption Amount.

1.12. *Credit Event Notice after Restructuring Credit Event*

If this Reference Item Condition 1.12 (*Credit Event Notice after Restructuring Credit Event*) is specified as applicable in the relevant Issue Terms, then, notwithstanding anything to the contrary in the Terms and Conditions, upon the occurrence of a Restructuring with respect to a Series for which either "Restructuring Maturity Limitation and Fully Transferable Obligation Applicable" or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation Applicable" is specified as applicable in the relevant Issue Terms:

- (a) the Calculation Agent may deliver multiple Credit Event Notices with respect to such Restructuring, each such Credit Event Notice setting forth an amount (the Partial Trigger Amount) that may be less than the principal amount outstanding of each Note (or, in the case of Portfolio Credit-Linked Notes, the relevant, Reference Entity Notional Amount) immediately prior to the delivery of such Credit Event Notice. In such circumstances the Reference Item Conditions and related provisions shall be deemed to apply to the Partial Trigger Amount only;
- (b) other than in the case of Portfolio Credit-Linked Notes or Notes where Maturity Credit Event Redemption is specified as applying in the relevant Issue Terms, each relevant Note shall be redeemed in part (such redeemed part being equal to the Partial Trigger Amount) and on such partial redemption, the relevant Note or, if the Notes are represented by a Global Security, such Global Security, shall be endorsed to reflect such part redemption.

For the avoidance of doubt (i) the principal amount of each such Note not so redeemed in part shall remain outstanding and interest shall accrue on the Calculation Amount of such Note as provided in General Condition 5 (*Interest*) and Payout Schedule 1 (*Interest*) or, if applicable, the Adjusted Calculation Amount (adjusted in such manner as the Calculation Agent determines to be appropriate), (ii) the Reference Item Conditions and related provisions shall apply to such Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the Restructuring Credit Event and (iii) if, following a Restructuring Credit Event, different Credit Event Determination Dates have been determined with respect to different portions of amounts payable to Holders under the relevant Series, the Calculation Agent will (1) determine such adjustment(s) to these Reference Item Conditions as may be required to achieve as far as practicable the same economic effect as if each such portion was a separate series or otherwise reflect or account for the effect of the above provisions of this Reference Item Condition 1.12 and (2) the effective date of such adjustment(s).

In addition, in the case of First-to-Default Credit-Linked Notes, once the Conditions to Settlement have been satisfied in respect of the First Reference Entity, where the Credit Event is a Restructuring Credit Event, no further Credit Event Notices may be delivered in respect of any other Reference Entity.

1.13. *Provisions relating to Multiple Holder Obligation*

If this Reference Item Condition 1.13 is specified as applicable in the relevant Issue Terms, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a) to (e) of the definition of "Restructuring" in Reference Item Condition 1.2 (*Definitions*) shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

1.14. *Provisions taken from the ISDA supplement titled "Additional Provisions for Physically Settled Default Swaps - Monoline Insurer as Reference Entity (January 2005)"*

If this Reference Item Condition 1.14 is specified as applicable in the relevant Issue Terms, the following provisions will apply:

- (a) Obligation and Valuation Obligation. Paragraph (a) of the definition of "Obligation" in Reference Item Condition 1.2 (*Definitions*) and paragraph (a) of the definition of "Valuation

Obligation" in Reference Item Condition 1.2 (*Definitions*) are hereby amended by adding "or Qualifying Policy" after "or as provider of a Qualifying Affiliate Guarantee".

- (b) Interpretation of Provisions. In the event that an Obligation or a Valuation Obligation is a Qualifying Policy, paragraph (ii) of the definition of "Valuation Obligation" in Reference Item Condition 1.2 (*Definitions*) will apply, with references to the "Qualifying Guarantee", the "Underlying Obligation" and the "Underlying Obligor" deemed to include the "Qualifying Policy", the "Insured Instrument" and the "Insured Obligor", respectively, except that:
- (i) the Obligation Category Borrowed Money and the Obligation Category and Valuation Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Valuation Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligor" as used in these Reference Item Conditions in respect of such an Insured Instrument shall be construed accordingly;
 - (ii) references in the definitions of "Assignable Loan" and "Consent Required Loan" to "the guarantor" and "guaranteeing" shall be deemed to include "the insurer" and "insuring", respectively;
 - (iii) neither the Qualifying Policy nor the Insured Instrument must satisfy on the relevant date the Valuation Obligation Characteristic of Accelerated or Matured, whether or not that characteristic is otherwise specified as applicable in the relevant Issue Terms;
 - (iv) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Valuation Obligation Characteristics are specified in the relevant Issue Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument; and
 - (v) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "Outstanding Principal Balance" shall mean the outstanding Certificate Balance and "maturity", as such term is used in the Maximum Maturity Valuation Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

For the avoidance of doubt, if Reference Item Condition 1.14 is specified as applying in the relevant Issue Terms, the amendments to paragraph (ii) of the definition of "Valuation Obligation" in Reference Item Condition 1.2 (*Definitions*) provided in Reference Item Condition 1.15 (*Supplement to provisions relating to Qualifying Guarantee and Underlying Obligation*) shall not be construed to apply to Qualifying Policies and Insured Instruments.

- (c) Not Contingent. An Insured Instrument will not be regarded as failing to satisfy the Not Contingent Valuation Obligation Characteristic solely because such Insured Instrument is subject to provisions limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument, provided that such provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction. By specifying that this Reference Item Condition 1.14 is applicable, no inference should be

made as to the interpretation of the "Not Contingent" Valuation Obligation Characteristic in the context of limited recourse or similar terms applicable to Valuation Obligations other than Qualifying Policies.

- (d) Deliver. For the purposes of the definition of "Deliver" in Reference Item Condition 1.2 (*Definitions*), Deliver with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) Provisions for Determining a Successor. The paragraph commencing "For the purposes of this definition of "Successor" ..." in the definition of "Successor" in Reference Item Condition 1.2 (*Definitions*) is hereby amended by adding "or insurer" after "or guarantor".
- (f) Substitute Reference Obligation. The first paragraph of the definition of "Substitute Reference Obligation" and paragraph (b) thereof in Reference Item Condition 1.2 is hereby amended by adding "or Qualifying Policy" after "or as provider of a Qualifying Affiliate Guarantee". For the purposes of sub-paragraph (a)(ii)(B) of the definition of "Substitute Reference Obligation", references to "the Qualifying Guarantee" and the "Underlying Obligation" shall be deemed to include "the Qualifying Policy" and "the Insured Instrument" respectively.
- (g) Restructuring
 - (i) With respect to an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest or a Qualifying Policy with respect thereto, paragraphs (a) to (e) inclusive of the definition of "Restructuring" in Reference Item Condition 1.2 (*Definitions*) are hereby amended to read as follows:
 - "(i) a reduction in the rate or amount or the Instrument Payments in paragraph (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (ii) a reduction in the amount of the Instrument Payments described in paragraph (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy;
 - (iii) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in paragraph (A)(x) of the definition thereof or (y) the payment of the Instrument Payments described in paragraph (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
 - (iv) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or

(v) any change in the currency or composition of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency which is not a Permitted Currency."

(ii) Paragraph (iii) of the definition of "Restructuring" in Reference Item Condition 1.2 (*Definitions*) is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" after "Reference Entity".

(iii) The definition of "Restructuring" in Reference Item Condition 1.2 (*Definitions*) is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of the definition of "Restructuring" in Reference Item Condition 1.2 (*Definitions*) and if Reference Item Condition 1.13 (*Provisions relating to Multiple Holder Obligation*) is specified as applying in the relevant Issue Terms, for the purposes of the Reference Item Conditions the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in the definition of "Restructuring" shall be deemed to refer to the Insured Obligor and the references to the Reference Entity in paragraphs (e)(i) to (iii) inclusive in the definition of "Restructuring" shall continue to refer to the Reference Entity."

(h) Fully Transferable Obligation and Conditionally Transferable Obligation. In the event that "Restructuring Maturity Limitation and Fully Transferable Obligation" and/or "Modified Restructuring Maturity Limitation and Conditionally Transferable Obligation" is specified as applying in the relevant Issue Terms and a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of "Conditionally Transferable Obligation" to the "guarantor" and "guaranteeing" shall be deemed to include "the "insurer" and "insuring" respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.

(i) Other Provisions. For purposes of paragraph (d)(ii) of the definition of "Valuation Obligation" and the definitions of "Credit Event" and "Deliver" in Reference Item Condition 1.2 (*Definitions*), references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor" respectively.

(j) Additional Definitions.

Qualifying Policy means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this Reference Item Condition 1.14) (the "**Insured Instrument**") for which another party (including a special purpose entity or trust) is the obligor (the "**Insured Obligor**"). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a

result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments)

Instrument Payments means (A) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (B) in the case of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (A) and (B) (1) determined without regard to limited recourse or reduction provisions of the type described in Reference Item Condition 1.14(c) above and (2) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

Certificate Balance means, in the case of an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

1.15. *Supplement to provisions relating to Qualifying Guarantee and Underlying Obligation*

If this Reference Item Condition 1.15 is specified as applicable in the relevant Issue Terms, these Reference Item Conditions shall be amended by:

- (a) the deletion of the definition of "Downstream Affiliate" and the substitution of the following therefor:

"Downstream Affiliate means an entity whose outstanding Voting Shares were, at the date of issuance of the Qualifying Guarantee, more than 50 per cent. owned, directly or indirectly, by the Reference Entity.";

- (b) the deletion of paragraphs (ii) (iv)(2) and (ii)(iv)(3) of the definition of "Valuation Obligation", the substitution of the following therefor and the re-numbering of the remaining paragraphs accordingly:

"(ii) For purposes of the application of the Obligation Characteristics or the Valuation Obligation Characteristics, both the Qualifying Guarantee and the Underlying Obligation must satisfy on the relevant date each of the applicable Obligation Characteristics or Valuation Obligation Characteristics, if any, specified in the relevant Issue Terms from the following list: Not Subordinated, Credit Linked Specified Currency, Not Sovereign Lender, Not Domestic Currency and Not Domestic Law. For these purposes, unless otherwise specified in the relevant Issue Terms, (A) the lawful currency of any of Canada, Japan, Switzerland, the United Kingdom or the United States of America or the euro shall not be a Domestic Currency and (B) the laws of England and the laws of the State of New York shall not be a Domestic Law."; and

- (c) the deletion of the definition of "Qualifying Guarantee" and the substitution of the following therefor:

"**Qualifying Guarantee** means an arrangement evidenced by a written instrument pursuant to which a Reference Entity irrevocably agrees (by guarantee of payment or equivalent legal arrangement) to pay all amounts due under an obligation (the "**Underlying Obligation**") for which another party is the obligor (the "**Underlying Obligor**"). Qualifying Guarantees shall exclude any arrangement (i) structured as a surety bond, financial guarantee insurance

policy, letter of credit or equivalent legal arrangement or (ii) pursuant to the terms of which the payment obligations of the Reference Entity can be discharged, reduced or otherwise altered or assigned (other than by operation law) as a result of the occurrence or non-occurrence of an event or circumstance (other than payment). The benefit of a Qualifying Guarantee must be capable of being Delivered together with the Delivery of the Underlying Obligation."

- (d) Reference Item Condition 1.13 (*Provisions relating to Multiple Holder Obligation*) shall be amended by the insertion of the following at the end of the first paragraph thereof:

"provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in (ii) of the definition of "Multiple Holder Obligation" below".

1.16. *Provisions taken from the ISDA supplement titled Additional Provisions for LPN Reference Entities (published on 3rd October, 2006)*

If this Reference Item Condition 1.16 (*Provisions taken from the ISDA supplement titled Additional Provisions for LPN Reference Entities (published on 3rd October, 2006)*) is specified as applicable in the relevant Issue Terms, notwithstanding anything to the contrary in the Reference Item Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Reference Item Conditions including, but not limited to the definition of "Obligation" in Reference Item Condition 1.2 (*Definitions*), and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Valuation Obligation notwithstanding anything to the contrary in the Reference Item Conditions including, but not limited to the definition of "Valuation Obligation" in Reference Item Condition 1.2 (*Definitions*) and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the outstanding principal balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Valuation Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of Reference Obligation shall be deleted and the following substituted therefor:

"**Reference Obligation** means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the relevant Issue Terms or set forth on the relevant LPN Reference Obligations List (each a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, which list is as of the Issue Date available at <http://www.markit.com/marketing/services.php>, any Additional LPN and each Additional Obligation."; and

- (e) the following additional definitions shall apply:

Additional LPN means any bond issued in the form of a loan participation note (a "**LPN**") by an entity (the "**LPN Issuer**") for the sole purpose of providing funds for the LPN Issuer

to (a) finance a loan to the Reference Entity (the “**Underlying Loan**”) or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the “**Underlying Finance Instrument**”), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN, the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN, the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics (ii) the LPN satisfies the following Valuation Obligation Characteristics: Transferable, Not Bearer, Credit Linked Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

Additional Obligation means each of the obligations listed as an Additional Obligation of the Reference Entity in the relevant Issue Terms or set forth on the relevant LPN Reference Obligations List (each a “**Markit Published LPN Reference Obligation**”), as published by Markit Group Limited, or any successor thereto, as of the Trade Date, which list is currently available at <http://www.markit.com/marketing/services.php>.

First Ranking Interest means a charge, security interest (or other type of interest having similar effect) (an “**Interest**”), which is expressed as being "first ranking", "first priority", or similar (“**First Ranking**”) in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

LPN Reference Obligation means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the issuer to finance a loan to the Reference Entity. For the purposes of the Reference Item Conditions each such loan shall be an Underlying Loan.

1.17. *Calculation Agent*

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to these Reference Item Conditions and related provisions shall (in the absence of manifest error) be final and binding on the Issuer and the Noteholders and shall be without liability on the part of the Calculation Agent and without the Calculation Agent being obliged to consider the interests of the Issuer or the Noteholders. In performing its duties pursuant to these Reference Item Conditions, the Calculation Agent shall act in its reasonable discretion. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under these Reference Item Conditions including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and neither the Calculation Agent nor the Issuer shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

1.18. *Amendment of Reference Item Conditions in accordance with Market Convention*

The Calculation Agent may from time to time amend any provision of these Reference Item Conditions to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to the settlement of credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent determines in a commercially reasonable manner are necessary or desirable to reflect or govern market practice for credit derivative transactions and/or reflect hedging arrangements of the Issuer. Any amendment made in accordance with this Reference Item Condition 1.18 shall be notified to the Noteholders in accordance with General Condition 15 (*Notices*).

**REFERENCE ITEM SCHEDULE 2
INFLATION-LINKED NOTES**

2. **Inflation-Linked Notes**

2.1. *Applicability*

This Reference Item Schedule 2 (*Inflation-Linked Notes*) is applicable only in relation to Notes which are specified to be “Inflation-Linked Interest Notes” and/or “Inflation-Linked Redemption Notes” (each, “**Inflation-Linked Notes**”) in the relevant Issue Terms.

2.2. *Adjustments*

(i) Delay in Publication

(a) If the Calculation Agent determines, in respect of an Inflation Index and a Payment Date, that the level of such Inflation Index for a Reference Month (a “**Reference Level**”) which is relevant to the calculation of a payment under the Notes in respect of such Payment Date (a “**Relevant Level**”) has not been published or announced by the Relevant Determination Date for such Payment Date, the Calculation Agent shall determine the level of such Inflation Index for such Reference Month (a “**Substitute Inflation Index Level**”) in place of such Relevant Level by using the following methodology:

(A) if applicable, the Calculation Agent will take the same action to determine the Substitute Inflation Index Level for the Affected Payment Date as that taken by the calculation agent pursuant to the terms and conditions of any relevant Related Bond; or

(B) if there is no Fallback Bond or if (i) above does not result in a Substitute Inflation Index Level for the Affected Payment Date for any reason, then the Calculation Agent shall determine the Substitute Inflation Index Level by reference to the following formula:

$$\text{(Substitute Inflation Index Level = Base Level x (Latest Level/Reference Level))}$$

or, in respect of Exempt Notes, otherwise in accordance with any formula or provisions specified in the relevant Pricing Supplement.

where:

“**Base Level**” means, in respect of an Inflation Index, the level of such Inflation Index (excluding any “flash” estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Inflation Index Level is being determined.

“**Latest Level**” means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any “flash” estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Inflation Index Level is being determined.

“**Reference Level**” means, in respect of an Inflation Index, the level of such Inflation Index (excluding any “flash” estimates) published or announced by the

relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month referred to in the definition of “Latest Level” above.

The Issuer shall promptly give notice to the Noteholders in accordance with General Condition 15 (*Notices*) of any Substitute Inflation Index Level.

- (b) If a Relevant Level in respect of a Payment Date is published or announced at any time after the Relevant Determination Date for such Payment Date, such Relevant Level will not be used in any calculations. The Substitute Inflation Index Level determined pursuant to Reference Item Condition 2.2(i)(a) (*Delay in Publication*) above will be the definitive level for that Reference Month.

(ii) Cessation of Publication

If the Calculation Agent determines that the level of an Inflation Index has not been published or announced for two consecutive months or such other period as is specified in the relevant Issue Terms (the “Period of Cessation of Publication”) and/or the relevant Inflation Index Sponsor announces that it will no longer continue to publish or announce such Inflation Index then the Calculation Agent shall determine a successor inflation index (a “Successor Inflation Index”) (in lieu of the relevant previously applicable Inflation Index) for the purposes of the Notes by using the following methodology:

- (a) if at any time (other than after an Inflation Index Cancellation) a successor inflation index has been designated in respect of an Inflation Index by the calculation agent pursuant to the terms and conditions of any relevant Related Bond, such successor inflation index shall be designated the “**Successor Inflation Index**” for such Inflation Index for the purposes of all subsequent Payment Dates, notwithstanding that any other Successor Inflation Index may previously have been determined pursuant to sub-paragraphs (b) or (c) below;
- (b) if a Successor Inflation Index is not determined pursuant to paragraph (a) above and no Inflation Index Cancellation has occurred and a notice has been given or an announcement has been made by the relevant Inflation Index Sponsor specifying that such Inflation Index will be superseded by a replacement inflation index specified by the relevant Inflation Index Sponsor and the Calculation Agent determines that such replacement Inflation Index is calculated and announced using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement inflation index shall be the “**Successor Inflation Index**” for such Inflation Index for the purposes of the Notes from the date that such Successor Inflation Index comes into effect; or
- (c) if a Successor Inflation Index is not determined pursuant to paragraphs (a) or (b) above by the Relevant Determination Date in respect of the next succeeding Affected Payment Date, the Calculation Agent will determine an appropriate alternative inflation index for such Affected Payment Date and such inflation index will be deemed to be the “**Successor Inflation Index**” for such Inflation Index.

If a Successor Inflation Index is determined in accordance with the above, the Calculation Agent may make such adjustment(s) to the terms of the Terms and Conditions and/or the relevant Issue Terms as the Calculation Agent determines necessary or appropriate to account for such replacement and determine the effective date(s) of the adjustment(s) to the Notes.

If the Calculation Agent determines that there is no appropriate alternative inflation index, there will be deemed to be no Successor Inflation Index for such Inflation Index (an “Inflation Index Cancellation”) and, on giving notice to Noteholders in accordance with General Condition 15 (*Notices*), the Issuer shall redeem all, but not some only, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.

Notice of the determination of a Successor Inflation Index and the date from which such inflation index becomes the Successor Inflation Index and any relevant adjustment(s) to the terms of the Terms and Conditions and/or the relevant Issue Terms or any Inflation Index Cancellation will be given to Noteholders by the Issuer in accordance with General Condition 15 (*Notices*).

(iii) Revised Inflation Index Levels and Manifest Error in Publication

- (a) In relation to an Inflation Index, either (i) the first publication and announcement of a level of such Inflation Index for a Reference Month shall be final and conclusive and later revisions to the level for such Reference Month will not be used in any calculations (“**No Revision**”) or (ii) the first publication or announcement of a level of such Inflation Index, or, if revised, any subsequent revisions of such level for a Reference Month shall be final and conclusive, PROVIDED THAT such revisions are published or announced up to and including the relevant Revision Cut-off Date (“**Revision**”), as specified in the relevant Issue Terms PROVIDED THAT if neither “No Revision” nor “Revision” is specified in the relevant Issue Terms, “No Revision” shall be deemed to apply for such Inflation Index.
- (b) If, in respect of a Payment Date and a Relevant Level in respect of such Payment Date, the Calculation Agent determines that the relevant Inflation Index Sponsor has corrected such Relevant Level to remedy a manifest error in its original publication, prior to the earlier of thirty days following publication of such Relevant Level and the Manifest Error Cut-off Date for such Payment Date the Calculation Agent may use such corrected Relevant Level to calculate any payments under the Notes in respect of such Payment Date. Corrections published on or after the earlier of thirty days following publication of such Relevant Level and the Manifest Error Cut-off Date for such Payment Date will be disregarded by the Calculation Agent for the purposes of determining any payments under the Notes.

(iv) Rebasing

If the Calculation Agent determines that an Inflation Index has been or will be rebased at any time, such Inflation Index as so rebased (the “**Rebased Inflation Index**”) will be used for purposes of determining any Relevant Level in respect of such Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make (A) such adjustments as are made by the calculation agent pursuant to the terms and conditions of any relevant Related Bond to the levels of such Rebased Inflation Index so that such Rebased Inflation Index levels reflect the same rate of inflation as the Inflation Index before it was rebased and/or (B) if there is no Related Bond, the Calculation Agent shall make such adjustments to the levels of such Rebased Inflation Index so that such Rebased Inflation Index levels reflect the same rate of inflation as the relevant Inflation Index before it was rebased and, in each case, the Issuer may make such adjustment(s) to the terms of the Terms and Conditions and/or the relevant Issue Terms as the Calculation Agent determines necessary or appropriate to account for such rebasing and determine the effective date of the adjustment(s) to the Notes.

Notice of any adjustment, early redemption or determination pursuant to this Reference Item Condition 2.2(iv) shall be given to Noteholders in accordance with General Condition 15 (*Notices*).

(v) Material Modification Prior to Payment Date

If, on or prior to the Relevant Determination Date in respect of any Payment Date, an Inflation Index Sponsor announces that it will make a material change to an Inflation Index, the Calculation Agent shall (A) make appropriate adjustment(s) to the terms of the Terms and Conditions and/or the relevant Issue Terms, consistent with any adjustments made to any relevant Related Bond as the Calculation Agent determines necessary or appropriate to account for such change to such Inflation Index and determine the effective date(s) of the adjustment(s) to the Notes, or (B) if there is no relevant Related Bond make only those adjustments to the Terms and Conditions and/or the relevant Issue Terms as the Calculation Agent determines necessary for the modified Inflation Index to continue as an Inflation Index.

Notice of any adjustment, early redemption or determination pursuant to this Reference Item Condition 2.2(v) shall be given to Noteholders in accordance with General Condition 15 (*Notices*).

2.3. *Definitions*

“**Affected Payment Date**” means each Payment Date in respect of which an Inflation Index has not been published or announced by the Relevant Determination Date for such Payment Date.

“**End Date**” means, in respect of a Fallback Bond, the date specified for such Fallback Bond in the relevant Issue Terms.

“**Fallback Bond**” means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the same day as the End Date as specified in the relevant Issue Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

“**Index Sponsor**” means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index.

“**Inflation Index**” means the inflation index specified in the relevant Issue Terms or any Successor Inflation Index as nominated pursuant to this Reference Item Schedule 2 (*Inflation-Linked Notes*).

“**Manifest Error Cut-off Date**” means, in respect of a Payment Date, two Business Days prior to such Payment Date, unless otherwise specified in the relevant Issue Terms.

“**Payment Date**” means each date specified as such in the relevant Issue Terms or if none is so specified, each Interest Payment Date (if any) and/or the Maturity Date, as the case may be.

“**Reference Month**” means, in respect of an Inflation Index, the calendar month for which the level of such Inflation Index was reported, regardless of when this information is published or announced. If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month shall be the period for which the Inflation Index level was reported.

“**Related Bond**” means, in respect of an Inflation Index, the bond specified as such in the relevant Issue Terms or, if no bond is so specified, the Fallback Bond. If the relevant Related Bond specified in the relevant Issue Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If "Related Bond: Not Applicable" or no Related Bond is specified in the relevant Issue Terms and "Fallback Bond: Not Applicable" is specified in the relevant Issue Terms there will be no Related Bond. If a bond is selected as the Related Bond in the relevant Issue Terms and that bond redeems or matures before the relevant End Date, unless "Fallback Bond: Not Applicable" is specified in the relevant Issue Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

“**Relevant Determination Date**” means, in respect of a Payment Date, the day that is five Business Days prior to such Payment Date, or such other date as is specified in the relevant Issue Terms.

“**Revision Cut-off Date**” means, in respect of an Inflation Index and a level of such Inflation Index for a Reference Month, the day that is two Business Days prior to any relevant Payment Date or such other cut-off date as is specified in the relevant Issue Terms.

REFERENCE ITEM SCHEDULE 3
INDEX-LINKED NOTES

3. **Index-Linked Notes**

3.1. *Applicability*

This Reference Item Schedule 3 (*Index-Linked Notes*) is applicable only in relation to Notes which are specified to be “Index-Linked Interest Notes” and/or “Index-Linked Redemption Notes” (each, “**Index-Linked Notes**”) in the relevant Issue Terms.

3.2. *Adjustments to an Index*

- (i) If an Index is (i) not calculated and announced by or on behalf of the Index Sponsor but is calculated and announced by or on behalf of a successor to the Index Sponsor (a “**Successor Index Sponsor**”) acceptable to the Calculation Agent or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then, in each case, that index (the “**Successor Index**”) will be deemed to be the Index.
- (ii) If (i) on or prior to a Relevant Determination Date the relevant Index Sponsor or (if applicable) the Successor Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating an Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in Component Securities and capitalisation and other routine events) (an “**Index Modification**”) or permanently cancels that Index and no Successor Index exists (an “**Index Cancellation**”), or (ii) on any Relevant Determination Date the Index Sponsor or (if applicable) the Successor Index Sponsor fails to calculate and announce that Index (an “**Index Disruption**” and, together with an Index Modification and an Index Cancellation, each an “**Index Adjustment Event**”), then the Issuer may take the action described in (a) or (b) below:
 - (A) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Notes and, if so, to either (A) in relation to any Relevant Determination Date, calculate the relevant level using, in lieu of a published level for that Index, the level for that Index as at the relevant time on that Relevant Determination Date, as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to that change, failure or cancellation but using only those Component Securities that comprised that Index immediately prior to that Index Adjustment Event (other than those Component Securities that have since ceased to be listed on any relevant Exchange) or (B) substitute the Index with a replacement index using, in the determination of the Calculation Agent, the same or a substantially similar method of calculation as used in the calculation of the Index (the “**Substitute Index**”) and the Calculation Agent shall determine the adjustments, if any, to be made to the Terms and Conditions to account for such substitution; or
 - (B) give notice to the Holders in accordance with General Condition 15 (*Notices*) and redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.
- (iii) If “Correction of Index Levels” is specified as applicable in the relevant Issue Terms and the official closing level of an Index published on any Relevant Determination Date and which is utilised for any calculation or determination made in respect of the Notes is subsequently

corrected and the correction (the “**Corrected Index Level**”) is published by the Index Sponsor or (if applicable) the Successor Index Sponsor prior to the relevant Correction Cut-Off Date specified in the relevant Issue Terms, then such Corrected Index Level shall be deemed to be the relevant level for such Index at the relevant time on such Relevant Determination Date and the Calculation Agent shall use such Corrected Index Level in determining the relevant amount payable in respect of the Notes.

- (iv) Upon the occurrence of an Index Adjustment Event, the Issuer shall give notice as soon as practicable to Holders in accordance with General Condition 15 (*Notices*) giving details of the action proposed to be taken in relation thereto. Without limiting the obligation of the Issuer to give notice to the Holders as set forth in the preceding sentence, failure by the Issuer to notify the Holders of the occurrence of an Index Adjustment Event shall not affect the validity of the occurrence and effect of such Index Adjustment Event.

3.3. *Additional provisions relating to Commodity Indices*

If, in the case of Exempt Notes, an Index is specified in the relevant Pricing Supplement to be a “Commodity Index”, additional provisions relating thereto may be set out in the relevant Pricing Supplement.

3.4. *Definitions*

The following expressions have the following meanings in the context of Index-Linked Notes only:

“**Component Security**” means, in relation to an Index, each security, commodity, futures contract or other security or asset comprising such Index;

“**Disrupted Day**” means, in relation to an Index:

- (i) where such Index is not specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, any Scheduled Trading Day for such Index on which a relevant Exchange or any Related Exchange for such Index fails to open for trading during its regular trading session or on which a Market Disruption Event in respect of such Index has occurred; or
- (ii) where such Index is specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, any Scheduled Trading Day for such Index on which (a) the relevant Index Sponsor fails to publish the level of such Index, (b) any Related Exchange for such Index fails to open for trading during its regular trading session or (c) a Market Disruption Event in respect of such Index has occurred.

The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with General Condition 15 (*Notices*) of the occurrence of a Disrupted Day on any Relevant Determination Date that, but for the occurrence of a Disrupted Day, would have been a Relevant Determination Date. Without limiting the obligation of the Calculation Agent to give notice to the Holders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Holders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day;

“**Exchange**” means, in relation to an Index:

- (i) where such Index is not specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, each exchange or quotation system specified as such for such Index in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Component Securities comprising such Index has temporarily relocated (provided that the Calculation Agent has determined that

there is comparable liquidity relative to the Component Securities comprising such Index on such temporary substitute exchange or quotation system as on the original Exchange); or

- (ii) where such Index is specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, in relation to each Component Security of that Index, the principal stock exchange on which such Component Security is principally traded, as determined by the Calculation Agent. Where “**Principal Exchanges**” is specified as the Exchange for a Designated Multi-Exchange Index in the relevant Issue Terms, this sub-paragraph (ii) shall be deemed to apply;

“**Exchange Business Day**” means, in relation to an Index:

- (i) where such Index is not specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, any Scheduled Trading Day for such Index on which each Exchange and each Related Exchange for such Index are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time; or
- (ii) where such Index is specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, any Scheduled Trading Day for such Index on which (a) the relevant Index Sponsor publishes the level of such Index and (b) each Related Exchange for such Index for such Index is open for trading during its regular trading session, notwithstanding any such Related Exchange closing prior to its Scheduled Closing Time;

“**Indices**” and “**Index**” mean, subject to adjustment in accordance with Reference Item Condition 3.2 (*Adjustments to an Index*), the indices or index specified in the relevant Issue Terms and related expressions shall be construed accordingly;

“**Index Sponsor**” means, in relation to an Index, the corporation or other entity that (i) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such Index and (ii) announces (directly or through an agent) the level of such Index on a regular basis during each Scheduled Trading Day for such Index;

“**Market Disruption Event**” means:

- (i) in relation to an Index other than a Designated Multi-Exchange Index:
 - (a) the occurrence or existence at any time during the one-hour period that ends at the relevant Valuation Time of:
 - (A) any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (x) on any relevant Exchange(s) relating to Component Securities that comprise 20 per cent. or more of the level of the relevant Index; or
 - (y) in futures or options contracts relating to the relevant Index on any relevant Related Exchange; or
 - (B) any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (x) to effect transactions in, or obtain market values for, on any relevant Exchange(s) Component Securities that comprise 20 per

cent. or more of the level of the relevant Index, or (y) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Index on any relevant Related Exchange; or

- (b) the closure on any Exchange Business Day of any relevant Exchange(s) relating to Component Securities that comprise 20 per cent. or more of the level of the relevant Index or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one-hour prior to the earlier of (A) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange(s) on such Exchange Business Day or, if earlier, (B) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day,

which in any such case the Calculation Agent determines is material; or

- (ii) in relation to a Designated Multi-Exchange Index and a Component Security included in such Index either:

- (a) the occurrence or existence, in respect of any Component Security, of:
 - (A) a Trading Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded;
 - (B) an Exchange Disruption in respect of such Component Security, which the Calculation Agent determines is material, at any time during the one-hour period that ends at the relevant Valuation Time in respect of the Exchange on which such Component Security is principally traded; or
 - (C) an Early Closure in respect of such Component Security, which the Calculation Agent determines is material; and

the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists, comprises 20 per cent. or more of the level of the Index; or

- (b) the occurrence or existence, in respect of futures or options contracts relating to the Index, of: (A) a Trading Disruption at any time during the one-hour period that ends at the Valuation Time in respect of any Related Exchange, (B) an Exchange Disruption at any time during the one-hour period that ends at the Valuation Time in respect of any Related Exchange or (C) an Early Closure, in each case in respect of such futures or options contracts and which the Calculation Agent determines is material.

As used above:

“**Early Closure**” means the closure on any Exchange Business Day of the Exchange in respect of any Component Security or any Related Exchange prior to its Scheduled Closing Time unless such earlier closing is announced by such Exchange or Related Exchange, as the case may be, at least one-hour prior to the earlier of: (i) the actual closing time for the regular trading session on such Exchange or Related Exchange, as the case may be, on such Exchange Business Day; and (ii) the submission deadline for orders to be entered into the

relevant Exchange or Related Exchange system for execution at the relevant Valuation Time on such Exchange Business Day;

“**Exchange Disruption**” means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to effect transactions in, or obtain market values for: (i) any Component Security on the Exchange in respect of such Component Security; or (ii) futures or options contracts relating to the Index on any Related Exchange; and

“**Trading Disruption**” means any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange, as the case may be, or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise: (i) relating to any Component Security on the Exchange in respect of such Component Security; or (ii) in futures or options contracts relating to the Index on any Related Exchange.

For the purposes of determining whether a Market Disruption Event in respect of an Index or a Component Security exists at any time, if a Market Disruption Event occurs in respect of a relevant Component Security at that time, then the relevant percentage contribution of that Component Security to the level of the Index shall be based on a comparison of (i) the portion of the level of the Index attributable to that Component Security and (ii) the overall level of the Index, in each case either (a) except where the Index is a Designated Multi-Exchange Index, immediately before the occurrence of such Market Disruption Event or (b) where the Index is a Designated Multi-Exchange Index, using the official opening weightings as published by the Index Sponsor as part of the market “opening data”.

In determining what is “material”, the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer’s hedging arrangements in respect of the Notes.

“**Reference Price**” means, in relation to an Index and a Valuation Date, unless, in respect of Exempt Notes, the relevant Pricing Supplement provides otherwise, an amount equal to the official closing level of such Index as determined by the Calculation Agent (or, if a Valuation Time other than the Scheduled Closing Time is specified in the relevant Issue Terms, the level of such Index determined by the Calculation Agent at such Valuation Time) on that Valuation Date (as defined below);

“**Related Exchange**” means, in relation to an Index, each exchange or quotation system specified as such for such Index in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in futures or options contracts relating to such Index has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to the futures or options contracts relating to such Index on such temporary substitute exchange or quotation system as on the original Related Exchange), provided that where “All Exchanges” is specified as the Related Exchange in the relevant Issue Terms, “Related Exchange” shall mean each exchange or quotation system where trading has a material effect (as determined by the Calculation Agent) on the overall market for futures or options contracts relating to such Index;

“**Relevant Determination Date**” means a Valuation Date or, in respect of Exempt Notes, any other relevant date specified as such in the relevant Pricing Supplement, as the case may be;

“**Scheduled Closing Time**” means, in relation to an Index and an Exchange or Related Exchange and a Scheduled Trading Day for such Index, the scheduled weekday closing time of such Exchange or Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours;

“**Scheduled Trading Day**” means, in relation to an Index:

- (i) where such Index is not specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, any day on which each Exchange and each Related Exchange for such Index are scheduled to be open for trading for their respective regular trading sessions; or
- (ii) where such Index is specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, (a) any day on which the relevant Index Sponsor is scheduled to publish the level of such Index and (b) each Related Exchange for such Index is scheduled to be open for trading for its regular trading session;

“**Scheduled Valuation Date**” means, in relation to a Valuation Date, the original date that, but for the occurrence of an event causing a Disrupted Day, would have been that Valuation Date;

“**Trade Date**” means the date specified as such in the relevant Issue Terms;

“**Valid Date**” means, in relation to an Index, a Scheduled Trading Day for such Index that is not a Disrupted Day in relation to such Index and on which another Valuation Date does not or is not deemed to occur;

“**Valuation Date**” means each relevant date specified in the relevant Final Terms and designated as such in the relevant Payout Schedule or, in respect of Exempt Notes, in the relevant Pricing Supplement or, if any such date is not a Scheduled Trading Day for all of the Indices, the next following Scheduled Trading Day for all of the Indices unless, in the opinion of the Calculation Agent, such day is a Disrupted Day in relation to any of the Indices. If such day is a Disrupted Day in relation to any of the Indices then:

- (i) if “**Postponement**” is specified as applicable to the relevant Valuation Date in the relevant Issue Terms or if none of “Postponement”, “Modified Postponement” or “Omission” is so specified:
 - (A) where the Notes are specified in the relevant Issue Terms to relate to a single Index, that Valuation Date shall be the first succeeding Scheduled Trading Day for the Index that is not a Disrupted Day, unless each of the eight Scheduled Trading Days for the Index immediately following the relevant Scheduled Valuation Date is a Disrupted Day. In that case (x) that eighth Scheduled Trading Day for the Index shall be deemed to be that Valuation Date notwithstanding the fact that such day is a Disrupted Day and (y) the Calculation Agent shall determine the Reference Price by determining the level of the Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Component Security comprised in the Index (or if an event giving rise to a Disrupted Day has occurred in respect of the relevant Component Security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Component Security as of the Valuation Time on that eighth Scheduled Trading Day); or
 - (B) where the Notes are specified in the relevant Issue Terms to relate to a Basket of Indices, that Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the relevant Scheduled Valuation Date and that Valuation Date for each Index affected by the occurrence of a Disrupted Day (each an “**Affected Index**”) shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Index, unless each of the eight Scheduled Trading Days for the Affected Index immediately following the relevant Scheduled

Valuation Date is a Disrupted Day relating to that Index. In that case, (x) that eighth Scheduled Trading Day shall be deemed to be that Valuation Date for the Affected Index, notwithstanding the fact that such day is a Disrupted Day, and (y) the Calculation Agent shall determine the Reference Price for the Affected Index by determining the level of that Index as of the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that eighth Scheduled Trading Day of each Component Security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant Component Security on that eighth Scheduled Trading Day, its good faith estimate of the value for the relevant Component Security as of the Valuation Time on that eighth Scheduled Trading Day); or

- (ii) if “**Modified Postponement**” is specified as applicable to the relevant Valuation Date in the relevant Issue Terms:
 - (A) where the Notes relate to a single Index, that Valuation Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the eighth Scheduled Trading Day immediately following the final Scheduled Valuation Date relating to the relevant determination, as determined by the Calculation Agent, then (A) that eighth Scheduled Trading Day shall be deemed to be that Valuation Date (irrespective of whether the eighth Scheduled Trading Day is already a Valuation Date), and (B) the Calculation Agent shall determine the relevant level for that Valuation Date in accordance with sub-paragraph (i)(A)(y) above; and
 - (B) where the Notes relate to a Basket of Indices, that Valuation Date for each Index not affected by the occurrence of a Disrupted Day shall be the relevant Scheduled Valuation Date and that Valuation Date for each Index affected by the occurrence of a Disrupted Day (each an “**Affected Index**”) shall be the first succeeding Valid Date in relation to the Affected Index. If the first succeeding Valid Date in relation to the Affected Index has not occurred as of the Valuation Time on the eighth Scheduled Trading Day for the Affected Index immediately following the final Scheduled Valuation Date relating to the relevant determination, as determined by the Calculation Agent, then (A) that eighth Scheduled Trading Day shall be deemed to be that Valuation Date (irrespective of whether that eighth Scheduled Trading Day is already a Valuation Date) in relation to such Affected Index, and (B) the Calculation Agent shall determine the relevant level for such Valuation Date in accordance with sub-paragraph (i)(B)(y) above; or
- (iii) if “**Omission**” is specified as applicable to the relevant Valuation Date in the relevant Issue Terms, then such date will be deemed not to be a relevant Valuation Date for the purposes of the relevant determination provided that, if through the operation of this provision there would not be a relevant Valuation Date for the relevant determination, then the provisions of paragraph (i) above will apply for the purposes of determining the relevant level in respect of the final Scheduled Valuation Date for the relevant determination, as if such Valuation Date were a Valuation Date that was a Disrupted Day for any of the Indices;

“**Valuation Period**” means each relevant period specified in the relevant Issue Terms and designated as such in the relevant Payout Schedule or, in respect of Exempt Notes, in the relevant Pricing Supplement;

“Valuation Period Date” means, in respect of a Valuation Period, and:

- (i) where the Notes are specified in the relevant Issue Terms to relate to a single Index, each Scheduled Trading Day falling during such Valuation Period, each such date being a “Valuation Date”; and
- (ii) where the Notes are specified in the relevant Issue Terms to relate to a Basket of Indices, each day which is a Scheduled Trading Day for all the Indices falling during such Valuation Period, each such date being a “Valuation Date”; and

“Valuation Time” means, in relation to an Index and:

- (i) any Reference Price:
 - (A) where such Index is not specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, the time specified as such in the relevant Issue Terms or, if no Valuation Time is specified, the Scheduled Closing Time on the Exchange for such Index on the relevant Valuation Date. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time; or
 - (B) where the Index is specified in the relevant Issue Terms as being a Designated Multi-Exchange Index, the Valuation Time specified in the relevant Issue Terms or, if no Valuation Time is specified, (a) for the purposes of determining whether a Market Disruption Event in respect of such Index has occurred: (A) in respect of a Component Security, the Scheduled Closing Time on the relevant Exchange and (B) in respect of any options contracts or futures contracts on the Index, the close of trading on the relevant Related Exchange, and (b) in all other circumstances, the time at which the official closing level of the Index is calculated and published by the Index Sponsor;
- (ii) any Observation Price, the relevant time at which the level of such Index is being determined.

REFERENCE ITEM SCHEDULE 4 EQUITY-LINKED NOTES

4. **Equity-Linked Notes**

4.1. Applicability

This Reference Item Schedule 4 (*Equity-Linked Notes*) is applicable only in relation to Notes which are specified to be “Equity-Linked Interest Notes” and/or “Equity-Linked Redemption Notes” (each, “**Equity-Linked Notes**”) in the relevant Issue Terms.

4.2. *Potential Adjustment Events, Extraordinary Events, Correction of Underlying Equity Prices and Adjustments for Equity-Linked Notes in respect of Underlying Equities quoted in European Currencies*

- (i) If “Potential Adjustment Events” are specified as applicable in the relevant Issue Terms, then following the declaration by an Equity Issuer of the terms of any Potential Adjustment Event, the Calculation Agent will determine whether such Potential Adjustment Event has a diluting, concentrative or other effect on the theoretical value of the Underlying Equities and, if so, will (a) make the corresponding adjustment, if any, to any of the terms of the Terms and Conditions as the Calculation Agent determines appropriate to account for that diluting, concentrative or other effect (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Underlying Equity) and (b) determine the effective date of that adjustment. The Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of such Potential Adjustment Event made by an options exchange to options on the Underlying Equities traded on that options exchange.

Upon making any such adjustment, the Issuer shall give notice as soon as practicable to the Holders in accordance with General Condition 15 (*Notices*), describing the relevant adjustment and giving brief details of the Potential Adjustment Event.

- (ii) If “Extraordinary Events” are specified as applicable in the relevant Issue Terms and an Extraordinary Event occurs, in each case, in relation to an Underlying Equity, the Issuer may:
- (a) require the Calculation Agent to determine the appropriate adjustment, if any, to be made to any of the terms of the Terms and Conditions to account for the relevant Extraordinary Event and determine the effective date of that adjustment. The relevant adjustments may include, without limitation, (i) in the case of Notes relating to a Basket of Underlying Equities only, the substitution of the Underlying Equity which is the subject of the relevant Extraordinary Event by another underlying equity selected by the Calculation Agent or the removal of such Underlying Equity or (ii) in the case of adjustments following a Merger Event or Tender Offer include, without limitation, adjustments to account for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Underlying Equities; or
- (b) give notice to the Holders in accordance with General Condition 15 (*Notices*) and redeem all, but not some only, of the Notes, each principal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount together with, if so specified in the relevant Issue Terms, accrued interest.

If the provisions of Reference Item Condition 4.2(ii)(a) apply, the Calculation Agent may (but need not) determine the appropriate adjustment by reference to the adjustment in respect of the relevant Extraordinary Event, made by an options exchange to options on the Underlying Equities traded on that options exchange.

Upon the occurrence (if applicable) of an Extraordinary Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with General Condition 15 (*Notices*) stating the occurrence of the relevant Extraordinary Event, giving details thereof and the action proposed to be taken in relation thereto.

- (iii) If “Correction of Underlying Equity Prices” is specified as applicable in the relevant Issue Terms and the price of an Underlying Equity published on a Relevant Determination Date is subsequently corrected and the correction (the “**Corrected Underlying Equity Price**”) is published on the relevant Exchange prior to the relevant Correction Cut-Off Date specified in the relevant Issue Terms, then such Corrected Underlying Equity Price shall be deemed to be the relevant price for such Underlying Equity at the relevant time on that Relevant Determination Date and the Calculation Agent shall use such Corrected Underlying Equity Price in determining the relevant amount payable in respect of the Notes.
- (iv) In respect of Equity-Linked Notes relating to Underlying Equities originally quoted, listed and/or dealt as of the Trade Date in a currency of a Member State of the European Union that has not adopted the single currency in accordance with the Treaty on the functioning of the European Union, as amended, if such Underlying Equities are at any time after the Trade Date quoted, listed and/or dealt exclusively in euro on the relevant Exchange, then the Calculation Agent will adjust any of the terms of the Terms and Conditions as the Calculation Agent determines to be appropriate to preserve the economic terms of the Notes. The Calculation Agent will make any conversion necessary for the purposes of any such adjustment as of the Valuation Time at an appropriate mid-market spot rate of exchange determined by the Calculation Agent prevailing as of the relevant Valuation Time. No adjustments under this Reference Item Condition 4.2(iv), will affect the currency denomination of any payments in respect of the Notes.

4.3. *Definitions*

The following expressions have the following meanings in the context of Equity-Linked Notes only:

“**De-Listing**” means, in respect of any relevant Underlying Equities, the Exchange announces that pursuant to the rules of such Exchange, such Underlying Equities cease (or will cease) to be listed, traded or publicly quoted on the Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in any Member State of the European Union);

“**Disrupted Day**” means, in relation to an Underlying Equity, any Scheduled Trading Day for such Underlying Equity on which a relevant Exchange or any Related Exchange for such Underlying Equity fails to open for trading during its regular trading session or on which a Market Disruption Event in respect of such Underlying Equity has occurred.

The Issuer shall give notice as soon as practicable to the Holders in accordance with General Condition 15 (*Notices*) of the occurrence of a Disrupted Day on any Relevant Determination Date that, but for the occurrence of a Disrupted Day, would have been a Relevant Determination Date. Without limiting the obligation of the Calculation Agent to give notice to the Holders as set forth in the preceding sentence, failure by the Calculation Agent to notify the Holders of the occurrence of a Disrupted Day shall not affect the validity of the occurrence and effect of such Disrupted Day;

“**Equity Issuer**” means, in relation to an Underlying Equity, the issuer of such Underlying Equity;

“**Exchange**” means, in relation to an Underlying Equity, each exchange or quotation system specified as such for such Underlying Equity in the relevant Issue Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Underlying Equity has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Underlying Equity on such temporary substitute exchange or quotation system as on the original Exchange);

“**Exchange Business Day**” means, in relation to an Underlying Equity, any Scheduled Trading Day for such Underlying Equity on which each Exchange and each Related Exchange for such Underlying Equity are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time;

“**Extraordinary Event**” means a De-listing, a Merger Event, a Tender Offer, a Nationalisation or an Insolvency and (if applicable) any Additional Extraordinary Events specified in Reference Item Condition 4.4 (*Provisions applicable to Underlying Equities which are specified in the relevant Issue Terms to be ETF Shares*);

“**Insolvency**” means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of, or any analogous proceeding affecting, an Equity Issuer (i) all the Underlying Equities of that Equity Issuer are required to be transferred to a trustee, liquidator or other similar official or (ii) holders of the Underlying Equities of that Equity Issuer become legally prohibited from transferring them;

“**Market Disruption Event**” means, in relation to an Underlying Equity:

- (i) the occurrence or existence at any time during the one-hour period that ends at the relevant Valuation Time of:
 - (a) any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (A) relating to the Underlying Equity on the Exchange; or
 - (B) in futures or options contracts relating to the Underlying Equity on any relevant Related Exchange; or
 - (b) any event (other than an event described in (ii) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (A) to effect transactions in, or obtain market values for, the Underlying Equities on the Exchange, or (B) to effect transactions in, or obtain market values for, futures or options contracts relating to the relevant Underlying Equity on any relevant Related Exchange; or
- (ii) the closure on any Exchange Business Day of any relevant Exchange(s) or Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one-hour prior to (A) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange(s) on such Exchange Business Day or if earlier (B) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day,

which in any such case the Calculation Agent determines is material.

In determining what is “material”, the Calculation Agent shall have regard to such circumstances as it deems appropriate, which may include (but are not limited to) the Issuer’s hedging arrangements in respect of the Notes.

“**Merger Date**” means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent;

“**Merger Event**” means, in respect of any relevant Underlying Equities, any (i) reclassification or change of such Underlying Equities that results in a transfer of, or an irrevocable commitment to transfer, all such Underlying Equities outstanding to another entity or person, (ii) consolidation, amalgamation, merger or binding share exchange of an Equity Issuer with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such Equity Issuer is the continuing entity and which does not result in any such reclassification or change of all such Underlying Equities outstanding), (iii) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Underlying Equities of the Equity Issuer that results in a transfer of or an irrevocable commitment to transfer all such Underlying Equities (other than such Underlying Equities owned or controlled by such other entity or person), or (iv) consolidation, amalgamation, merger or binding share exchange of the Equity Issuer or its subsidiaries with or into another entity in which the Equity Issuer is the continuing entity and which does not result in a reclassification or change of all such Underlying Equities outstanding but results in the outstanding Underlying Equities (other than Underlying Equities owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Underlying Equities immediately following such event, in each case if the Merger Date is on or before the relevant Valuation Date;

“**Nationalisation**” means that all the Underlying Equities or all or substantially all the assets of an Equity Issuer are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof;

 - (b) where the Notes are specified in the relevant Issue Terms to relate to a Basket of Underlying Equities, that Valuation Date for each Underlying Equity not affected by the occurrence of a Disrupted Day shall be the relevant Scheduled Valuation Date and that Valuation Date for each Underlying Equity affected (each an “**Affected Equity**”) by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day for the Affected Equity that is not a Disrupted Day relating to the Affected Equity unless each of the eight Scheduled Trading Days for the Affected Equity immediately following the relevant Scheduled Valuation Date is a Disrupted Day relating to the Affected Equity. In that case (x) that eighth Scheduled Trading Day shall be deemed to be that Valuation Date for the Affected Equity, notwithstanding the fact that such day is a Disrupted Day, and (y) the Calculation Agent shall determine the Reference Price for the Affected Equity using its good faith estimate of the value for the Affected Equity as of the Valuation Time on that eighth Scheduled Trading Day; or

1.3. Definitions applicable to Fixed Rate Notes

The following expressions have the following meanings for the purposes of this Interest Payout Condition 1 (*Fixed Rate Note Provisions*):

“**Broken Amount**” has the meaning given in the relevant Issue Terms;

“**Fixed Coupon Amount**” has the meaning given in the relevant Issue Terms;

2. Floating Rate Note Provisions

2.1. Application

This Interest Payout Condition 2 (*Floating Rate Note Provisions*) is applicable to the Notes only if the Floating Rate Note Provisions are specified in the relevant Issue Terms as being applicable to one or more Interest Period(s).

2.2. Determination of Underlying Rate

(i) Screen Rate Determination

If Screen Rate Determination is specified in the relevant Issue Terms as the manner in which the Underlying Rate(s) is/are to be determined, the Underlying Rate applicable to the Notes for each relevant Interest Period will be determined by the Calculation Agent on the following basis:

(A) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Calculation Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

(B) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

- (C) if, in the case of Interest Payout Condition 2.2(i)(A) above, such rate does not appear on that page or, in the case of Interest Payout Condition 2.2(i)(B) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Calculation Agent will:
- (a) request the principal Relevant Financial Centre office of each the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (b) determine the arithmetic mean of such quotations; and
- (D) if fewer than two such quotations are provided as requested, the Calculation Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Calculation Agent) quoted by major banks in the principal financial centre of the Specified Currency, selected by the Calculation Agent, at approximately 11.00 a.m. (local time in the principal financial centre of the Specified Currency) on the first day of the relevant Interest Period for loans in the Specified Currency to leading banks in the relevant Financial Centre interbank market for a period equal to the relevant Interest Period and in an amount that is representative for a single transaction in that market at that time,

provided, however, that if the Calculation Agent is unable to determine a rate or, as the case may be, an arithmetic mean in accordance with the above provisions in relation to any Interest Period, the Underlying Rate applicable to the Notes during such Interest Period will be the rate or, as the case may be, the arithmetic mean last determined in relation to the Notes in respect of the immediately preceding Interest Period.

(ii) ISDA Determination

If ISDA Determination is specified in the relevant Issue Terms as the manner in which the Underlying Rate(s) is/are to be determined, the Underlying Rate applicable to the Notes for each relevant Interest Period will be the relevant ISDA Rate where “**ISDA Rate**” in relation to any Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (B) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Issue Terms; and

2.3. *Types of Floating Rate Notes*

(i) Non-Structured Floating Rate Notes

This Interest Payout Condition 2.3(i) (*Non-Structured Floating Rate Notes*) is applicable to the Notes only if the Non-Structured Floating Rate Note Provisions are specified in the relevant Issue Terms as being applicable to one or more Interest Period(s).

(A) Rate of Interest in respect of Non-Structured Floating Rate Notes

Where the relevant Issue Terms specifies that the Non-Structured Floating Rate Note Provisions apply, the Rate of Interest applicable to the Notes in respect of each relevant Interest Period will be determined by the Calculation Agent by reference to the following formula:

$$(\text{Leverage} \times \text{Underlying Rate}) + \text{Margin}$$

For this purpose a “**sub-unit**” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

Where the Specified Denomination of a Note is the Calculation Amount, the amount of interest in respect of such Note shall be the Interest Amount.
